THE MEYER-STISSER CO Seeds for the Market and Garden. BALTIMORE, MD.

What Some of Our Customers Say About Us

It affords us great pleasure to reproduce a number of testimonials herewith. Want of space does not permit us to give you all on file.

We count among our Customers some of the leading Clubs, State, Catholic and Hebrew Institutions, Schools, Hospitals, Sanitoriums, German Institutions, Florists, Farmers and Private Gardeners.

The Maryland School for the Blind, Overlea, Md.

We are pleased to report that the seed we bought from you the past season turned out well.

¹ We had no trouble whatever with them not coming up and the yield was fine and the vegetables clean and well developed.

(Signed) JOHN F. BLEDSOE, Supt.

Crownsville State Hospital, Crownsville, Md.

We can only say that all articles coming from your firm have proven to be very satisfactory. All our seeds for last year's planting germinated quickly and yielded large crops. Further you have supplied us with goods of high standard and lowest prices.

(Signed) DR. ROBERT P. WINTERODE, Supt.

Maryland Normal and Industrial School, Bowie, Md.

We have purchased practically all of our seeds, fertilizers and farm necessities generally, for the last four years from Meyer & Stisser, of 32 Light street, Baltimore. It is not only a pleasure but it is just to say that we have received prompt shipment, excellent materials, good prices, and that our relations have been in every way satisfactory.

(Signed) D. S. S. GOODLOE, A. B., Principal.

General German Aged People's Home, Baltimore, Md.

We beg to state that we have bought goods from you for several years and they have turned out very satisfactory.

(Signed) C. H. BLANCK, Chairman.

Doughoregan Manor Farm, Ellicott City, Md. Chas. Carroll of Carrollton, Owner.

In the past two years we have purchased from you a considerable quantity of supplies for our large poultry plant; also garden seeds, bulbs, etc., for our gardens and green houses, and have always found them to be first-class goods.

We take pleasure in recommending the Meyer-Stisser Company to those who want first-class goods, and courteous treatment.

(Signed) CHAS. F. HAIGHT, Mgr.

Hon. C. J. Bonaparte, Glenarm, Md.

'It affords me much pleasure to write you that I have just finished digging my potatoes and although this has been the year of the greatest drought ever known in Maryland, my potato yield has been abnormal. The potatoes are also unusually large. The Timothy seed I, purchased is especially clean and I have always found your firm courteous and prompt.

(Signed) JAS. L. GOODWIN, Mgr.

The Sykesville Lumber, Coal and Grain Co., Sykesville, Md.

It gives us pleasure to add our testimonial not only as to the reliability of your seed, but also to the business end of handling orders. Your seeds have given entire satisfaction in every instance and orders have been shipped promptly and accurately on all occasions.

(Signed) WADE H. D. WARFIELD, Pres.

Urchllyn Farm, Revell, Md. Edwin P. Baugh, Jr., Owner.

It gives me real pleasure to state that we have found the goods purchased from you almost invariably satisfactory and in the few cases where there was a chance for dispute I have always found you people one of the rarest of all things in the business world, a firm always willing to back up any guarantee given, and do it both quickly and cheerfully.

(Signed) CLAYTON S. DOTY, Mgr.

Filston Manor, Glencoe, Md. Wm. H. Grafflin, Owner.

I have had dealings with you for more than three years purchasing various implements, etc.

The seed obtained from your firm produced magnificent plants and were admired by those who saw them. I consider your store one of the most reliable in existence. You are always obliging and prompt in every possible way and endeavor to give satisfaction to every one.

(Signed) CHAS. UFFLER, Mgr.

A. Spath, Jr., & Son, Florists, Roland Park, Md.

We are glad of the opportunity to tell you that we are much pleased with your seeds, especially Lawn Grass Seed with which we have had most experience. We have used grass seed from other sources but have had many complaints; but after using your Roland Park mixture for two years we have not had one single complaint, not even this summer, which was unusually dry. Wishing you much success in the future, we remain,

(Signed) A. SPATH & SON.

Johns Hopkins University, Baltimore, Md.

It affords me great pleasure to inform you that the grass seeds purchased from your house for the athletic field in Homewood and also for the new grounds which were laid off recently. I can recommend your house for the quality of seeds you sell and also for your courtesy,

(Signed) A. T. CHALK, Supt.

Baltimore Manual Labor School, Arbutus, Baltimore County, Md.

Your seed purchased by the Baltimore Manual Labor School for the last four years have given great satisfaction. I want to thank you for the interest and promptness you have shown in filling our orders.

(Signed) MISS M. E. WEAVER, Supt.

Eudowood Sanatorium, Towson, Md.

It is a pleasure to recommend your firm for its promptness and the quality of goods turned out.

(Signed) EUDOWOOD SANATORIUM.

Women's Civic League, Fidelity Building, Baltimore, Md.

Your prompt attention to the Home Garden Committee's order for seed was most satisfactory. All of the seeds received from you, both vegetable and flower, have proveu entirely reliable.

(Signed) MARTHA O'NEILL,

Fifth Annual Edition The Meyer-Stisser Co.'s Garden Book for 1915

We Take This Opportunity

of thanking our many customers for their generous patronage in the past, and to assure them that we will continue to do all in our power to merit a continuance of their confidence. Our organization and equipment are such that orders can be executed rapidly, and we aim to give every order, no matter how small or how large, prompt and careful attention. Our whole efforts and time are unfailingly devoted to uphold the reputation which we have established, and we shall ever be on the alert to support our motto, "Punctuality, Sterling Quality, Courteous Treatment."

PLEASE READ! We aim to give our customers the best service possible. If we make an error, tell us about it, and we'll make it right to your satisfaction. If there is any information you want in our line of business, write us, (if you can't call), and we shall be glad to give it careful attention. Our various departments are in charge of experts, who are able to answer intelligently almost all inquiries pertaining to horticulture or agriculture. Always write inquiries on a sheet separate from your order; it means quicker reply.

THE ATTENTION OF OUR CUSTOMERS IS RESPECTFULLY CALLED TO THE FOLLOWING DIRECTIONS, WHICH WILL, IF FOLLOWED, BE AN AID TO PURCHASERS AS WELL AS OURSELVES:

Business Rules

Ordering, Remitting, Accounts, Forwarding, Etc. PLEASE ORDER EARLY, thus enabling us to forward promptly—as a rule the day after the order is received. During the March and April rush we may fall a day or two behind, if any greater delay is likely, we will advise. THE ORDER BLANKS accompanying this catalogue will be convenient for customers and facilitate our filling orders (extra ones mailed on request).

on request)

on request).

REMITTANCES should be made by Express Money Order, P. O. Money Order, Bank Draft or Registered Letter.

ACCOUNTS—Parties having no account with us—who order goods without remittance—must furnish satisfactory reference. Baltimore reference preferred on account of the shorter delay pending investigation.

WE FORWARD AS CUSTOMERS DIRECTS by mail express, freight or steamer. When no

by mail, express, freight or steamer. When no shipping instructions are given we send according to our judgment.

WE MAKE NO CHARGE FOR SHIPPING AND CARTING of goods to any railroad station, steamship line or express office in Baltinore.

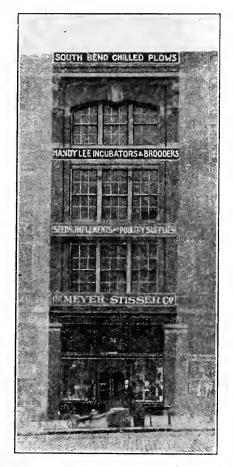

CORRESPONDENCE IN THE GERMAN LANGUAGE—For the convenience of our customers who would prefer their native language, we are pleased to announce that we are prepared to correspond in German.

(Hier wird deutsch gesprocnen.)

C. & P. Phone, St. Paul 6916.

ORDER BY TELEPHONE—We have installed a most modern system, enabling our customers to receive instant attention. A special staff of experienced salespeople are reserved exclusively for the telephone service, so that our patrons may enjoy intelligent shopping from their homes.

OUR OFFICE AND SEED STORE 32 LIGHT STREET, BALTIMORE, MD.

WE CANNOT GUARANTEE THE WELL-DOING of any seeds, plants or bulbs we send out. We use every effort possible in the selection of our seeds, and feel justified in saying that all our seeds are the purest and best to be found; but at the same time, there being so many things beyond the control of man that spoil the best seeds and cause poor crops that it is impossible to guarantee seeds. Therefore, The Meyer-Stisser Company give no warranty, expressed or implied, as to description, quality productiveness or any other matter of any seeds, bulbs or plants they send out, and they will not be in any way responsible for the crop. If the purchaser does not accept the goods on these terms, they must be returned at once.

When seeds are ordered by mail postage must be added to catalogue prices at the regular parcel post rate, according to the zone the purchaser is in. One quart of Peas and Beaus, weighing about 2 lbs. each, and Corn, about 1½ lbs. Packages and ounces are mailed postpaid.

Remedies and Insecticides in Liquid Form and Poisons cannot be sent by Parcel Post.

Prices of seeds vary. We quote Market Values upon request and always give our customers the benefit of the lowest price that the market condition will warrant. Special prices on a general list will be given upon application.

Invitation

All customers and others interested in horticulture or agriculture are cordially invited to visit our establishment, 32 Light Street. Whenever in Baltimore make this store your headquarters and have all letters and telegrams addressed here.

SPECIAL NOTICE-Positions For Gardeners, Etc. Our house makes it their business to procure positions for Gardeners, Superintendents, Poultrymen, Farmers and Florists on private or commercial places. Gentlemen wishing to engage the services of men in the above capacity are invited to communicate with us, as we generally have applications on file from desirable parties. Absolutely no obligation is connected with this service.

| STRAWBERRY— Leaf-spot | Sulphate of iron, bordeaux mixture. | Soon after growth hegins. | Make three or four spray- ings during season. | The following spring spray just hefore hlossoming and again 10 days later. |
| Squash— Aphis Lady Beetle Tomato— | Kerosene emulsion, Arsenate of lead. | Spray underside of leaves. As soon as pest appears. | | |
| Anthracnose | Bordeaux mixture. | Soon after fruit begins to | Three weeks later. | Three weeks later. |
| Leaf-blight | Bordeaux mixture. | set. Three weeks after trans- planting. | Three weeks later. | Three weeks later. |
| White Fly | Whale-oil, soap and water. | Spray underside of leaves thoroughly. | | |

Col. C. B. Rogers, Stevenson, Md., tells us that up to the time he bought seeds elsewhere, he had never had complete satisfaction. He purchased seeds from us last season and had most wonderful results. Especially with Cantaloupes, Watermelons, Early Peas, Corn, Lima Beans and Potatoes. From half hushel, 30 lbs., Irish Cobbler Potatoes planted, he harvested 5 bushels and a quarter peck, or 303% lbs.

M. & S. Celebrated Lawn and Field Grass Seed Mixtures

M. & S. Roland Park Lawn Grass

One of the most essential parts of the country place and suburban home is a carefully made and well-kept lawn. No trouble should be spared in its making, as much of the future results depend upon the start or foundation of the lawu, which, if correctly made, can easily be kept in perfect condition for years, and give pleasure not only to the owner, hut to others who see it. In seeding for lawn-making, care should be taken that a well-balauced mixture of grasses is used, one composed of such varieties as will bleud together well and also ripeu successively, thus securing a healthy and beautiful color throughout the summer. This special mixture produces beautiful and permanent lawns. It is made from our own formula, and composed of grasses which are adapted for the purpose of producing turf which retains its rich greeu color and velvety appearance throughout the entire summer and fall. Iu making up this hrand we are careful to use seed that has been thoroughly re-cleaned, the light seed aud chaff having been blown out. 1/4 lb., 10c.; 1/2 lb., 15c.; lb., 25c.; 5 lbs., \$1.10; bu. of 20 lbs., \$4.00.

M. & S. Shady Nook Grass. It is quite difficult to obtain a satisfactory growth of grass under trees and in shady places; for sowing in such places we recommend the use of this special mixture. It will quickly produce an abundant and even growth of beautiful green grass. The grasses used in making this special mixture are only those that are well adapted for growing in shade. It has been successfully used on some large operations where a green sward was

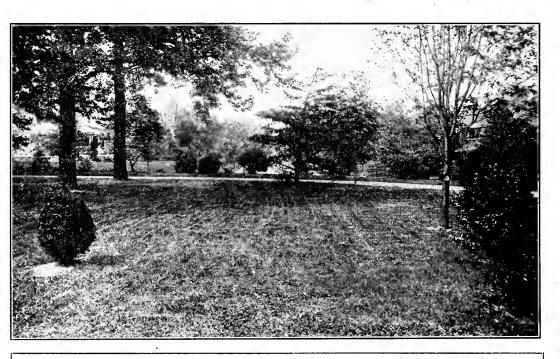

desired ou laud partially shaded by old trees. 1/2 lb., 20c.; lb., 30c.; 5 lbs., \$1.35; bu. of 20 lbs., \$4.75.

M. & S. Pleasure Grounds Mixture. For fair greens, golf links, athletic grounds, etc. The turf required for pleasure grounds must be of a character to withstand rough usage. This special mixture is made from our own formula, and will produce a permanent turf that will stand the hardest wear. For tennis courts, cricket tables, golf links, polo grounds, or wherever a good sward is wanted, this seed will give perfect satisfaction. We believe that the golf links should be as fine as a velvety lawn, hence the need of a fine mixture. Lb., 25c.; 5 lbs., \$1.00; bu. of 20 lbs., \$3.75.

M. & S. Terrace Mixture. For embankments and terraces. Lb., 25c.; 5 lbs., \$1.00; bus. of 20 lbs., \$3.75.

White Clover. (Trifolium repens.) Some White Clover is usually included in lawn-grass mixtures. It makes an excellent turf that stands constant trampling. It is of dwarf habit, spreads rapidly and is very hardy. It is valuable in permanent pastures, being sweet and untritious. Sow in Spring or Fall. In mixtures, two pounds; if alone, ten pounds to the acre. Fancy re-cleaned seed, ¼ lb., 15c; ½ lb., 30c.; lb., 50c.

M. & S. Special Grass Mixture for Hay and Pasture. M. & S. Pasture Mixture is prepared to meet the average need. It is made up of the grasses best calculated to afford an abundant and nutritious food supply for stock. Its formula is based upon successful experience. For all ordinary permanent pasturage it will be found entirely satisfactory. Bushel of 14 lbs., \$2.75.

LANDSCAPE GARDENING—A New Innovation

If you want to lay off a new place in shrubs or flower beds, give us the size of your lot, and our Landscape Expert will make suggestions FREE of Charge.

We are constantly in touch with leading Landscape Gardeners and are best prepared to lay off your gardens to be a show place in your community.

A few of the many testimonials received on the merits of M. & S. Grass Seeds:

Gentlemen:

It affords me great pleasure to state that I have never had such wonderful results before as I have had with your M. & S. Rolaud Park Lawn Grass Seed.

> Respectfully, REV. W. P. DAME, 1409 Bolton St., Baltimore, Md.

James W. Speucer, Gardener at Roland Park, informs us that he has never had such excellent results in making lawns as he has had since using our M. & S. Rolaud Park Lawn Grass Seed.

On December 6, 1913, Mr. J. W. Zimmerman, of Montebello Park, quotes as follows: "I planted your Roland Park Lawn Grass Seed to make a new lawn. It—has been cut three times, and could be cut again if the season was not so far advanced."

Mr. A. T. Chalk, Superintendent of "Homewood," the Athletic Field of the Johns Hopkins University, states that the grass seed purchased of us gave quicker and better results than any other he h as ever sown.

The Everblooming Butterfly Bush

(Buddleya Variabilis Magnifica)

Recently Introduced by a Leading Philadelphia Seed House

READ WHAT THEY SAY ABOUT IT

Flowerhead or Butterfly Bush.

SPECIAL MERITS:

- Very hardy.
 Blooms the first season.
 Flowers from early summer till frost.
 Rich, striking color.

Striking color.
 Splendid for cutting. Very free flowering.
 Will thrive anywhere.
 Order early, as last year we could not supply sufficient.
 Price for strong young plants, which will bloom the first season, if set out early (ready in May), 25c. each, \$2.50 per doz.

TWO NOVELTY DAHLIAS. Celeste Meyer and Eleanor Stisser.

Celeste Meyer. This variety originated from seed in the year 1911, and is now offered for the second time. A superb Fancy Decorative Dahlia. Combining all the virtues of a first-class Dahlia. The plant is a strong, class Dahlia. The plant is a strong, vigorous grower, foliage clean and bright, a height of four fect. Flowers are quite full and grows large in size; borne on exceptionally 10 ng stems, which hold the flower erect. Color, Tango Red, heavily tipped and striped with white, which in most of the flowers reaches down to the base of the petal,

down to the base of the petal, streaks of red and white. In others the marking is not so distinct, giving a shading of pink and white; a very attractive and pleasing flower; a very prolific bloomer. The supply of this, our latest creation in Dahlias achieved through uutiring effort and at great expense, is not very plentiful, and we ask our customers who would like to try one or several of this variety to please order early so that they will not be disappointed in the latter part of the season. Price, 25c. each.

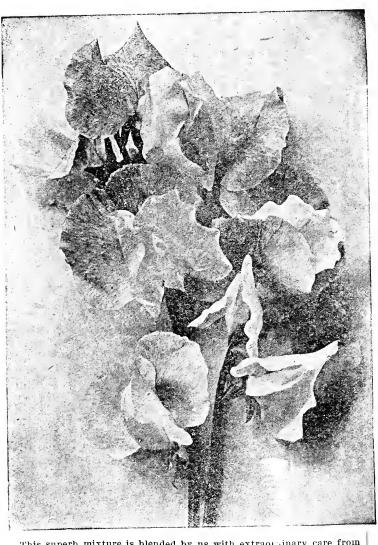

Eleanor Stisser

Eleanor Stisser. A fine, large, decorative type originating in 1911, and is now offered for the second time to the public. This variety is a tall grower, making a height of five to six feet, strong and vigorous. Its color is quite new in the Dahlia family, being a combination of shadiugs quite unique—Buff to Salmon Rose with a distinct shading of Piuk, a pleasing combination of coloring and one that is especially effective in connection with autumn foliage. Flowers well above the foliage. The supply of this, our latest creation of Dahlias, achieved through untiring effort and at great expense, is not very plentiful, and we ask our customers who would like to try one or several of this variety to please order early, so that they will not be disappointed in the latter part of the season. Price, 25c. each.

BOX COLLECTION OF DAHLIAS. A new departure; np in sets of twelve assorted varieties, unlabeled, embracing a wide range of colors, Red, White, Pink, Yellow, Varigated, etc., no two alike. This collection is put up in a telescope box and is sent through Parcel Post to any parts of the United States for \$1.00.

M. & S. Seed Specials for 1915

This superb mixture is blended by us with extraor inary care from named varieties of the most approved large flowering type, including recent American and European novelties, as well as a great many new hybrids, as yet un-named, insuring a gorgeous color effect. There has been a short crop of Sweet Peas for the past two seasons. Consequently the seed supply is very short. We will endeavor to adhere to the catalogue price as long as we can. Intending purchasers are advised to order as soon as possible after receipt of catalogue. It wiil be almost impossible to replace our "M. & S." Gilt Edge Mixture after our supply is sold. Pkt., 5c.; oz., 10c.; 1/4 lb., 25c.; 1/2 lb., 40c.; lb., 75c.

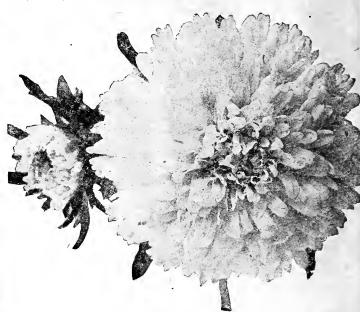

Woodruff (Ger. Waldmeister). A sweet scented herb which is used as essence in the German Maitrank. Pkt., 15c.

BLACK BEAUTY EGG-PLANT.

This beautiful Egg-Plant is a great improvement over the well-known and largely-grown New York Improved Large Purple. The plants are remarkably healthy in their growth, and produce an abundance of large fruits fully ten days earlier than the New York Improved. The skin is of a rich purplish-black color, making the fruit very attractive in appearance. It is also entirely spineless. The quality is all that could be desired. Pkt., 5c. and 10c.; oz., 25c.; ¼ lb., 85c.

DANISH PICKLING CUCUMBER.

A new introduction from Denmark. Seeds extremely scarce. A very prolific grower producing small dark green warty fruit, especially desirable for pickling. Sold in 25c. packages only.

Choicest mixture of beautiful colors. Glowing crimson, lightblue, pink, purple violet, pure white and brilliant rose. This is the most perfect, very double, large and finely shaped aster in cultivation. Pkt., 10c.; 3 pkts., 25c.

EARLY FORTUNE CUCUMBER.

This new variety of cucumber was discovered several years ago in a field of "Davis Perfect," and is now so thoroughly established that large fields do not show any variation in plant or fruit. The vines make a strong and vigorous growth, producing abundant crops of cucumbers, which are slightly longer than Arlington White Spine, more cylindrical in shape and have a very dark green skin. The flesh is thick, seed cavity relatively small and the quality is excellent. This variety is one of the best introduced in years. Pkt., 5c.; oz., 10c.; 1/4 lb., 20c.; lb., 75c.

WHITLOOF CHICORY, OR FRENCH ENDIVE.

WHITLOOF CHICORY, OR FRENCH ENDIVE.

Known in restaurants as French Endive. The stalks when blanched make a delicious salad. It is used in Europe as a boiled vegetable. We want to get our customers interested in this delicious vegetable, and feel confident that after it has once been tried it will become quite as popular as Swiss Chard which was only planted very sparingly a few years ago. Every garden should have a row of Witloof Chicory and we feel sure that every amateur or experienced gardener will be pleased with the results.

In order to grow good "Witloof" the seed should be sown during April in the open ground, in drills 10 or 12 inches apart, in deep, rich soil. Allow the plants to grow until November, keeping free from weeds and watering if necessary. Then take up the roots and trim off the leaves to about 1½ inches from the neck, break off any shoots which may appear on sides of root, and shorten lower end so that all will be of a uniform length of 8 to 10 inches. Then plant in a trench 16 to 18 inches deep, placing the roots upright, about 1½ inches apart. This will leave the necks of the roots about 8 inches below the level of the ground. Fill up the trench with good, light, well-drained soil, and, if speedy growth of any portion of the crop is desired, it may be accomplished by covering with a layer of manure at least 16 inches deep. In about 4 to 5 weeks the leaves will attain their proper size, and the manure may be taken off and roots dug up. The blanched head is the edible portion, and should be cut off, leaving a portion of the neck attached to it. Witloof is eaten raw or as a salad, and is also sometimes cooked like ordinary Endive. Pkt., 5c. and 10c.; oz., 15c.; ¼ lb., 40c.

Gentlemen: It affords me great pleasure to inform you that your "M. & S." Goldlined Rocky Ford Cantaloupe is the finest that I ever tasted; not only that, but from the ounce of seed which I purchased from you and planted, I raised quite a patch and every melon on it cut fine.

Yours truly,

P. H. FRIESE, Sparks, Md.

M. & S. Delphium (Larkspur)

(Ger. Rittersporn).

In variety and beauty of its blue tints, which are as numerous as they are charming, no other plant can equal the Delphinium. The brilliant flowers are strongly effective in beds or masses, in borders, strubberies, or in combination with white lilies. Improvements are continually being made in the size of the flowers, as well as in the length and fullness of the spikes. Some of the species flower both early and late; the season for all can be prolonged by cutting away withered flower-stems. All varieties are easily cultivated and adaptable to many conditions, but in a soil deeply dug and well enriched with fine old manure, their blooms are the finest. Setting them 1½ to 2 feet each way is not too much for the taller sorts.

Kelway's Giant. A strain recognized the world over as a prizewinner; plants are of strong, vigorous growth, with immense spikes of large flowers; many shades of blue; 5 feet. Large pkt., 25c.; pkt., 10c.

Delphinium Kelway's Giant.

Formosum. Blue, white centre. Chinense Album. White. Chinense Azureum. Blue. 10c. pkt.; 3 for 25c.

Chinense, Mixed (C. grandiflorum). Large flowers, ranging from pure white to indigo-biue. Young seedlings will bloom from midsummer until frost; 2 to 3 feet. 10c. pkt., 3 for 25c.

M. & S. Pansy

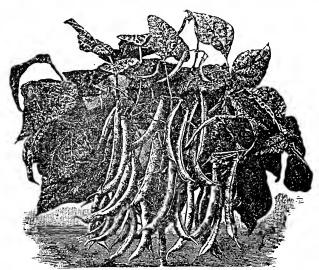

M. & S. Giant Exhibition. A blending of our own containing only the very choicest the specialists in Europe have to offer; it can be

relied upon to produce flowers of immense size, very heavy texture and of the most brilliant colors. 10c. pkt.; 3 for 25c.; \$2.50 per oz.

Triumph of the Giant Pansy. Immense flowers of great brilliancy and richness of coloring, including many new and rare shades. Pkt., 25c.; 5 pkts, \$1.00.

M. & S. Giant Stringless Greenpod Beans

M. & S. Giant Stringless Green Pod Beans. This strain is without doubt the most tender string bean in cultivation, even when the pod has become quite old it still retains its stringless qualities; that, however, is not the only thing in its favor, it recommends itself

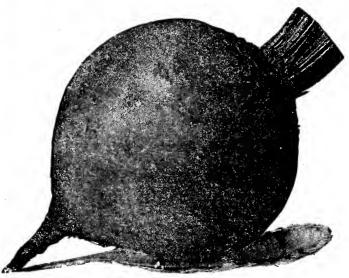

M. & S. Giant Stringless Greenpod Beans.

through its extreme earliness, prolific and continuous bearing qualities and superior flavor. This variety can be planted successively through the entire season; its handsome round pods often seven inches long delight the eye of any housewife; they fairly melt in your mouth. The leading sort for the home or market garden. Pt., 20c.; qt., 35c.; 4 qts., \$1.25.

M. & S. Improved Crimson Globe Beet

Crimson Globe (M. S. Improved). Almost round in shape, of a rich deep red color. It has a distinct delicious flavor and is very tender, good for sowing early for forcing and summer use. The ideal Beet for the home garden. Pkt., 5c.; 10c. per oz.; 1/4 lb., 30c.; \$1.00 per lb.

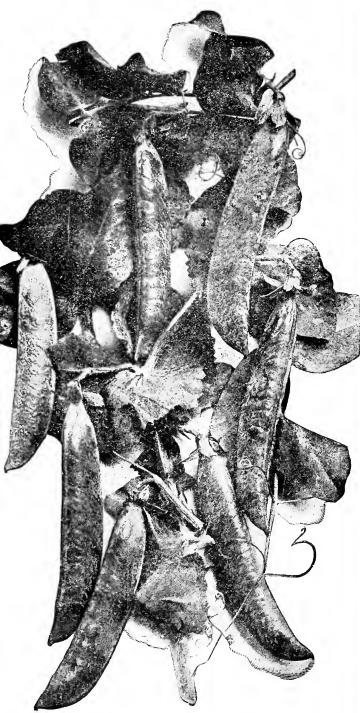

M. & S. Improved Crimson Globe Beet.

Gentlemen: Last spring I bought a packet of your Triumph of the Giant Pansies, and never in my long experience of growing Pansies have I had such beautiful flowers and a grand variety of colors.

W. R. BOWERS, Arlington, Md.

M. & S. Seed Specials for 1915

M. & S. Gladstone Peas

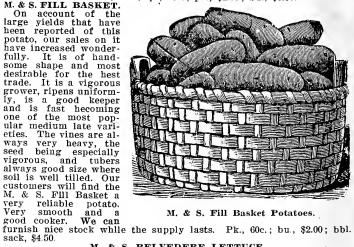

M. & S. Gladstone Peas. The finest meduim early in cultivation. Extra fine, large. recurved pods, well filled with peas of finest flavor; very productive. 3 feet high. Supply limited. Pkt., 10c.; Pt., 25c.; qt., 40c.; 4 qts., \$1.50; pk., \$2.50.

M. & S. Sherwood Peas. Very hardy and immense cropper, the largest-podded variety of the extra early and really may be classed a Dwarf Gradus, which variety it resembles, except that it only grows about 18 inches high and does not require any support. The vines make a vigorous growth, which enables them to withstand weather conditions unsuited to some of the large podded varieties, and the pods are well filled with large peas, which have an exquisite flavor. While the crop does not mature until a few days later than "Gradus," the quality of this new variety is equally as good. Pkt., 10c.; pt., 25c.; qt., 40c.; 4 qts., \$1.50; pk., \$2.50.

M. & S. Little Marvel Pea. An extremely valuable variety, superfor to Nott's Excelsior and American Wonder, especially suited to small home gardens, and also a splendid variety for early market gardening. It matures very early and produces large crops. The vines grow about 15 to 18 inches in height. The pods are dark green, fair sized, produced in pairs, and are closely filled with seven to eight peas of extra fine flavor. Pt., 15c.; qt., 25c.; pk., \$1.75; bu., \$8.00.

produced in pairs, and a extra fine flavor. Pt., 18 M. & S. FILL BASKET.

On account of the large yields that have heen reported of this potato, our sales on it have increased wonderfully. It is of handsome shape and most desirable for the hest trade. It is a vigorous grower, ripens uniformly, is a good keeper and is fast hecoming one of the most popular medium late varieties. The vines are always very heavy, the seed being especially vigorous, and tubers always good size where soil is well tilled. Our customers will find the

M. & S. BELVEDERE LETTUCE.

In 1912 we introduced this grand Lettuce after having it in our trial grounds for two seasons, and we were amply repaid by the success which our Truck Farmer customers had with it. (Read what Mr. John Comes says ahout it.) The M. & S. Belvedere is extremely slow in running to seed; it is therefore the ideal lettuce to plant in the Spring, as it withstands the Summer heat hetter than any variety we have known so far. It is all green, no red edges, is tender and crisp and has a fine yellow heart. The seed is scarce, and we advise our customers to order quick. Pkt., 10c.; oz., 25c.; ¼ 1b., 75c.; 1 lb., \$2.50.

I lb., \$2.50.

M. & S. DELICIOUS GOLD-LINED ROCKY FORD CANTALOUPE. This strain of the Eden Gem type is the result of several years selection by one of the most progressive farmers of Rocky Ford, Colo. Its shape is ideal, very slightly oval, no ribs, and it is heavily netted over the entire melon. The bloom button is small and flesh as thick at the end as elsewhere. The melon is thick meated, fine grained and sweet; color green, with a gold margin next to the seed cavity. Our claim for this melon is its uniform shape, size and very superior quality. Its flesh is attractive and elicits favorable comment when served. Every seed we offer from this strain will be from a select melon and hand seeded. We recommend this seed for the use of Melon Growers' Associations and high-class Market Gardeners. Pkt. 5c. and 10c.; oz., 15c.; ¼ lh., 40c.; 1 lb., \$1.50.

SWISS CHAPD. OR SPINACH BEET. GIANT LUCULLUS.

The leaves of Swiss Chard are used as greens, cooked in the same manner as spinach, and the large ribs are prepared like asparagus, in which manner they are delicious. Giant Lucullus is the largest and hest variety of Swiss Chard, and you should not fail to plant at least one long row in your garden this Spring. Pkt., 5c.; oz., 10c.; ¼ lb., 25c.; lb., 75c.

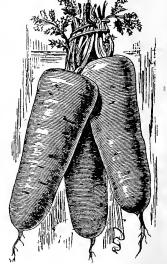

COPENHAGEN MARKET CABBAGE.

COPENHAGEN MAR:
A valuable new early cabbage from Denmark, producing a large globe shape head, which comes nto market along with Charleston Wakefield. It is well known that Denmark is a great cabbage and cauliflower country, and our seed comes direct from the originator. Produces fine, large heads uniform n shape and size and very solid, with few loose leaves. It is a vigorous grower and an excellent keeper. We have grown it for two years on our trial grounds where it excited great admiration. Pkt., 10c.; ½ oz., 20c.; oz., 35c.; ¼ lh., \$1.00.

PRIDE OF THE MARKET CARROT.

PRIDE OF THE MARKET CARROT. An ideal medium early, stumprooted carrot; smooth and uniform in shape, averaging five inches in length, with thick, heavy shoulders, rather large tops and deep orange yolor. Pkt., 5c.; oz., 10c.; 1/4 lb., 25c.; lb., 75. PRIDE OF THE MARKET CARROT.

RUBY KING, EXTRA EARLY
RADISH.
Of brilliant red color, fine for forelng or open ground; roots are tender, Juicy and mild. The best round red Radish that grows. Pkt., 5c.; oz., 0c.; ¼ lh., 20c.; ½ lb., 30c.; 1 lb., 50c.

Gentlemen: I want to inform you that when all other Lettuce had gone to seed and was burnt up this past summer, I was still hauling fine heads of Lettuce produced from your M. & S. Belvedere Lettuce Seed. Yours truly, JOHN COMES, Fullerton, Md.

M. & S. Reliable and Tested Vegetable Seeds

ASPARAGUS—Seeds and Roots (Ger. Spargel).

One ounce to forty feet of drill. 5 lbs. per acre.

Culture. Sow in Marcb or April, in rows one foot apart. When two years old transplant into permanent beds, which should be well and deeply manured, and trencbed to the depth of two feet. In planting for private use, set out in beds five feet wide, three rows in a bed, the outer being each one foot from the edge, and allow eighteen inches between the ways not the plants from four to giv inches below the the outer being each one foot from the edge, and allow eighteen inches between the rows; set the plants from four to six inches below the surface. If set out in autumn, top-dress with six inches of manure. For market, on a large scale, set out four by one-and one-half feet. On the approach of winter cover with manure or compost; fork the beds early in the spring, and apply a dressing of salt. Cut for use the second year after planting in permanent bed. Never cut too closely. The roots need the benefit of some foliage during the year, else they will weaken and die. Slugs are easily destroyed by applying air-slaked lime or paris green.

Giant Argenteuil. A new and entirely distinct variety that produces shoots that are white, and remain white as long as fit for use Pkg., 5c. and 10c.; oz., 15c.; ¼ lb., 25c.; lb., 75c.; two-year-old plants, 100, \$1.00; 1000, \$7.50.

Columbian Mammoth White. Pkg., 5c.; oz., 10c.; 1/4 lb., 20c.; lb., 50c. Two-year-old plants, 75c. 100; \$5.00 1000.

Conover Colossal. Of large size, tender and of excellent quality. Green shoots. Pkg., 5c.; oz., 10c.; ½ lb., 20c.; lb., 50c.; two-year-old plants, 75c. 100; \$5.00 1000.

Paletto. It is of very large size, even and regular in growth and appearance. It is a very early sort, and immensely productive and of the best quality. Green sboots, Pkg., 5c.; oz., 10c.; ¼ 1b., 20c.; lb., 50c.; two-year-old plants, 75c. 100; \$5.00 1000.

ACCESSORIES FOR ASPARAGUS CULTURE.

Even where one bas a limited amount of asparagus to market it pays to use a buncher. It is quickly tied and looks uniform. With Knife Guard, \$1.50,

Asparagus Knife. V-shaped blade, 30c.
Asparagus Salt. Applied in the spring, 600 to 800 pounds per acre, for destroying weeds. 100 lbs., \$1.00; 200 lbs., \$1.50.

Raffia. The ideal material for tying asparagus. 20c. a lb. in hanks. Special price in quantity; hanks run about 2½ lbs.

Jute Twine. Very soft and pliable. 10c, per ball; 25c. lb.

ARTICHOKES.

Large Green Globe. This is a very delicious vegetable. Some prefer it cooked like asparagus; that is, take the flower head before it begins to open and cook much the same way as asparagus. Pkt., 10c.; oz., 35c. Artichoke Roots (Jerusalem). The tubers roasted or boiled, served with butter, salt and pepper, make a disb some think superior to potatoes. They are most excellent feed for cows, and will cause an increase in quantity and quality of milk. Pk., 75c.; bu., \$2.50.

BRUSSELS SPROUTS (Ger. Rosenkohl).

One ounce will produce 2000 plants.

A variety of the Cabbage family, possessing the peculiarity of bearing upon its stem or stalk from fifty to one hundred buds resembling miniature Cabbage beads. The leaves composing these heads resemble Savoy Cabbage in their crumpled texture and also in their color. The heads or buds, one to two inches in diameter, form one of the most delicious garden vegetables, only equaled by the Cauliflower. Treat same as Cabbage.

Improved Dwarf. Produces compact sprouts of the finest quality; a good keeper. Pkt., 5c. and 10c.; oz., 20c.; ¼ lb., 60c.; lb., \$1.75.

BROCCOLI (Ger. Spargelkohl).

One ounce of seed to 200 feet of row.

A plant much resembling the Cauliflower. Broccoli requires a longer season to develop than Cauliflower. It has more numerous and stiffer leaves, and the beads are smaller. Treat same as Cabbage.

Early Large White. Heads medium size, close and compact. One of the most certain to bead. Pkt., 10c.; oz., 30c.; ½ lb., \$1.00.

Early Purple Cape.. Rather bardier sort, with greenish-purple heads, good flavor. Pkt., 10c.; oz., 30c.; ½ lb., \$1.00.

BEANS (Ger. Bohnen).

Culture. The seed should not be planted before the ground becomes light and warm, in favorable seasons, usually about the middle of

April to first of May. The soil should be rich and mellow, and the seeds scattered about three inches apart in drills two feet apart, and covered about two inches deep. Successive sowings made at intervals of about two weeks until August 15th, will give a plentiful supply of Beans all season. One quart of seed will sow 100 feet of drill; two bushels will sow an acre.

We furnish 5c. and 10c. packages of all Beans.

BUSH BEANS (Green Pod).

Hopkins Improved Extra Early Red Valentine. One of the most popular early snap beans with round, fleshy pods about five inches in length; very brittle, tender and of fine quality. Pt., 20c.; qt., 30c.; pk., \$1.85; bu., \$7.00.

M. & S. Giant Stringless Green Pod. The round, dark green pods, giant in size, are absolutely stringless and unsurpassed in tenderness. For the garden, there are few that will give better satisfaction. Pt., 20c.; qt. 35c. pk. \$250.

For the garden, there ar 20c.; qt., 35c.; pk., \$2.50.

M. & S. Giant Stringless Green Pod Beans.

Black Valentine, or May Queen. Has very long handsome round pods, and being immensely productive places this variety as one of the most profitable for the market gardener. It is very early. Pt., 20c.; qt., 35c.; pk., \$2.75; bu., \$10.00.

Dwarf Horticultural, or Cherry. This is a broad, long, flat, meaty bean, very productive, delicious flavor. It also makes a good dried bean for winter. Pt., 20c.; qt., 35c.; pk., \$2.75.

We furnish 5c. and 10c. packages of all Beans.

(Beans continued on next page.)

Farmogerm for Garden Peas. Means bigger crops, bealtbier vines, early and more continuous crops. Per trial bottle 25c. and 50c.; \$2.00 per acre bottle. It will pay you to use this when you plant peas and beans. (See Index.)

Burpee's Stringless Green Pod. An ideal variety having round, slightly curved, fleshy and exceedingly tender pods. Matures a few days earlier than the Giant sort. Pt., 20c.; qt., 35c.; pk., \$2.50.

Refugee, or 1000 to 1. Oue of the best suap Beans for main crop and late or sneeessfou plantings. It is enormously productive. The Beans are round-podded, tender and of excellent quality. Later than the early kinds, but hears much longer and is more productive. Pt., 20c.; qt., 30c.; pk., \$1.85°, bu., \$7.00.

White Navy, or Boston Pea Bean. Yields large quantities of white shell beans, which are used for baking. Pt., 15e.; qt., 25e.; pk., \$1.25.

WAX POD VARIETIES.

Currie's Rust-Proof Black Wax. Valuable for general use, being early, hardy, and a heavy yielder. Extra long flat pods of flue color, and not apt to rust. $P_{\rm t}$, 20e, $\{q_{\rm t}, 35e\}$; $p_{\rm t}$, 82.75; $h_{\rm t}$, $\{10.00\}$.

Davis White Kidney Wax. Pods remarkahly long, straight and landsome, waxy white color; enormously productive; seed white. Pt. 20c; qt. 35c; pk. 83.60.

Wardell's Kidney Wax. In growth of vine and productiveness this variety exceeds any other wax-podded bean. The long dat pods are of handsome appearance and usually free from rnst. Pt., 20c.; qt., 35c.; pk., \$3.00.

Improved Golden Wax. Small plants of erect growth bearing flathick pods about five inches in length, and of excellent quality. An early and reliable variety recommended for home use. Pt. 20c.; ct., 20c.; ct., 35e.; pk., \$3.00.

Dwarf Black Wax. Pencil Pod strain. It is so good that it is worthy of special notice. The pods are round, hrittle, of handsome golden yellow color, and of buttery flavor when cooked. Pt., 20c.; qt., 55c.; pk., \$300.

FARMOGERM (Nitrogen Gathering Bacteria). This wonderful preparation will revolutionize your hean crop, both in quantity and length of hearing time. Use according to directions and always mention the erop for which it is wanted See index for particulars. Zes. sulfellent for one quart of Beans; other sizes, 30c: 1-aere size, \$2.00; 5-acre size, \$6.00,

POLE LIMA BEANS.

POLE LIMA BEANS.
Culture. These require poles eight to ten feet long. The heans should be planted in May if the season is suitable. Set poles four feet apart each way, and plant four to six beans, about one inch deep, around each pole. Thin out to three plants to a pole, if the soil is rich; pinch off the ends of plants when they overrum the top of the poles, to effect more perfect grown in frames and transplanted. I at, to 100 poles King of the Garden. Vigorous grower, bearing large pods, five to eight inebes long. Beans large and of rich flavor. Ft., 15c.; qt., 25c.; pk., \$1.75; pk., \$5.00, hu., \$5.00.
For market. Our stocks are earefully sciected. Pt., 15c.; qt., 25c.; pk., \$1.50; bu., \$5.75.
Dreer's Imp., or Potato Lima. Beans round and thick, delicious flavor, easy to shell, immense eropper. Pt., 15c.; qt., 25c.; pk., \$1.75; bu., \$5.00.
Ford's Mammoth Podded. Pods contain from five to seven beans; vine grows vigorously; and bears until frost. Pt., 15c.; qt., 25c.; pk., \$1.75; bu., \$6.00.

BUSH LIMA BEANS.

1 qt. to 100 feet of drill.

Plant in rows two feet apart, and about

one foot apart in the rows.

Burpee's Bush Lima, The true bush form of the old large lima. Pt., 15e.; qt., 25c.; pk., \$1.75; bu.,

Henderson's Dwarf Lima. Beans are small, but heir flavor is excellent. Pt., 15c.; qt., 25c.; pk.,

Henderson's Dwarf Lima. Beans are small, but their flavor is excellent. Pt. 15c.; qt., 25c.; pk., \$1.75; bu., 85.50. or Potato Lima. Produces a medium size thick bean of fine quality. Pt., 20c.; qt., 30c.; pk., \$2.40 Bu., \$1.00. pds are truly enormous in size, abundantly and well filled with handsome beans, which are both larger and thicker than those of the popular Burpee's Bush Lima. Pt., 25c.; qt., 40c.; bu., \$6.00.

King of Garden Pole Lima.

Fordhook Bush Lima. Similar to Dreer's, but far superior, bearing in clusters of from four to eight, averaging four large heans to the pod. Pt., 25c; qt., 40c; pk., 83.00.

ENGLISH, OR BROAD WINDSOR BEANS.

(Ger. Sau, oder Grosse Bohnen.) Culture. Same as Bush Lima, only plant thinner. A hean similar to Lima Beans, but of different flavor and larger. Should be planted early, as they are very hardy. Pt., 15c.; qt., 25c.; pk., \$1.50.

We furnish 5c. and 10c. packages of all Beans.

POLE BEANS (Ger. Stangen Bohnen).

Culture. Same as Pole Lima.

Horticultural. Pods green, dashed with red when heans are matured. Very showy. Pt., 20c.; qt., 30c.; pk., \$1.75.

Kentucky Wonder, or Old Homestead. Very prolific, large pods.

Kentacky Wonder, or Old Homestead. Very proline, arge pous-pt, 20c; et al., 30c; pks, 82-0erry. Pods six to eight inches long, en-tirely stringless. of a rieh, bittery flavor when cooked as a snap-bean; also a good, white shell-bean for winter. One of the very finest flavored. Pt., 20c; et., 30c; pks, \$1.75.

TABLE BEETS (Ger. Salatruebe).

One ounce of seed sows sixty feet of drill; five pounds will sow an acre in drills.

acre in drills.

Culture. The soil best suited to the culture of the beet is that which is rather light, provided it is thoroughly mixed with manure. If wanted very early, sow in hotheds and transplant; but for main erop sow in the spring as soon as the ground hecomes fit to work, in drills kinches apart and two inches deep. For winter use sow as late as June. When the plants have attained three or four inches in height, thin out so that they stand five or six inches apart. Keep free from weeds. Before ree/sing weather sets in, the roots may be stored in cellars or pits reevaling weather sets in, the roots may be stored in cellars or pits raw and carth covering is put on insures the whom before the straw and carth covering is put on insures there keeping over winter. Be careful not to bruise them in bandling.

Extra Early Flat Egyptian. Maturing in an incredibly sbort time. Bulbs half globular, or flattened at the poles; roots very slim, skin smooth, leaves red and green, flesh quite, dark. Pkt., 5e.; oz., 10c.; ½ lb., 26c; lb., 60c. (Fig. 5.)

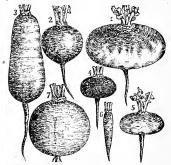

Crosby's Improved Egyptian. Very desirable. Thicker in body than the Egyptian, small necked and dark fleshed. Fine for early market. Pkt., 5c.; oz., 10c.; ½ lb., 20c.; lb., 60c. (Fig. 1.)

Extra Early Eclipse. Maturing in an incredibly short time, round-shape beet, Small top, and of excellent table qualities. Makes an attractive seller in market. Pkt., 5c; oz., 10c; ½ lb., 20c; lb., 60c. (Fig. 4.)

Edmand's Blood Turnip. This beet, of American origin, is the most uniform of all Turnip Beets. The root is always smooth, round and handsome, tops small, of good marketable size. Color dark red, flesh purplish-red, erisp, tender, and sweet. An excellent keeper. Pkt., 5c.;

oz. 16c; ½ lb. 20e; lb. 60c. (Pig. 7.)
Detroit Dark Red. (Fig. 2.) Blood-red, early, turuip-shaped variety. Has small, upright tops; fine round shape. Skin and flesh dark blood-red. Very tender and sweet. Remarkably uniform in growtb, and a particularly desirable sort for truckers and market gardeners. Pkt. 5e; co., 10c.; ½ lb., 20c.; lb., 75e.

Long, Monoth, Dark Blood. (Fig. 6.) This variety has long, sleuder roots. The beets are seldom more than two inches through. Matures rather late, but is an excellent keeper. The flesh is dark red and quality sweet and tender. Pkt., 5c.; 6z., 19c.; 44 lb., 20c.; lb., 75c.

(See illustration on Special, page 7.) A second early variety, does not grow large and coarse, the matured beets heing medium size and of good shape. The flesh and skin are both very dark and quality fine, heing sweet and tender. The tops are small and dark in eolor. Pkt., 5c.; oz., 10c.; L_i lh., 30c.; lb., \$1.00.

Swiss Chard, or Spinach Beet. Giant Lucullus. The leaves of Swiss Cbard are used as greeus, cooked in the same manner as spinach, and the large rihs are pre-

pared like asparagus, in which manner they are delicious. Glant Lucullus is the largest and best variety of Swiss Chard, and you should not fail to plant at least one long row in your garden this Spring. Pkt., 5c.; ca., 10c.; ¼, 10., 25c.; lh., 75c.

BEET (Mangel-Wurzel) (Ger. Runkelrueben).

Used for feeding cattle. Sow five pounds per acre.

Used for feeding cattle. Sow five pounds per acre.
Culture. Sow in April and May in thoroughly plowed, wellmanured soil, in drills two inches deep and about 18 iuches apart.
Thin out to 12 inches and keep the weeds down by frequent boeing
and cultivating. Low ground is best adapted for Mangel-Wurzel.
An ever-increasing acreage is being planted for stock beets, because of the wonderful results by feeding them as shown by the
reports of our Experiment Stations and leading farmers and stockmen. Fattening, breeding and milk cattle do equally well on then
Ahout one-fourth of the edily rations should be of roots. Hog
chedia is for the control of the control

(Cattle Beets continued on next page.)

CATTLE BEETS-Continued.

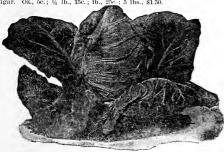

Jumbo Mangel. 1/4 lb., 15c.; lb., 40c. Immense, long red, very fine quality. Oz., 5c.;

Sludstrup Barres Mangel. Recently introduced from Denmark. The finest, largest and most prolific Mangel in existence. Half-long, stump-rooted, yellow flesh. Outside color orange with red top. Oz., 5c.; ¼ lb., 15c.; lb., 40c.; 5 lbs., \$1.75.

Gate Post Mangel, Large, yellow, excellent sort. Oz., 5c.: 1/4 lb., 15c.; lb., 40c.

Mønmoth Long Red. This is an enormously productive variety, yielding from 50 to 70 tons to the acre, a single root often weigbing from 20 to 40 pounds. It is the best long red mangel and very valuable for stock feeding. Oz. 5c.; $\frac{1}{2}$ lb., 15c.; lb., 35c.; 5 lbs., \$1.50.

Golden Tankard. (Fig. 3.) The best long yellow mangel in cultiva-tion. Relished by milch cows and sheep. Maturing earlier than other large sorts. Oz., 5c.; ¼ lb., 15c; lb., 35c.; 5 lbs., \$1.50. Improved White Sugar Beet. An improvement on the other vari-eties of sugar beets, hardier, and containing a greater percentage of sugar. Oz., 5c.; ¼ lb., 15c.; lb., 25c.; 5 lbs., \$1.50.

Early Jersey Wakefield Cabbage.

CABBAGE (Ger. Kopfkohl).

One ounce will produce about 2500 plants; one-quarter pound for transplanting an acre.

Culture. Sow seeds in January or February in hotbeds, and transplant latter part of April or early in May to open ground, or anearly sowing in open ground can be made as soon as weather will permit. Set the plants in rows two feet apart, and 12 to 18 linches apart in the row. For second early sow in April and transplant in May, or sow in May and transplant in July, setting plants in rows three feet apart and two feet in rows. Never plant in the same ground two years in succession.

Our Cabbage Seed is all grown from selected heads only, by a spe-

cialist on Long Island.

EARLY VARIETIES.

Copenhagen Market. A valuable new early cabbage from Denmark, Copenhagen Market. A valuable new early cabbage from Denmark, producing a large globe shape bead, which comes into market along with Charleston Wakefield. It is well known that Denmark is a great cabbage and cauliflower country, and our seed comes direct from the originator. Produces fine, large heads uniform in shape and size and very solid, with few loose leaves. It is a vigorous grower and an excellent keeper. We have grown it for two years on our trial grounds were a fedcited great admiration. Pkt., 10c.; ½ oz., 20c.; oz., 35c.; where it ex-

New Early. The largest of the early cabbage. The head is roundish flat and remarkably solid. Pkt., 5c. and 10c.; oz., 15c.; $\frac{1}{4}$ lb., 50c.; lb., \$1.50.

Early Jersey Wakefield. The finest oblong shaped cabbage in existence. The head is solid, there being very few ontside leaves. Pkt. 5c. and 10c.; oz., 15c.; ½ lb., 50c.; lb., \$1.50. Large Charleston Wakefield. Similar to Early Jersey, but the heads are more blunt, equally as solid, while it grows almost twice the size, but matures one week later. Pkt. 5c. and 10c.; oz. 15c.; the size, but matures 14 lb., 50c.; lb., \$1.75.

Early Flat Dutch. A dwarf-growing type, principally used for early summer. Pkt., 5c. and 10c.; oz., 15c.; ¼ 1b., 50c.; lb., \$1,75 Early Winnigstatt. Resembles the Early Jersey Wakefield somewhat, but the beads are more pointed and not so early. Pkt., 5c. and 10c.; oz., 15c.; ¼ 1b., 50c.; lb., \$1,75 Early Winnigstatt.

SECOND EARLY VARIETIES.

Early Drumhead. A large solid roundish flat-headed sort with few outer leaves. One of the best sorts to follow the Large Charleston Wakefield. Pkt. 5c. and 10c.; oz., 15c.; ¼ | lb., 50c.; lb., \$1.50

Henderson's Early Summer. The leaves have a more bluish cast than the other cabbages; the beads are roundish flat. Pkt., 5c. and 10c.; oz., 15c.; ¼ lb., 50c.; lb., \$1.50.

Succession. A very popular sort with the market gardeners. It matures about 10 days later than Early Summer. Pkt., 5c. and 10c.; oz., 15c.; ¼ ib., 50c.; lb., \$1.50.

LATE, OR WINTER VARIETIES.

All Seasons. (Vandergaw.) A very large head, round and solid. It is valuable for Summer or Winter use. Pkt., 5c. and 10c.; oz., 15c.; ¼ lb., 50c.; lb., \$1.50.

Danish Ballhead. An elegant medium late variety. Pkt., 5c. and 10c.; oz., 20c.; ¼ 1b., 60c.; 1b., \$2.00.

Late Flat Dutch. (Improved Strain.) This bas been selected especially for our trade, and seed was taken from the finest type of heads which were selected for solidity and uniformity. Pkt., 5c. and 10c.; oz., 15c.; ¼ lb., 40c.; lb., \$1.50.

Large Late Drumhead. Much like the above except the heads are not quite as large nor as flat. Pkt., 5c. and 10c.; oz., 15c.; 1/4 lb., 50c.; lb. \$1.50

Perfection Drumhead Savoy. A beantifully crimped-leaved sort, color a deep glossy green. The head is almost round. Pkt., 5c. and 10c.; oz., 15c.; 1/4 lb., 40c.; lb., \$1.50.

Red Dutch Drumhead. A red variety, used extensively for pickling. Pkt., 5c. and 10c.; oz., 20c.; 1/4 lb., 60c.; lb., \$2.00.

Volga. The heads often weigh 12 to 15 pounds. The interior is pure white. The heads are very solid. Pkt., 5c. and 10c.; oz., 25c.; 14 lb., 75c.; lb., \$2.50.

CABBAGE PLANTS.

Early Sorts. From hotbeds. All the leading varieties ready April 1st. 10c. doz.; 40c., 100 (by mail, 55c.); \$3.00, 1000. Late Sorts. Ready July 1st. 40c., 100; \$3.00, 1000.

CAULIFLOWER (Ger. Blumenkohl).

One ounce of seed to 1500 plants.

Culture. When grown to perfection this is a most delicious vegtable, and well repays generous treatment in cultivation. With a deep, cultivation. With a deep, rich soil, and an abundance of moisture, which in dry seasons must be applied artifically, Cauliflower can be grown well. The be grown well. The cultivation is similar to that of the Cabbage. For early Fall crops, sow in May and transplant in June, in rows four feet apart, setting

four feet apart, setting the plants two feet apart in the property was a ground is dry. Frequent hoeing and a liberal supply of rich, liquid manure, to keep up a continuous and rapid growth, will produce splendid beads of the most delicate flavor. It facilitates blanching if the leaves are gathered loosely together and tied over the top of the head to protect it from the sun. Cut before the flowers begin to open. Sow as late as June 20 for late crops, in beds or in hills, covering one-half incb deep.

Dry Weather or Danish Giant. The great drought resisting variety; the beads are large, snow white and are protected with a liberal growth of foliage. This is the ideal variety to plant for summer use if you want to be sure of cauliflower at that season. Pkt., 10c., 25c., 50c.; \$2.00 per oz.

An extremely early dwarf variety, producing eads of fine quality. Well adapted to botbed cul-Early Snowball. magnificent white heads of fine quality. ture. Pkt., 10c., 25c. and 50c.; oz., \$1.50.

Select Early Dwarf Erfurt. Of bigbest excellence, and for field culture not much surpassed by any type of newer name. Some so-called new varieties appear to be identical with Select Erfurt. Pkt., 10c., 25c. and 50c.; cs., \$1.50.

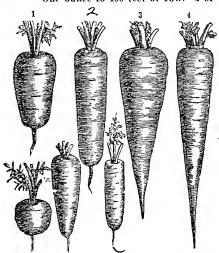

Veitch's Autumn Giant. A distinct and valuable late variety; heads large and fine, well protected by foliage. Pkt., 5c. and 10c.; oz., 50c.

CAULIFLOWER PLANTS.

Early Snowball. Ready in April. 60c., 100 (by mail, 75c.); \$5, 1000.

CARROT (Ger. Moehre, oder Gelbe Ruebe).

One ounce to 100 feet of row. 2 or 3 lbs. to the acre.

Culture. loomy soil that has been well manured the previous year is preferred for growing Carrots, although good although good crops may also be obtained from ordinary garden soil. For early use seed may be sown in hotbeds from January uutil March, and in the open ground as soon as the weather be ground as soon as the weather becomes warm and settled, usually in April. Sow seed one-half inch deep in rows 15 inches apart, and later thin to five inches in the row. Keep so il between the soil between the rows well hoed weeds. From July and free from 1st to 15th sow for

5. 6. 7
Pride of the Market. (See illustration on Special, page 8.) An ideal medium early, stump-rooted Carrot; smooth and uniform in shape, averaging five inches in length, with thick, heavy shoulders, rather large tops and deep orange color. Pkt., 5c.; oz., 10c.; ¼ lb., 25c.; lb. 75c.

Parisian Forcing. (Fig. 5.) Extremely early, of small size, but very sweet, tender and beautiful orange red color. Pkt., 5c.; oz., 10c.; 14 lb., 25c.: lb., 75c. Chantenay. (Fig. 2.) Top medium sized, neck small, roots tapering

slightly hut uniformly stump-rooted and smooth; color deep orangered; flesh very crisp and tender. Although this is a medium early sort, it furnishes roots of usable size as early as any, is a heavy cropper, and is undoubtedly one of the best for both the market and

private garden, and its great productiveuss makes it desirable as a field sort. Pkt., 5c.; oz., 10c.; ¼ lb., 25c.; lb., 75c.

Danvers, or Half-Long Orange. (Fig. 6.) Owing to its enormous yield, this variety is the best and most profitable for main crop, also desirable for feeding cattle. It is somewhat longer, thicker and a better keeper than the Chantenay. Pkt., 5c.; oz., 10c.; ¼ lb., 20c.; lb. 60c.

Guerande, or Oxheart. (Fig. 1.) A short thick carrot not exceeding four inches in length and about the same in width which does quite well on hard, heavy soils where the longer varieties are useless. Pkt., 5c.; oz., 10c.; ½ lb., 25c.; lb., 75c.

Intermediate. (St. Valery.) (Fig. 3.) Matures earlier than Long Orange Improved; has shorter and broader roots which gradually taper to a point. Valuable for feeding stock. Pkt., 5c.; oz., 10c.; ½ lb., 75c.

taper to a point. Valuable for feeding stock. Pkt., 5c.; oz., 10c.; 4 lb., 25c.; lb., 75c.

Long Orange Improved. (Fig. 4.) The longest and latest of all carrots; unsurpassed for its keeping qualities. Fine for feeding stock. Pkt., 5c.; oz., 10c.; 4 lb., 20c.; lb., 60c.

CORN SALAD (Ger. Acker Salat).

Culture. Sow in Spring, in drills one foot apart; it will mature in six to eight weeks. For Winter and early Spring use, sow in drills in August and September.

Large Leaved. Pkt., 5c.; oz., 10c.; ¼ lb., 15c.; lb., 40c.

Large Leaved Corn Salad.

SWEET, OR SUGAR CORN (Ger. Zucker Mais).

One quart will plant 200 hills: eight to ten quarts in hills to acre. Culture. The Sweet or Sugar varieties, being liable to rot in cold or wet ground, should not be planted before May, or until the ground has become warm: for a succession, continue plauting every two weeks, until the middle of July, in rich, well-manured ground, in hills three feet apart each way, covering about half an inch, and thin out to three plants to a hill. Extra early varieties can be planted 18 inches in the row and 2½ feet between the rows. The field varieties should be planted four feet apart each way, leaving three plants to a hill.

Extra Early Adams. Height of stalk three to four feet, ears set within six inches of ground. Not a sugar corn, but a decided acquisition so early in the season. Pt., 10c.; qt., 20c.; pk., 75c.; bu., \$3.00. Early Adams. Similar to Extra Early Adams: larger, but not so early. Pt., 10c.; qt., 20c.; pk., 75c.; bu., \$3.00.

Snow White Evergreen Sugar Corn.

Snow White Evergreen Sugar Corn. Snow White Evergreen Sugar Corn. It produces large uniform ears, which are well filled to the top with beautiful white kernels; it is 10 to 12 days earlier than Stowell's Evergreen. Splendid sort for market and home garden; keeps well after being cut. Pt., 15c.; qt., 25c.; pk., \$1.25; bu., \$4.00.

Peep-O-Day. This corn has two valuable points—extraordinary earliness and unsurpassed sweetness. It may be used for early

passed sweetness. It may be used for early or late planting with equal success; clamed to be the most prolific variety. Pt., 15c.; qt., 25c.; pk., \$1.25; bu., \$4.00.

Golden Bantam. Extremely early. A true sugar corn. The grain when ripe is a bright golden-yellow, the flavor is exceptionally rich and sugary. Produces from two to three good ears to the stalk. Pt., 15c.; qt., 25c.; pk., \$1.50; bu., \$5.00.

Black Mexican. An old favorite, being very tender and sweet. Pt., 15c.; qt., 25c.; pk., \$1.00.

Premo. One of the finest early that

pk., \$1.00. **Premo.** One of the finest early that grows. Pt., 15c.; qt., 25c.; pk., \$1.25:

Bu., \$4.00.

Early Sheffield. A splendid variety to come in between early and late sorts, and is destined to become as popular as Stowell's Evergreen.

Pt., 15c.; qt., 25c.; pk., \$1.00; Evergreen. bu., \$3.50.

Early Mammoth. Large ear, and early; splendid early market sort. Pt., 15c.; qt., 25c.; pk., \$1.00; bu., \$3.50.

Stowell's Evergreen. Matures for table in about 80 days

for table in about 80 days from germination. One of the sweetest, ears large, deep grained, of excellent quality, remaining green longer than any other variety. Pt., 15c.; qt., 25c.; pk., \$1.00; bu., \$3.50. Stowell's Evergreen on Ears. Each, 5c.; doz., 50c. Late Manmouth Sugar. The

Late Mammoth Sugar. strongest growing of all sugar corns. Takes 85 days to reach maturity for table. The ears are very large and showy. Pt., 15c.; qt., 25c.; pk., \$1.00; bu., \$3.50.

bu., \$3.50.

Country Gentleman. A short-stalked, productive sort. Ears large for so small a stalk; grain narrow and very deep; excellent quality. Pt., 15c.; qt., 25c.; pk., \$1.25; bu., \$4.50.

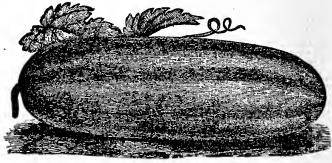

Shoe Peg, or Ne Plus Ultra. Very similar to the above. Pt., 15c.; qt., 25c.; pk., \$1.25; bu., \$4.50.

Red Cob, or 90-Day Corn. A distinct and well-known sort of white corn; matures in about 90 days; produces large, handsome ears. ¼ pk., 25c.; pk., 75c.; bu., \$2.50.

CUCUMBER (Ger. Gurke).

One ounce will plant fifty hills; two pounds, one acre.

Culture. For very early Cucumbers, sow the first of April in a hotculture. For very early Cultumbers, sow the first of April in a not-bed, upon pieces of sod or in small pots, so that they can be readily transplanted to the open ground (in rich soil) when danger of frost is over. For general crop plant, if the weather has become settled and warm, in hills about four feet apart each way; thin out to four of the strongest plants to each hill. They succeed best in a warm, moist, rich, loamy soil. For succession sow until the middle of August.

Early Fortune Cucumber.

Early Fortune. A great favorite with our Anne Arundel County farmers for its early maturity productiveness, uniformity in large size and dark green color. Pkt., 5c.; oz., 10c.; ¼ lb., 25c.; lb., 75c.

New Klondike. One of the best for shippers. Grows vigorous vines, fruits early and abundantly. Dark green in color, large size, and of fine flavor. Pkt., 5c.; oz., 10c.; ¼ lb., 25c.; lb., 75c.

Improved Early White Spine. The old standard favorite. Pkt., 5c.; oz., 10c.; ¼ lb., 20c.; lb., 60c. Special prices on large quantities.

Cucumbers continued on next page.

Arlington White Spine. Another standard sort. Pkt., 5c.; oz., 10c.; ¼ lb., 20c.; lb., 60c. Special prices on large quantities.

Improved Long Green. Long and crisp; a popular and reliable variety for pickles. Pkt., 5c.; oz., 10c.; 1/4 lb., 20c.; lb., 50c.

Jersey Pickle. Productive and said to "green" better than any other variety, and to "hold color." Pkt., 5c.; oz., 10c.; ¼ lb., 20c.; lb., 60c.

Livingston's Evergreen. A very strong grower, very early, bears firm, crisp fruit, which is excellent for slicing or pickling. Pkt., 5c.; oz., 10c.; ¼ lb., 25c.; lb., 75c.

Green Cluster. A short, prickly variety, bearing clusters, Fine for bottle pickles. Pkt., 5c.; oz., 10c.; ¼ lb., 25c.; Early Green Cluster. prolific. Îh., 75c.

Small Gherkin, or Burr. Used only for pickling while young and tender. Pkt., 5c. and 10c.; oz., 25c.

Danish Pickling Cucumber. A new introduction from Denmark. Seeds extremely scarce. A very prolific grower producing small dark green warty fruit, especially desirable for pickling, sold in 25c. packages only.

Japanese Climbing. Distinct from other varieties, being a real imber. Very prolific of fruit. A valuable interesting novelty. Pkt., climber. 5c. and 10c.; oz., 20c.

English Forcing Telegraph Cucumber. These are ideal for growing ontdoors as well as under glass. They produce enormons fruits, generally 18 to 24 inches long and 3 inches in diameter. They have a delicate flavor and possess very few seeds; for slicing, no other sorts can approach them. Pkt. of 12 seeds, 25c.; 100 seeds, \$1.25.

CELERY (Ger. Sellerie).

One ounce will produce about 2000 plants.

Culture. Sow the last of March or early in April, in an open border, in rich, mellow ground, in shallow drills, watering freely in dry weather. By rolling or pressing in the seed the result will be more satisfactory than when covered. Cnt the tops off once or twice before planting ont, to make them stocky. When the plants are five or six inches high transplant the dwarf varieties three feet, and the taller sorts four feet between the rows; plant six inches apart in the rows. Cultivate well, and when large enough, blanch by earthing-up. The first operation is that of "handling." generally done the beginning of September; after the soil has been drawn np with the hoe it is drawn closer around each plant by the hand to keep the leaves firm, in an upright posi-

leaves firm, in an upright posi-tion, and to prevent spreading. When the plants have become set when the plants have become set in an upright position the Celery wanted for early use should be banked, by throwing the soil up as close to the plants as possible with a plow and finishing it with a spade, bringing the earth up nearly to the tops of the plants.

French Golden Self-Blanching.

For early use; preferred by many to all other sorts; as self-blanch-ing as white Plume, and simply

lb., \$1.25.

Golden Heart. Largely used, always giving satisfaction; a showy sort; solid, of fine flavor and a good keeper. Pkt., 5c. and 10c.; oz., 15c.; ¼ lb., 40c.; lb., \$1.25.

Boston Market. A short, bushy, white, solid, excellent flavored market variety, constantly increasing in demand. Pkt., 5c. and 10c.; oz., 15c.; ¼ lb., 40c.; lb., \$1.25.

Winter Queen. This variety grows a very thick, solid and heavy stalk, and has a large heart. It is a close, compact grower, and when blanched is a creamy-white color. Pkt., 5c. and 10c.; oz., 20c.; ¼ lb., 50c.; lb., \$1.50.

Victory. Runs a close second to the above, very similar. Pkt., 5c. and 10c.; oz., 20c.; 1/4 lb., 50c.; lb., \$1.50.

Celery Plants, ready in July. 50c., 100; 1000 prices fnrnished on applica-

CELERIAC, OR TURNIP-ROOTED CELERY.

Giant Prague Celeriac. (Prager Riesen Selerie.) This is unquestionably the largest and best Celeriac in existence. The roots are very large, twice as large as the Erfnrt, almost globe shaped, smooth, with only a few roots at the bottom. Flavor is excellent. Pkt., 5c. and 10c.; oz., 15c.; ¼ lb., 40c.; lb., \$1.25.

EGGPLANT (Ger. Eierpflanze).

One ounce will produce about 1000 plants.

Black Beauty Eggplant.

Culture. Eggplant seed will not vegetate freely without a strong, uniform heat, and if the plants get the least chilled in the earlier stages of growth they seldom recover. Therefore, repeated sowings are sometimes necessary.

New York Improved Purple. The leading market variety; of large size, skin deep purple, smooth, free of thorns; flesh white, of excellent quality; very productive. Pkt., 5c. and 10c.; oz., 25c.; ¼ lb., 85c.

Black Beauty. The earliest large variety; color rich, dark purple. Pkt., 5c. and 10c.; oz., 25c.; ¼ lb., 85c.

EGGPLANT PLANTS.

Eggplant. Plants ready in May and June. Pot-grown, 50c. dozen, \$4.00 per 100. Eggplant seed will not vegetate

Eggplant. Plants ready in May and Jnne. Pot-grown, 50c. dozen, \$4.00 per 100. Drawn plants, 25c.; doz., \$1.25 per 100.

Culture. Sow in June, July and Angust; cover

July and Angust; cover lightly; when up, thin ont to eight inches apart, and water weil afterward, if dry. When the leaves are 6 or 8 inches long, blanch by gathering in the hand and tying together near the top with yarn or bast. This must be done when quite dry, or they will rot. At the approach of Winter.

or they will rot. At the approach of Winter, take up carefully, with a ball of earth to each

ENDIVE (Ger. Endivie).

Green Curled Endive.

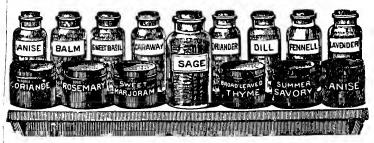

plant, and place close together in frame or cellar for use. They must be kept dry and have plenty of air.

Green Curled. Tender and crisp. Pkt., 5c.; oz., 15c.; ¼ lb., 35c.;

HERBS (Ger. Kraeuter).

Culture. Herbs delight in a rich, mellow soil. Sow seeds early in Spring in shallow drills, one foot apart; when up a few incbes thin out to proper distances, or transplant. They should be cut on a dry day just before they come into full blossom, tied in bunches and hung up or spread thinly where they can dry quickly.

Borage. Pkt., 5c. and 10c.; oz., 15c.
Carroway. Seeds used to flavor bread.
Coriander. Pkt., 5c. and 10c.; oz., 15c.

(Herbs continued on next page.)

Mrs. Catharine Driver, Landsdowne, Md., tells us that she never had such fine Cabbage as she grew from our Succession and Copenhagen Market Cabbage Seed in her long experience of trucking. She also says: I pulled 250 bunches of Long Orange Carrots on July 8th, from a ¼ pound of your seed planted April 1st.

HERBS-Continued.

Dill. The seeds are used as a condiment and for pickling. Pkt., 5c.; oz., 10c.; ¼ lb., 15c.; lb., 50c.

Fennel. Pkt., 5c. and 10c.; oz., 15c.

Horehoud. For medicinal purposes and flavoring. Pkt., 5c. and

Horehouud. 10c.; ½ oz., 25c. Lavender. Fo

10c.; ½ oz., 25c.

Lavender. For flavoring and perfumery. Pkt., 5c. aud 10c.; oz., 25c.

Mint. This variety is the true spearmint used for making miut sauce aud juleps, also in many other ways. The plants are hardy and when once established remain for years. Seeds, 25c. per pkt. Plants, 10c. each; doz., \$1.00; \$6.00 per 100.

Pot Marigold. Pkt., 5c. and 10c.; ½ oz., 20c.

Rosemary. Leaves are used for seasoning. Pkt., 5c. and 10c.; oz., 20c.

Rosemary. Leaves are used as a constant of the constant of the

Sweet Marjoram. Leaves and ends of shoots used for seasoning. Pkt., 5c. and 10c.; oz., 20c.
Saffron. For medicinal and coloring purposes. Pkt., 5c. and 10c.;

½ oz., 15c. Tarragon. ½ oz., 15c.

Tarragon. This does not produce seed, but we offer choice plants.
These are hardy if given plenty of protection in Winter. Do not plant them in an exposed place. Extra large plants, 25c. each (by mail, 30c.); per doz., \$2.50.

Thyme (Broad Leaf). For seasoning, also for making tea for nervous headache. Pkt., 5c. and 10c.; oz., 25c.

Woodruff (Ger. Waldmeister). A sweet scented herb which is used as essence in the German Maitrank. Pkt., 15c.

Wormwood. Pkt., 5c. and 10c.; oz., 20c.

HORSE RADISH ROOTS (Ger. Meer-Rettig).

Ready April 1st. Extra strong roots will produce large size radish

the first season.

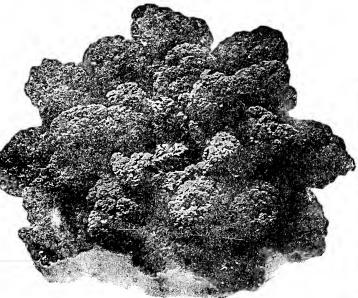

Regular Variety. Doz., 15c.; 100, 50c.; 1000, \$4.00.

Maliner Kren. A large quick-growing variety, which is now the very best horse radish grown. Doz., 25c.; 100, 75c.

KALE (Ger. Krauskohl).

One ounce sows a drill of about 100 feet. 2 to 3 lbs, to the acre.

Culture. Sow from May to June, and cultivate same as Cabbage. For early Spring use, sow in September, and protect during Winter. The Kales are more hearty than Cabbage, and make excellent greens for Spring and Winter use, and are improved by frost.

Emerald Isle Kale. The finest Kale in the world.

Emerald Isle Kale. This is really the handsomest Kale that has ever come under our notice, and is entirely distinct from other strains. The closely curled, handsome leaves are most attractive. A fine exhibition plant of medium height. Very hardy. Pkt., 5c. and 10c.; oz., 15c.; ¼ lb., 25c.; lb., 75c.

Dwarf German Kale. Pkt., 5c.; oz., 10c.; ¼ lb., 15c.; lb., 30c. Tall Scotch. Best for Summer. Very spreading, nicely curled and hardy; frost improves it. Pkt., 5c.; oz., 10c.; ¼ lb., 20c.; lb., 50c.

New Imperial Long Standing. The leaves are very crimpy and of a dark green color. It stands quite tall and is an excellent producer. It is just as hardy as any of the other sorts, and will be found very profitable where quantity as well as quality is desired. Pkt., 5c.; oz., 15c.; ¼ 1b., 15c.; 1b., 35c.

Mossback Kale. Very curly, light in color, not very hardy. Pkt., 5c.; oz., 10c.; ½ lb., 25c.; lb., 75c.

Dwarf Green Curled Scotch, or Norfolk. Oue of the most popular shipping sorts; very largely used in the Norfolk trucking district. The leaves are of a bright green color, beautifully curled. Should be sown in rows in August and September. Pkt., 5c.; oz., 10c.; ¼ lb., 20c.; lb., 50c.

Borecole, Hardy Winter. This variety is grown and treated like cabbage. The plant attains a height of 18 inches, with an abundance of beautful light green leaves which are densely curled and crimped. Besides being very hardy it possesses the advantage of all other varieties in torcing a second crop of moss-curled leaves as soon as the first ones are cut. This new growth is of the finest quality, and is ready for market during the Winter and early Spring months, when it demands fancy prices. Pkt., 5c. and 10c.; oz., 15c.; ¼ lb., 40c.; b. \$1.25 lb., \$1.25.

KOHL-RABI(Ger. Kohlrabi).

One ounce will sow 150 feet of drill.

This is a favorite vegetable in Europe, where it is extensively grown for table use. The bulb is formed above ground, and, if used when young aud tender, makes a most delicate dish for the table.

Earliest White Vienna. Greenish white marnest white Vienna. Greenish white outside, with clear white flesh within. Smooth, short leaf; good for forcing; fine quality. Pkt., 5c. aud 10c.; oz., 15c.; ¼ lb., 40c.; lb., \$1.25.

Earliest Purple Vienna. Same in every respect as the Earliest White Vienna, except in the outside color. Pkt., 5c. and 10c.; oz., 20c.; ¼ lb., 50c.; lb., \$1.50.

LETTUCE (Ger. Salat).

Two ounces of seed to 100 yards of row; one ounce for 2000 plants.

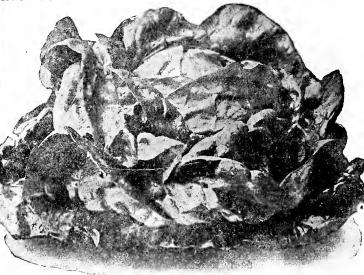

Culture. Lettuce is now sown during most all seasons of the year. For ontdoor use the seed can be sown in well-manured hotbeds in February and March. Transplant there or outdoors when the weather rebruary and March. Transplant there of outdoors when the weather will permit, in rows about 12 inches apart, in the row. If the salad is not to head, sow thickly and cut as desired. For best results it is well to sow only the varieties best suited to the different seasons and conditions. For Winter use sow the seed in September in hotbeds and follow it with other sowings for succession.

Best of All. A great drought and heat resister; forms large compact heads of light greeu leaves and yellow heart. Pkt., 5c. aud 10c.; oz., 20c.; ¼ lb., 40c.; 1 lb., \$1.50.

Black Seeded Simpson Lettuce. Fine, large, loose heads, early, fively friuged and curled; very popular for family garden and forcing. Pkt., 5c. and 10c.; ¼ lb., 30c.; 1 lb., \$1.00.

M. & S. All-Right. For early Spring and Fall sowing. Produces beautiful light green heads, often 12 inches in diameter, very solid and with a rich buttery heart of light yellow. Pkt., 5c. and 10c.; oz., 15c.; ¼ lb., 35c.; 1 lb., \$1.25.

Grand Rapids. Excellent for forcing, fiue quality, large, loose, yellowish-green head, stands well. Pkt., 5c. aud 10c.; oz., 15c.; ¼ lb.. 30c; lb, \$1.00.

M. & S. Belvedere Lettuce.

Romain White Paris Cos. Has long, narrow, upright leaves; does not head, but when tied up blanches very nicely. Pkt., 5c. and 10c.; oz., 15c.; ¼ lb., 30c.; lb., \$1.00.

(Lettuce continued on next page.)

LETTUCE-Continued.

California Cream Butter. A good Summer sort, of reliable heading quality. Yellowish-green, slightly marked with brown specks. This is a variety growing in favor. Pkt., 5c. and 10c.; oz., 15c.; ¼ lb., 30c.; lb., 90c.

Improved Hanson. Large, compand, reliable header; ontside leaves

Improved Hanson. Large, compact, reliable header; ontside leaves curled. Pkt., 5c. and 10c.; oz., 15c.; ¼ lb., 30c.; lb., 90c. Big Boston. Resembles Boston Market, but nearly twice as large, desirable for forcing and Spring and Fall outdoor planting. Pkt., 5c. and 10c.; oz., 15c.; ¼ lb., 30c.; lb., \$1.00.

Boston Market, or White-Seeded Tennisball. Early and compact, quite desirable, good forcer. Pkt., 5c. and 10c.; oz., 15c.; ¼ lb., 35c.; lb., \$1.25.
Oak Leaf. Oute powder.

Oak Leaf. Qnite popular. Pkt., 5c. and 10c.; oz., 15c.; 1/4 lb., 30c.;

lb.,

Head. A big, compact head. Has no core, but a tender, golden Unexcelled for shipping; it resists the cold, and withstands mmer heat. Crisp, mild flavor. Pkt., 5c. and 10c.; oz., 15c.; Big Head. heart. heart. Unexcelled for shipping; it resists the cold, and withstands the Summer heat. Crisp, mild flavor. Pkt., 5c. and 10c.; oz., 15c.; ¼ lb., 30c.; lb., \$1.00.

Improved White Loat. Large, compact heads. Light-green color; oz., 15c.; ¼ lb., 30c.; lb., \$1.00.

Defiance. Leaves green, heads large, solid; one of the best large growing cabbage lettnces. Pkt., 5c. and 10c.; oz., 15c.; ¼ lb., 30c.; lh., \$1.00.

M. & S. Strain All-Season. A cabbage lettuce of sterling merit, making larger and more closely folded heads than any other known

M. & S. Strain All-Season. A cabbage lettuce of sterling merit, making larger and more closely folded heads than any other known variety. The outer leaves are a bright, soft green, the inner ones rich golden yellow. The solid heads measure from eight to ten inches across. Black seed. Pkt., 5c. and 10c.; oz., 15c.; ½ lb., 40c.; lb., \$1.25.

May King. This valuable new lettnce from Germany is, without any question, one of the best lettuces on the list for early Spring planting in the open ground. The heads are six to seven inches in diameter, of a clear light green, the outer leaves being slightly tinged with brown, the inner being clear, bright yellowish, with very rich, oily flavor. It is an excellent market sort, the round, compact heads being so solid that they carry extremely well. Pkt., 5c. and 10c.; oz., 15c.; ½ lb., 40c.; lb., \$1.25.

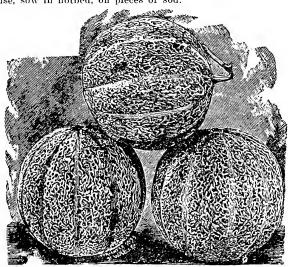

Unrivalled. This grand new lettuce can be sown most any time, slow in running to seed; has beautiful green ontside leaves and white heart and is tender and crisp. Pkt., 5c. and 10c.; oz., 15c.; ½ lb., 40c.; lb., \$1.25.

MUSKMELON, OR CANTALOUPE

(Ger. Melone).

One ounce will plant about 50 hills; two to three pounds in hills to acre.

Culture. Thrives best in light, rich soil. Plant early in May, in hills six feet apart. Manure in hill and sow seed freely. After danger from bugs is past thin to three plants per hill. When one foot long, pinching off tips makes vines branching and strong, and fruit will mature earlier. Water freely and feed liquid manure occasionally. For mature earlier. Water freely and feed liquic early use, sow in hotbed, on pieces of sod.

Rocky Ford Cantaloupe

M. & S. Delicious Gold-Lined Rock Ford Cantaloupe. For description, see Special Pink Page.

Rocky Ford. We have a very fine stock of this popular cantalonpe. Small, oval, of excellent quality and a good shipper; early; green fleshed. Pkt., 5c.; oz., 10c.; ¼ lb., 15c.; lb., 50c.

Early Netted Gem. One of the best of small melons, and very popular. Prolific and of excellent quality. Very early. A great favorite. Green fleshed. Pkt., 5c.; oz., 10c.; ½ lb., 15c.; lb., 50c.

Emerald Gem. Small, gree oz., 10c.; ¼ lb., 20c.; lb., 60c. Small, green skin, delicions yellow flesb. Pkt., 5c.;

Acme, or Baltimore Nutmeg. A great favorite for retail market and

for sbipping. Large, oval, deeply netted, solid and of fine quality. Green fleshed. Pkt., 5c.; oz., 10c.; ¼ lb., 15c.; lb., 50c.

Jenny Lind. Very early, small, round, netted and of fine quality; green fleshed. Pkt., 5c.; oz., 10c.; ¼ lb., 20c.; lb., 60c.

Hackensack, or Turk's Cap. A very fine, large sort; green fleshed. Pkt., 5c.; oz., 10c.; ¼ lb., 20c.; lb., 60c.

Miller's Cream, or Osage. Melons are large and round, with light

green, netted skin, and thick, sweet, salmon-colored flesh. Pkt., 5c.;

Knight Cantaloupe. True Anue Arundel Connty grown strain. The great favorite of the Baltimore market, of good size, deeply netted, green flesh, and delicious flavor. Pkt., 5c. and 10c.; oz., 15c.; ¼ lb., \$5c.; lb., \$1.25.

Banana. This melon surpasses all others in its delictous tragrance. The flesh (the melon being nearly solid) is of a rich salmon. The quality is first rate when the melon is thoroughly ripe. It grows from 20 to 28 inches in length and is very prolific. Pkt., 5c. and 10c.; oz., 15c.; ¼ lb., 40c.

Montreal Market. The large fruits are nearly round in form, slightly flattened at ends, with very large, hroad, heavy ribs. Dark green skin, thickly covered with beavy netting. The flesh is two inches thick, light green, melting, and of delicious flavor. This is the variety which is grown exclusively on the Island of Montreal, and commands such high prices during the Fall months. Pkt., 5c.; oz., 10c.: ¼ lb., 20c.; lb., 60c.

Imported Varieties for Forcing in Greenhouse.

Blenheim Orange. A favorite variety, scarlet flesh, good flavor.

Pkt., 25c.
Windsor Castle. Green flesh, oval shape, finely netted, delicious

LEEK (Ger. Lauch).

One ounce to 150 feet of row.

Culture. Sow the seed and care for the young plants same as for Onions, but they need a little more room to but they need a little more room to develop fully. When the young plants are about the size of a goose quill; transplant into a prepared bed in rows one foot apart and four to five inches in the rows. Set the roots deep and draw the earth to them when cultivating, so that they may be well blanched by the time, they are fit for use. are fit for use.

Giant Carentan. Produces a large, thick stem, and of mild flavor. Pkt., 5e. and 10c.; oz., 15e.; ¼ 1b., 35e.; lb., \$1.25.

American, or Flag. One of the hardiest and hest for Winter use. Pkt., 5c. and 10c.; oz., 15c.; ¼ lb., 35c.; lb., \$1.25.

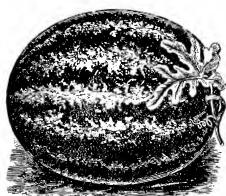

American, or Flag Leek.

WATERMELON (Ger. Wasser Melone).

One ounce for thirty hills; four to five pounds for an acre.

Watermelons should be planted in hills eight to ten feet apart. Otherwise for culture, see directions for cantaloupes. Do not grow them near pumpkins or gourds.

Monte Cristo, or Kleckley Sweets. Where sweetness combined with large size is desired this variety will surely please, as it not only produces melons above the medium size, but has that crisp, sugary flavor so much desired in a watermelon. It is the sweetest of all. Oval

Triumph Watermelon.

the sweetest of all. Oval shape, skin dark green and somewhat mottled. The rind is thin, but sufficiently tough to stand carrying to nearby markets. Pkt., 5c.; oz., 10c.; '4/2 lb., 15c.; lb., 40c.

Triumph. Large oval, handsome dark green color, fine variety and of excellent a uality. ever introduced. Pkt., 5c.; oz., 10c.; ¼ 1b., 15c.; lb., 40c.

Florida Favor.

Florida Favor.

arge, long, striped.

collent for family

thin, but Large, Large, excellent for rame, excellent for rame. Rind thin, but excenses garden. Rind thin, but firm'; flesh very deep red and very sweet. Splendid shipper. Pkt., 50 oz., 10c.; ¼ lb., 5e.; oz., 10e.; 15e.; lb., 40e.

Resembles Old Rattlesnake, superior McIver's Wonderful Sugar. Pkt., 5c.; oz., 10c.; 1/4 lb., 15c.; lh., 40c. in quality.

(Watermelon continued on next page.)

WATERMELON-CONTINUED.

Gray Monarch, or Long White Icing. Very large, long, crimson flesb. Pkt., 5c.; oz., 10c.; 1/4 lb., 15c.; lb., 40c.

Mountain Sweet. Popular sort; early and sweet. Pkt., 5c.; oz., 10c.; ¼ lb., 15c.; lb., 40c.

Dark Striped; Kolb's Gem. The great shipping melon. Pkt., 5c.; oz., 10c.; ¼ lb., 15c.; lb., 35c.

Tom Watson. This melon bas created quite a furore wherever grown, and we believe is unquestionably the best quality shipping melon in our list. It has a dark green rind, solid red luscious meat, ripening close up to the rind. The rind is very tough, making it an excellent melon for shipping long distances. Its flavor and fine qualities also commend it very strongly for the private grower. It is the most popular melon on our list. Pkt., 5c.; oz., 10c.; ¼ lb., 15c.;

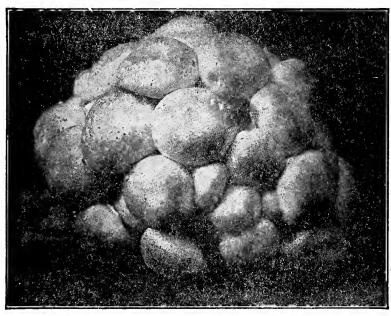

lb., 50c. Improved Georgia Rattlesnake. The Old Rattlesnake has always been regarded as a fine melon. Our strain is the result of careful selection by an experienced melon grower through many years of careful aud watchful work. The rind is thin and tough, the flesh deep scarlet, the flavor unsurpassed by any other sort. We strongly recommend it both for shipping and home use. Our improved stock is very much superior to the ordinars Georgia Rattlesnake. Pkt., 5c.; oz., 10c.; 1/4 lb., 15c.; lb., 40c.

Citron. Grows uniformly round and smooth, striped and marbled witb light green. Flesh white and solid; seeds red. It should be borne in mind that this variety is not used for eating in the raw state, but for preserves, pickles, etc. Pkt., 5c.; oz., 10c.; lb., 60c.

MUSTARD (Ger. Senf).

White Mustard. For salads and culinary purposes. Pkt., 5c.; oz., 10c.; $\frac{1}{4}$ lb., 15c.; lb., 50c.

Brown Mustard. Stronger than above. Pkt., 5c.; oz., 10c.; ¼ lb., 15c.; lb., 50c.

This illustration shows a cluster of fifty Mushrooms on one root, grown from our "Pure Culture Spawn."

M. & S. MUSHROOM—SPAWN.

(Ger. Champignonbrut.)

Have you ever raised Mushrooms or are you trying to and not meeting with success? The Spawn we offer is the best obtainable, and with each purchase of same we give away, when desired, a complete guide on Mushroom culture, which otherwise sells for 35c.

The ever-increasing demand for this delicacy for hotels and the home table has resulted in the establishment of many successful commercial growers.

Culture. Mushrooms can be grown in cellars, sheds, botbeds, and sometimes in the open air. Fermenting horse manure, at a temperature of about 70 degrees and mixed with an equal weight of fresh sod loam, is made into beds the required size, eight inches deep. See to it that the bed is packed solidly and evenly. In this bed plant the broken pieces of Spawn six inches apart, covering the whole with two inches of light soil, and protect from cold and rain. One brick will plant eight or ten feet of bed. The Mushroom will appear in about six weeks. Water sparingly with lukewarm water. Estimate one brick for about eight square feet of bed.

Prices for direct bricks, Pure Culture Spawn (if ordered to be sent by Parcel Post, include postage, according to zone; a brick weighs 1½ lbs.). 1 brick, 25c.; 5 bricks, \$1.10; 10 bricks, \$2.00; 25 bricks, \$4.25; 50 bricks, \$8.00; 80 bricks, ½ case, \$12.00; 160 bricks, full case, \$22.40; latter two f. o. b. growing station.

Mushroom, or Hot Bed Thermometers. Heavy brass point style. Book on Growing Mushrooms. Postpaid, 25c.

OKRA, OR GUMBO (Ger. Safran).

Four ounces to forty feet of drill.

Improved Dwarf Green Prolific Okra,

Culture. Sow the seed thickly in rich ground about the middle of May, or when the ground has become warm, in drills three feet apart, one inch deep; thin to 10 inches apart in drills.

Grown for its green pods, which are used in soups, stews, etc., to which they impart a rich flavor, and ale considered nutritious.

White Velvet, or Lady Finger. Fears round, white, smooth, pods, unlike other varieties, which are ridged or square edge. The pods are of extra large size, and are produced in great abundance. Pkt., 5c.: cx. 10c.: 14 1b., 15c.; lb., 40c.

Improved Dwarf Green Prolific. Of dwarf growth, but immensely the ductive, and very early. Short, thick, green pods. Home grown seeds of superior quality. Pkt., 5c.: oz., 10c.; 14 lb., 20c.; lb., 50c.

Perkins' Mammoth Podded. A distinct, valuable new okra. Its productiveness is simply wonderful. The pods shoot out from the stalk within three inches of the ground,

and the whole plant is covered with them to the extreme of its height. The pods are of an intense green color, sof unusual length—eight or nine inches—and do not get hard, as is the case with other okras. Very superior for canning. Pkt., 5c.; oz., 10c.; ¼ lb., 20c.; lb., 50c.

ONION (Ger. Zwiebel).

American Grown Seed. One ounce for 100 feet of drill; six pounds for one acre.

For sets, sow the seeds as early as possible in the Spring, Culture. For sets, sow the seeds as early as possible in the Spring, very thickly, in drills. As soon as the tops dry off in Summer, remove them to a dry, airy place, and early in the following Spring re-plant by placing the sets in shallow drills 12 inches apart and about four inches apart in the drills; the Onions by this process obtained are of a large size early in the season. They may also be grown to full size during the first season by sowing thinly in drills one foot apart and about one-quarter inch deep in March or early April, in strong land, well manured, and tbinning them out to stand three or four inches apart in the drills.

By sowing Onion Seeds in frames in February or March, and transplanting in April, Onions of immense size can be obtained. Use Prizetaker or Bermuda varieties for this.

Yellow Globe Danvers. One of the most extensively used yellow onions. Bulbs of medium size, uniformly globe shaped, with small neck, and ripen very evenly. Flesh white, crisp, and of mild and excellent flavor. We have developed a strain which has the ripening habit and small neck of the original Danvers and yet is more globeular, thus giving larger yields and handsomer bulbs without sacrificing any of the good qualities of the original Danvers. Pkt., 5c.; oz., 10c.; ½ lb., 30c.; lb., \$1.00.

Extra Early Barletta. An extremely early maturing variety, very white and particularly desirable for pickling. Bulbs very small and firm. Pkt., 5c. and 10c.; oz., 20c.; ¼ lb., 40c.; lb., \$1.75.

White Silverskin. Ripens early; of large size, mild in flavor, and excellent for Winter use: much esteemed for pickling when small. Pkt., 5c. and 10c.; oz., 15c.; ¼ lb., 50c.; lb., \$1.50.

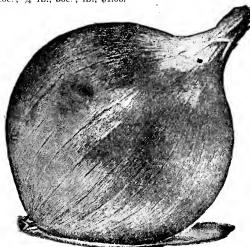

Large Red Wethersfield. Grows to full size the first season from

(Onion continued on next page.)

I bought a package of your Banana Cantaloupe and must say that I was more than pleased with the results that I received from E. L. PAINTER, Owings Mills, Md. Yours truly. same. I never had such delicious cantaloupe before.

ONIONS-Continued.

seed*, almost round, large size, deep rcd color, and keeps well. Pkt., 5c.; oz., 10c.; $\frac{1}{4}$ lb., 30c.; lb., \$1.00.

Prizetaker Onion.

Prizetaker. This is the large, pale yellow onion that is offered for sale in the fruit stores and markets in the Fail. It grows to a very large size; flesh white, of mild and delicate flavor. The large onions are raised first year from seed, and with ordinary culture produce enormous crops. The onions sometimes go over three pounds each in weight where good soil and culture is given them. Onr seed is pure and genuine. Pkt., 5c.; oz., 10c.; ¼ lb., 30c.; lb., \$1.00.

Australian Brown. The hulbs grow to a good marketable size, and are very hard and solid. They ripen earlier than either Yellow Danvers or Red Wethersfield, are beautiful hrown color and mild flavor. Pkt., 5c.; oz., 10c.; ¼ lb., 35c.; lb., \$1.25.

Pkt., 5c.; oz., 10c.; ¼ lb., 35c.; lb., \$1.25.

Chives Seed. Pkt., 10c.; oz., 75c.

Birniuda Varieties. They are of a mild and delicate flavor, and keep longer than any foreign variety. They will produce full-grown onions from seed the same season. In the South seed sown in the Fall will produce fine large onions for market in early Spring.

Red Bermuda. Pkt., 10c.; oz., 25c.; 1/4 lb., 75c., lb., \$2.50. White Bermuda. Pkt., 10c.; oz., 25c.; 1/4 lb., 75c.; lb., \$2.50.

ONION SETS.

One quart will plant a row about 50 feet.

Used for an early crop of onions, and should be planted just as soon as the ground can be worked. Press the bulb in the ground lightly and do not cover; in rows 12 inches apart, 2 inches apart in the row; so that all the devclopment goes in the oniou; on signs of their going to seed, bend the top over, but do not break it off. They can be harvested in this locality for Winter storage as early as July 10th. The advantage in planting set lies in the fact that the young onion is ready in five weeks from time of planting, while those grown from seed cannot be used until well in the Autumn. Shipped on local orders about March 1st. un'ess otherwise requested.

orders about March 1st, un'ess otherwise requested.

If ordered to be sent by Parcel Post, include postage, according to zone; a quart of Onion Sets weighing about 1½ lbs.

Yellow Danvers. Pt., 10c.; qt., 15c.; pk., 75c.; bu. of 32 lbs., \$2.50.

Large Red Wethersfield. Pt. 10c.; qt., 15c.; peck, 75c.; bns. of 32 lbs., \$2.50.

Yellow Danvers. Pt., 10c.; qt., 15c.; pk., 75c.; bn., of 32 lbs., \$2.50. Multiplier Onion Sets, yellow and white, are furnished in Septemer and October. Market price.

Price on Onion Sets subject to change.

PARSNIP (Ger. Pastinake).

One ounce for 200 feet of drill; five to six pounds for an acre.

Culture. Sow as early in the Spring as the weather will admit, in drills 15 inches apart and one-half inch deep, in a rich, deep soil; thin out to six inches apart in the rows. The quality of the roots is improved by leaving them in the ground over Winter for Spring use.

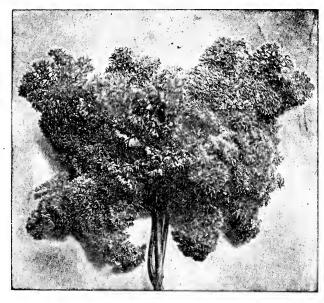

Improved Hollow Crown. The best variety. A great cropper, roots long, very smooth, white, tender, sugary, and of excellent flavor. Pkt., 5c.; oz., 10c.; 1/4 lb., 15c.; lb., 40c.; 5 lbs., \$1.75.

PARSLEY (Ger. Petersilie).

One ounce to 150 feet of drill.

Culture. Parsley requires rich, mellow soil. The seed is even slower than Parsnip in germinating, and should be sown as early as possible in the Spring, lu drills one foot apart, and when the plants are well up thin to one foot in the row. When the plants are about

Champion Moss Curled Parsley.

three inches high cut off the leaves, the plant will start a new growth.

Champion Moss Curled. A distinct variety of unequalled merit, beautifully crimped and curled. It can be cut the year round, as it rarely runs to seed. Pkt., 5c.; oz., 10c.; ¼ lh., 20c.; lh., 75c.

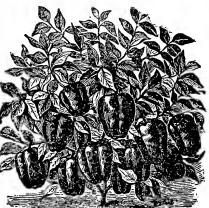

Green Mountain Parsley. Beautifully crimped and curled; perfectly hardy and vigorons grower. Pkt., 5c.; oz., 10c.; ¼ lb., 20c.; lb., 75c.

Plain, or Single. Very strong in flavor, but not curled. Pkt., 5c.; oz., 10c.; ¼ lh., 30c.

Hamburg, or Rooted. Edible roots. Pkt., 5c.; oz., 10c.; ¼ lh., 30c.

PEPPER (Ger. Pfeffer).

One ounce will produce 1000 plants.

" Culture. Sow in hotbeds in March or April, or on a warm, sheltered border in May, and when the season is favorable transplant in is invorable transplant in rows two feet apart and 18 inches in row, in good, rich ground. Mammoth Ruby King. Good for Mangoes or pick-

Good for Mangoes or pickling, very sweet. Large, quite productive. Pkt., 5c. and 10c.; oz., 20c.; ¼ 1b., 60c.; lb., \$2.00.

Large Bell, or Bull Nose.
Large early variety; hot flavor, thick and fleshy.
Pkt., 5c. and 10c.; oz., 20c.; ¼ 1b., 50c.; lh., \$1.75.

Chinese Giant. This is a real monster pepper, perfectly sweet, the fruit is green turning to bright scarlet, matures very late, a very shy seeder. Fine for stuffed mangoes. Pkt., 10c.; oz., 35c.; ¼ 1h., \$1.00;

Mammoth Ruby King Pepper.

10c.; oz., 35c.; ½ lh., \$1.00; lb., \$3.00.

Large Sweet Spanish. A variety rivaling with Chinese Giant, is, however, not as large. Color and shape very similar, also late in maturing; for mangoes or pepper hash this is an ideal sort. Pkt., 5c. and 10c.; oz., 20c.; ½ lb., 50c.; lb., \$1.75.

Neapolitan. This variety is an excellent one, grows a long shape and somewhat narrow; it stands upright on the hnshcs. The fruit is sweet and bright red; a very early sort. Pkt., 10c.; oz., 20c.; ¼ lb., 60c.; lb., \$2.00.

sweet and bright red; a very early sort. Pkt., 10c.; oz., 20c.; 4, 10., 60c.; lb., \$2.00.

Long Red Cayenne. Long, slim, and very pungent. Pkt., 5c. and 10c.; oz., 20c.; ¼, 1b., 50c.; lb., \$1.75.

Small Chili. Small, red, conical pods. Very hot and prolific. Pkt., 5c. and 10c.; oz., 25c.; ¼ 1b., 75c.

Pepper Plants. Ready in May and June. Doz., 15c., 100, 60c.

Gentlemen: I think it may be of some interest to you to know that I have had wonderful results with your pure culture Mushroom Spawn. Most respectfully, MRS. J. J. GEORGE, Loug Greeu, Md.

GARDEN PEAS (Ger. Erbsen).

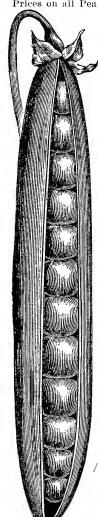

Sow one quart of seed to 100 feet of row; one and one-half to two bushels to the acre in drills.

Culture. Peas succeed hest in light, dry, loamy soil. Early and dwarf sorts require richer soil than the late varieties. If mannre is used, let it be old and well rotted, or there, will he a rank growth of vines with few pods. Sow the early, smooth, round sorts as early in the Spring as the ground can be worked. Seeds of wrinkled varieties are more liable to rot if the ground is cold, and must be planted later. Sow in single rows, dwarf sorts three feet apart and tall sorts four feet, or in double drills, six to eight inches apart, one inch apart in the drill, and not less than fonr inches deep, for late sorts five to six inches deep. Deep planting prevents mildew.

Packets of all varieties of Peas, 5c. and 10c.

If wanted by Parcel Post, include postage, according to zone. Weight, 1 pt., 1 lb.; 1 qt., 2 lhs.; pk., 15 lbs.

Prices on all Pea Seeds are subject to market changes.

SECOND EARLY VARIETIES.

Gradus, or Prosperity. One of the most popular wrinkled sorts. Even though it matures a short time later than the extra earlies, the pods, fully as long as those of the well-known Telephone, contain very large peas that are nnexcelled for sweetness. Superior variety for market or garden. Pt., 15c.; qt., 30c.; pk., \$1.75; bu., \$6.50.

Nott's Excelsior. One of the best dwarf early wrinkled peas. It grows about 14 inches high, very productive, and the pods three inches long, generally contain six or seven large, sweet peas of the finest quality. Well recommended for home use. Pt., 15c.; qt., 30c.; pk., \$1.75; bus., \$6.50.

Premium Gem. The round pods, two and one-half inches long, are borne on short bushes, which are well snited to small gardens. Pt., 15c.; qt., 25c.; pk., \$1.75; bus., \$6.00. American Wonder. Dwarfer and a trifle earlier than the preceding, but not quite so productive. The peas are sweet, tender and of delicions flavor. Pt., 15c.; qt., 30c.; pk., \$2.00.

Thomas Laxton. An exceptionally fine variety, growing three feet in height and yielding large podded peas, four to five inches in length, of the finest flavor. Pt., 15c.; qt., 30c.; pk., \$1.75; bu., \$6.50.

pk., \$1.75; bu., \$6.50.

Daisy, or Dwarf Telephone. The striking features of the Daisy Pea are its large pods and the way in which they are heaped up in ridges on the short, strong vines. The pods are nearly donble the size of American Wonder or Premium Gem, and are always well filled with large peas of most excellent quality. The vines are 16 to 18 inches high, and, being strong and thrifty, require no support, making it an ideal variety for use where brush or stakes are not available. This pea is desirable on account of the fine appearance of the pods, and always finds a ready sale. Pt., 15c.; qt., 25c.; pk., \$1.50; bus., \$6.00.

Dwarf Prolific Green Marrow. Very similar

Dwarf Prolific Green Marrow. to the above. Price the same as Daisy.

Bliss' Everlasting, or Abundance. Vine stout, about two and one-half feet high, bearing at the top six to ten broad pods. If these are picked as they mature and the season and soil are favorable, the plant will throw out branches bearing pods which will mature in succession, thus prolonging the season. The peas are large and wrinkled, cook very quickly, are tender, of superior flavor and preferred by many to any other sort. Pt., 15c.; qt., 25c.; pk., \$1.50: bus., \$5.50.

MEDIUM AND LATE VARIETIES.

Telephone. For general planting this tall-growing variety is undoubtedly the most popular among market gardeners. The pods, four to four and one-half inches long, are light green in color and filled with large, sweet, tender peas. Pt., 15c.; qt., 25c.; pk., \$1.50: bus., \$5.50.

bus., \$5.50.

Champion of England. A standard pea; vines grow four and one-half teet high and bear medinm-sized pods of peas of good quality.

Pt., 15c.; qt., 25c.; pk., \$1.50; bu., \$5.50.

Improved Sugar Marrow Peas. We have the genuine stock of this variety. This pea is the kind planted principally by the larger growers around Baltimore for late crop. It is a strong grower and produces an abundance of large, well-filled pods. Pt., 10c.; qt., 20c.; pk. \$1.50. by \$4.00.

produces an abundance of large, well-filled pools. Pt., 10c.; qt., 20c.; pk., \$1.25; bu., \$4.06.

French Canner. Largely grown for canning. It is very productive, the pods are long, slightly curved and well filled; quality is good; late. Pt., 10c.; qt., 20c.; pk., \$1.15; bu., \$3.75.

Tall Melting Sugar. The pods as well as the peas of this variety are edible and both very sweet. Pt., 20c.; qt., 35c.

Use FARMOGERM on Garden Peas and watch results. Price, 25c.; 50c. per bottle. Acre size, \$2.00.

EXTRA EARLY VARIETIES.

Pedigree First and Best. An excellent strain of first early peas; very popular and largely planted throughout the trucking sections. Height two to two and one-half feet. Pt., 15c.; qt., 25c.; pk., \$1.25; bn., \$4.75.

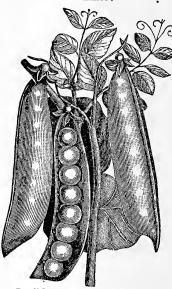

Prolific Early Market. This is one of the largest podded and most productive of all smooth-seeded extra early peas. Vines grow about 30 inches in height, and can all be gathered in two pickings. The pods are remarkably well filled, and the peas sweet and fine flavored. A most satisfactory prolific early sort, both for the market gardener and the home gardener. Pt., 15c.; qt., 25c.; pk., \$1.25; hu., \$4.75.

Extra Early Alaska. Popular among market gardeners for an early crop. The pods are medium size, dark green in color and ripen almost at one time. Pt., 15c.; qt., 25c.; pk., \$1.25; bu., \$4.75.

Long Podded Alaska. Vines of this variety grow about three

Long Podded Alaska. Vines of this variety grow about three feet high and are heavy bearers. The pods, three inches long, mature shortly after Alaska and are well filled with sweet, tender peas. Pt., 15c.; qt., 25c.; pk., \$1.35; bn., \$5.00.

M. & S. Little Marvel. For discription, see Special Pink page. Prices: Pt., 15c.; qt., 25c.; pk., \$1.75; hu., \$7.00.

Six first-class Peas which will mature according to rotation: Prolific Early Market. E. E. Alaska. "M. & S." Little Marvel. Gradus, or Prosperity. Daisy, or Dwarf Telephone. Telephone.

PUMPKIN (Ger. Kurbiss).

One ounce of seed will plant fifteen hills; three to four pounds plants an acre.

Culture. Pumpkins are not so particular in regard to soil as melons or encumbers, but in other respects are cultivated in a similar manner, Sow in the month of May. Make hills the same as yon do for squashes, but do not make the hills too close. You will find that eight to ten feet apart each way is much better than closer planting. It is preferable to grow large quantities of Pumpkins as a special field crop, and not in the kitchen-garden, as they always mix so badly with squashes and other vines. The few you do need to grow in the homegarden you should put in your most remote corner. You will, of course, sow some amongst your corn, putting in a few seeds, say every third or fourth hill, after the last working; this will give you plenty for the table and your stock the coming Winter.

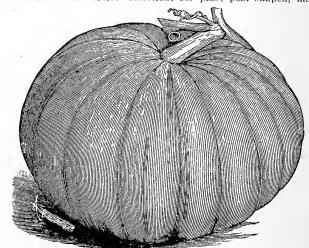

Cushaw, or Winter Crookneck. An old standard variety, which is very popular. It is also used for feeding stock. Long yellow crookneck, fine grained yellow flesh, very soild. Pkt., 5c.; oz., 10c.; ¼ lb., 20c.; lb., 60c.

White Cushaw. Same as above, only has white skin. Price same as above. Pumpkins are not so particular in regard to soil as melons

Japanese Pie.

Japanese Pie. Flesh very thick, rich salmon color, fine grain, dry nd sweet. Pkt., 5c.; oz., 10c.; ¼ lb., 25c.

Tennessee Sweet Potato. Excellent for pies; pear-shaped, medium and sweet.

King of Mammoths, or Pot Iron.

Capt. J. M. Moore, Revenue Cutter Service, Arundel Cove, Md., tells ns that he was highly pleased with results he obtained from flower and vegetable seeds purchased from us.

PUMPKIN-Continued.

size, firsh and skin creamy white, fine grained, sweet, a first-rate keeper. Pkt., 5c.; oz., 10c.; ½ lb., 25c.; lb., 75c.
Cheese. Shape flat like a cheese box; good keeper, popular. Pkt., 5c.; oz., 10c.; ½ lb., 15c.; lb., 40c.
King of the Mammoths, or Pot Iron. An immense variety, which

always wins prize offered for the largest and best pumpkins grown to weigh over 200 pounds. Flesh of a rich, golden yellow; a splendid keeper. Pkt., 5c.; oz., 10c.; ¼ 1b., 20c.; 1b., 60c.

Ky. Field Pumpkin. Large, flat, fine for pies or stock. Pkg., 5c.; ¼ 1b., 10c.; 1b., 30c.

Common Yellow, or Connecticut Field. Very productive; for feeding stock. Pkt., 5c.; ¼ 1b., 10c.; 1b., 30c.

POTATOES (Ger. Kartoffeln).

Ten bushels cut tubers will plant one acre.

Culture. Planting may commence as early in the Spring as the ground can be worked. Place one piece every twelve inches in rows two and one-half feet apart, covering about four inches. When cutting the seed care should be taken that at least one good eye, or two small ones, is allowed to each piece. Sandy loam produces the best potatoes.

Time of Shipment. Potato shipping with ns commences about March 15th (weather permiting), unless otherwise requested. We can ship them at customer's risk any time during cold weather.

Our potatoes are put up in barrel sacks of 165 lbs. each.

Prices on quantity of Potatoes farnished on Potatoe prices subject to market finctuation. application.

Red Bliss. Very early, thin red skin, round, white flesh. Pk., 50c.; bn., \$1.50; bbl. sack, \$3.50. White Bliss, or Pride of the South. Productive and extra early. White skin and flesh. Round. Pk., 50c.; bu., \$1.50; bbl. sack, \$3.50.

Fig. 50C.; Ou., \$1.00; DDI. sack, \$3.50.

Figh Cobbler. This is an early potato of exceptional merit, which has given our trade entire satisfaction. The shape is round. Flesh is white and the eyes strong and deeply set. Considering its earliness, productiveness and excellent quality, we do not hesitate to recommend this as one of the best early varieties. Pk., 50c.; bn., \$1.50; bbl. sack, \$3.50.

Houlton Early Rose. The Houlton strain of the

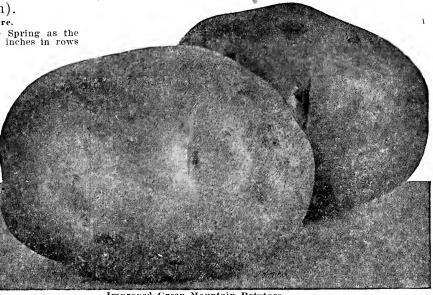

Houlton Early Rose. The Houlton strain of the old favorite Early Rose has been the most popular on our market in recent years. It is preferred hecause it is a little earlier than the old Early Rose. A description of this variety is needless, as almost everyone knows of its excellence in quality and as a cropper. Pk., 50c.; bu., \$1.50; bbl. sack, \$3.25.

Bove. This variety is of recent introduction, and its general good qualities have attracted much attention. More productive and earlier than the Early Rose. Piuk, or flesh-color, smooth, uniform marketable size; dwarf stock vine permits close planting. Pk., 50c.; bu., \$1.50; bbl. sack, \$3.50.

Crown Jewel. A well-known and deservedly popular early variety. Very productive and an excellent cooker. Skin white and smooth, eyes shallow, but strong. Pk., 50c.; bu., \$1.50; bbl. sack, \$3.25.

Beauty of Hebron. It is a very rapid and vigorous grower, ripening fully as early as the Early Rose, which it resembles, but frequently exceeds in productiveness and excellence for table use. A very good keeper. Pk., 50c.; bu., \$1.50; bbl. sack, \$3.25.

M. & S. Fill Basket. For description, see Special Pink Page. Prices: Pk., 60c.; bu., \$2.00; hbl sack, \$4.00.

Improved Green Mountain Potatoes.

Early Ohio. This is a very profitable variety. It is fit for use before fully ripe. It is shorter and rounder than the Early Rose, of good quality and very early. Pk., 50c.; hu., \$1.50; hbl. sack, \$3.25.

Burbank. We have very fine stock of this old reliable late potato.

Burbank. We have very fine stock of this old reliable late potato. The Burbank is of excellent quality, yields well and is a splendid keeper. Pk., 50c.; bn., \$1.50; bbl. sack, \$3.25.

Improved Green Mountain. For a main crop later potato we consider this variety one of the best. It is very white, has an excellent flavor, and is very productive. Popular with those who have tried it. Pk., 50c.; bn., \$1.50; bbl. sack, \$3.25.

Early Norther. New Queen, Carmen No. 3, Prosperity. All choice northern stocks. Prices furnished on application.

Choice Seed Sweet Potatoes, Leading Varieties. Prices on application.

Sweet Potato Plants. Ready prices furnished on application. Ready in May and June. 30c., 100; 1000,

You furnished our institution with six hushels Improved Green M ountain Potatoes and in spite of the long drought, I harvested 30 bushels of nice, large tnhers. Yours truly, E. DEIBE L. Farm Manager, St. Vincent Male Orphan Asylum, Towson, Md.

PEANUTS (Ger. Erdnuesse).

PEANUTS (Ger. Erdnuesse).

For medium light, loamy or sandy land. Peanuts are one of the most profitable crops that can be grown. They yield very largely—yields of 50 bushels per acre being reported on land too poor to plant in corn. In addition to the yield of nuts, they yield quite largely of nutritious forage, and will yield ordinarily about a ton of excellent dry forage per acre, in addition to the crop of nuts.

Culture. Peannts should be shelled before planting. They should be planted in May or early June, in rows about two and one-half to three feet apart, dropping the nuts eight to ten inches apart, one in a bill. Cover one or two inches deep. Cultivate three or tour times with a cultivator, so as to loosen the earth and keep down weeds, and at the last working, with a small turn-plow throw the dirt to the nuts. Do not cultivate too late in the season, as late cultivation is likely to injure the formation of the nuts. It is also advisable to make an application of lime, scattering it on top of the row just after planting, and to use a top-dressing of land plaster just after the last working. Peanuts require plenty of lime to make first-class nuts, and the use of lime and plaster as above mentioned its recurrenced by the most sure

lime and plaster as above mentioned is recommended by the most successful growers.

In harvesting, plow the Peanuts and then stack against stakes stuck into the ground, the roots with the Peanuts on them to the centre, and the leaves outside.

The Peanuts we offer are selected from the best and most productive crops grown in Virginia. Peanuts are one of the most profitable and

satisfactory crops that are grown in the South, and we recommend to all our customers, even if they do not plant for market, to plant at least a small patch of Peanuts for home use.

M. & S. Improved Jumbo Peanuts (Shelled). $\frac{1}{4}$ lb., 10c.; $\frac{1}{2}$ lh., 15c.; lb., 25c. Special price on large quantity.

RADISH (Ger. Radies).

One ounce for seventy-five feet of drill; nine to ten pounds in drills to one acre.

To be tender and crisp, Radishes must be grown quickly and this requires rich soil and plenty of moisture. Commencing with the first mild spell in the Spring, sow at intervals of ten days, in a light, rich, deeply-worked soil. May also be sown as a catch crop between rows of beets, lettuce, onions, etc. Radishes can be forced in hotbeds, but must have plenty of ventilation and moisture.

EXTRA EARLY VARIETIES.

White Tipped Scarlet Globe. A good forcing variety. Small size and very attractive, being a handsome, bright scarlet, with white tip. Very early and good quality. Pkt., 5c.; oz., 10c.; ¼ lb., 15c.; lb., 35c.; 5 lbs., at 30c.

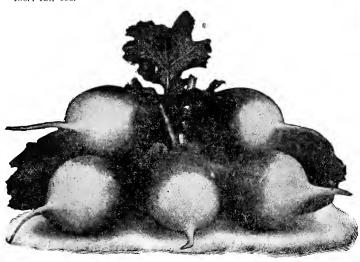

Ruby King, Extra Early. Of brilliant red color, fine for forcing or open ground; roots are tender, juicy and mild. The best round red Radish that grows. Pkt., 5c.; oz., 10c.; ¼ lb., 20c.; ½ lb., 30c.; lb. 50c

Scarlet Globe, Early. This variety can be used for forcing and is recommended for early ontdoor planting. It is a small, round, red radish, of excellent flavor. Its rich, crisp, tender flesh makes it very popular. Pkt. 5e.; oz., 10e.; 1/4 lb., 15c.; lb., 35e.

(Radish continued on next page.)

RADISH-Continued.

Crimson Giant. An extra early radish, good for forcing or outdoor growth. It is nearly round in shape, remarkably solid, crisp and juicy. It will grow double the size of ordinary red forcing radishes, and still remain hard and solid. Pkt., 5c.; oz., 10c.; 1/4 lb., 15c.; lb., 40c.

White Tipped Scarlet Globe Radish.

White Turnip (Short Top). Of quick growth; roots round, pure white, tails very thin; leaves short, flavor excellent. Fine for forcing and open ground. Pkt., 5c.; oz., 10c.; ½ lb., 20c.; lb., 50c.

French Breakfast, Early. Oblong shape, rapid grower, very mild and tender; of a beautiful scarlet color, tipped with white. Pkt., 5c.; oz., 10c.; ¼ lb., 15c.; lb., 40c.

Early Long Scarlet Short Top. The principal outdoor quick-growing variety, also very good for forcing. Grown in light, rich soil, its average length is about eight inches; grows half out of the ground, straight, uniform in color, brittle, crisp, small tops, bright scarlet. Pkt., 5c.; oz., 10c.; 1/4 lb., 15c.; lb., 35c.; 5 lbs., at 30c.

Icicle. A beautiful long, slender radish, of recent introduction. Beautiful pearl-white color, firm and solid, slow to get woody. A good seller. Pkt., 5c.; oz., 10c.; ¼ lb., 15c.; lb., 40c.

White Strasburg. Handsome, oblong, tapering shape; both skin and flesh pure white; flesh firm, brittle, tender and possessing the most desirable character of retaining its crispness, even when the roots are old and large. Excellent for Summer use, as it withstands severe heat and grows very quickly. Pkt., 5c.; oz., 10c.; 1/4 lb., 15c.; lh., 35c.; 5 lbs., at 30c.

New Glass, or Cincinnati Market. A long Scarlet Radish with a distinctive white tip. A suitable radish for deep mellow soil. A fine radish for the home garden as well as an attractive one for the market stall. Pkg., 5c.; oz., 10c.; ¼ lb., 15c.; lb., 35c.

Summer Varieties.

Golden Globe. A favorite Summer radish. Golden-brown skin, perfect globe shape, mild and brittle, slow to seed. Pkt., 5c.; oz., 10c.; 14 lb., 15c.; lb., 40c.

Large White Stuttgart. Very large, top-shaped, flesh and skin white, fine quality, firm and brittle, seldom pithy. Can be stored for Winter. Pkt., 5c.; oz., 10c.; ¼ lb., 15c.; lb., 40c.

Large White Summer Turnip. Round, smooth and very white; crisp and tender. Pkt., 5c.; oz., 10c.; 1/4 lb., 15c.; lb., 40c.

Winter Varieties.

White Chinese, or New Celestial. Large stump-rooted, white skin and flesh, mild in flavor, brittle and never woody. For late planting and a splendid keeper. Market gardeners will find this a good variety that sells readily. Pkt., 5c.; oz., 10c.; ¼ lb., 20c.; 1b., 50c.

Long Black Spanish. Large radish, with black skin and white firm flesh, grows six to eight inches long. Pkt., 5c.; oz., 10c.; ½ lb., 15c.; lb., 40c.

Round Black Spanish. Like the above except that it is round shape. Pkt., 5c.; oz., 10c.; ¼ lb., 15c.; lb., 40c.

Long White Spanish. Like the Long Black Spanish, only different in color. Pkt., 5c.; oz., 10c.; 1/4 lb., 15c.; lb., 40c.

China Rose, or Scarlet China. Bright rose-colored, stump-rooted, of excellent quality. Pkt., 5c.; oz., 10c.: ¼ lb., 15c.; lb., 35c.

Sakurajima (Mammoth Japan). The largest sort in cultivation. Sow early in rich soil. In Japan it grows as much as twenty-one inches long and forty-three inches in circumference. Thin well to allow of proper development. Pkt., 5c.; oz., 15c.; ¼ lb., 40c.; lb., \$1.25.

RHUBARB (Ger. Rhabarber).

Sow seed in a cold-Culture. frame, in a fine, rich, sandy loam, about the first of March, in drills four inches apart. Keep the frames covered during nights and cold days, so that the soil will not freeze, and in six or eight weeks the plants will be large enough to set in the open ground. Transplant to a rich soil, and set in rows twelve inches apart and twelve inches in the row. The following Spring transplant to a permanent location, setting four or five feet apart each way. In good soil Rhubarb is ready to use the second year from seed. When roots are set ont, plant them four or five feet apart each way, and keep the weeds down. If roots are used, a crop may be had after one season, which is much better than sowing seed where only a few plants for family use are needed. In the Fall the bed should have a thick dressing of coarse manure to be spaded under in Spring.

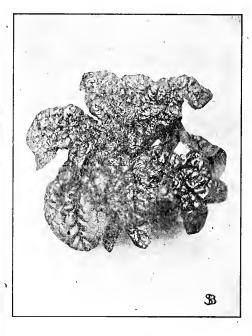

Victoria. The leading variety. Pkts., 5c. and 10c.; oz., 20c.; ½ 10., 50c.

Roots. Extra large and two-year food. frame, in a fine, rich, sandy loam, about the first of March, in drills

Extra large and two-year-old. Each, 15c.; doz., \$1.00; Roots. 100, \$7.50.

SPINACH (Ger. Spinat).

One ounce will sow fifty feet of drill; fifteen to twenty pounds to an acre.

Victoria Spinach.

Culture. early spring, in drills a foot apart. every two weeks for a succession, and, as a succession, and, as it grows, thin out for use. For Fall use, sow in August, and for winter crop in September. Cover that which is left out over winter with straw or leaves after the weather becomes quite cold. Keep clear of weeds. Sow quite cold. Keep clear of weeds. Sow the seeds of New Zealand in hills two feet apart each way, three or four seeds or four seeds in a hill.

In a hill.

Bloomsdale Savoy
Leaved. The popular
Fall spinach so
largely grown for
market. Grows upright, the leaves besing crumpled, dark
green and very
thick. Oz., 5c.; ¼
lb., 10c.; 1b., 20c.;
5 lbs., 60c.; 10 lbs.,
\$1.00; 100 lbs., \$8.00.
Victoria. A fav-

Victoria. A favorite for early Summer. It is one of the darkest in color, and with exception of the heart, the

ieaves are comparatively smooth. Oz., 5c.; ¼ lb., 10c.; lb., 25c.; 5 lbs., 75c.; 100 lbs., \$10.

Long Season. Leaves are decidedly dark green in color, very broad, thick and fleshy. It resists the Summer heat remarkably well, in fact better than all others, and remains a long time in condition for use before going to seed. Pkt., 5c.; ½ lb., 10c.; lb., 25c.; 5 lbs., \$1.00.

Old Time Long Standing. Succeeds well at almost all seasons, and though rather slow growing, it is a very fine, large, dark green pointed leaved spinach. Oz., 5c.; ¼ lb., 10c.; lb., 25c.; 5 lbs., 75c.

New Zealand. Distinct from the ordinary Spinach in appearance. The plants are more spreading in growth with small, very dark green leaves, which may be had throughout the hot Summer months. Sow seed outdoors during May, dropping about three seeds in hills two feet apart each way. Pkt., 5c.; oz., 10c.; ½ lb., 30c.; lb., \$1.00.

Mr. Fred Ravadge, of Fullerton, Md., a prominent truck grower, tells us that he never before raised such perfect Radishes as he did from our White Chinese or New Celestial Radish Seed which he purchased from us last August.

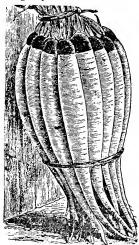

SALSIFY, OR OYSTER PLANT

(Ger. Hafer wurzel).

One ounce to seventy feet of drill; about eight pounds to the acre.

Culture. Sow as early as the ground can be worked in the Spring, in drills twelve inches apart, one inch deep, and thin out to six inches in the row. Keep them free from weeds. Cultivate the same as for Carrots and Parsnips. A part from weeds. Cultivate the same as for Carrots and Parsnips. A part of the crop may he left in the ground till Spring, when it will he found fresh and plump. The roots are cut into pieces one-half inch long, boiled until tender, and then served with drawn hutter, in which way it is a delicious vegetahle. They are also mashed and haked like Parsnips, and have a sweet and agreeable flavor like that of the oyster. ovster.

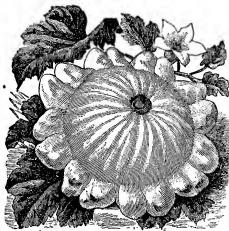

Mammoth Sandwich Island. This is an improved type and the largest and most profitable salsify now in cultivation. It is white in color, and a satisfactory sort in every way; invaluable to market-gardeners and truckers. Pkt., 5c. and 10c.; oz., 15c.; ¼ 1b., 30c.; lb., \$1.00. 道。这一直接随道。

Mammoth Sandwich Island Salsify.

SQUASH (Ger. Gemuese Kurbiss).

Bush sorts, one ounce for fifty hills; five to six pounds to acre; running varieties three to four pounds in hills for an acre.

Early Mammoth White Bush Squash.

should be planted in a warm, light, rich soil, after the weather has become settled and become settled and warm, ahout the middle of May or June. Plant in well-manured hills, in the same manner as Cucumbers and Melons—the Bush Varieties three to four feet apart each way, and the running kinds from six to eight feet. Eight to ten seeds should be sown in each hill, thinning out after they ning out after they have attained their rough leaves and danger from hugs is over, leaving three to four of the strongest plants per hill.

Early Mammoth
White Bush Squash.
An excellent strain.
Early prolific and much
larger than the old
White Bush. Splendid

White Bush. Splendid for market and hest for shippers. Pkt., 5c.; oz., 10c.; ¼ lb., 15c.; lb., 40c.

Summer Crookneck, Bush Variety. About one foot long, with crooked neck, bright yellow, warty, shell hard when ripe. Pkt., 5c.; oz., 10c.; ¼ lb., 25c.; lb., 50c.

Hubbard. An excellent keeper and of splendid quality. Vines of strong running growth. Large olive-shaped fruits, with dark-green skin and very rich flesh. Pkt., 5c.; oz., 10c.; ¼ lb., 25c.; lb., 75c.

Golden Hubbard. Like the above, but of a beautiful orange-red color, except for a bit of olive-green on blossom end. Flesh deep orange, dry, fine grained and richly flavored. Pkt., 5c.; oz., 10c.; ¼ lb., 25c.; lb., 75c.

Boston Marrow. This is a large-fruited, hard-shell sort, highly esteemed for Winter use, having hright orange skin and deep orange flesh. Very fine and extensively used for pumpkin pies. Fine strong running growth. Very productive, oval shape. Pkt., 5c.; oz., 10c.; ¼ lb., 15c.; lb., 40c.

SORREL, OR SOURGRASS (Ger. Sauerampfer).

Culture. Sow in Spring in drills 18 inches apart, in a rich soil, and keep the flower-stems cut off as they appear. It remains in the ground year after year, and only needs to be taken up and divided once in four or five years. To be cut and cooked precisely like Spinach; or it is excellent cooked with it, one-third Sorrel to two-thirds Spinach. It is also used for soups. Very nice to be eaten after it has become cool. Inasmuch as the hot suu tends to increase its acidity a porthern exposure is preferable. its acidity, a northern exposure is preferable.

Large French. Pkt., 5c.; oz., 15c.; 1/4 lb., 35c.; lh., \$1.25.

TOMATO (Ger. Liebesapfel).

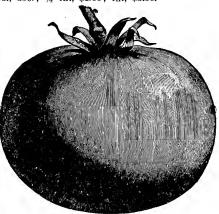

We Pay Postage on All Tomato Seed.

We Pay Postage on All Tomato Seed.

One ounce for 1500 plants; quarter pound (to transplant) an acre. Culture. This delicious vegetable is one of the most important of all garden products. The seed should be sown in a hotbed about the first week in March, or latter part of February, in drills five inches apart, and half an inch deep. When the plants are about two inches high they should he set out four or fill inches apart in another hothed, or removed into small pots, allowing a single plant to a pot. About the first of May the plants may he set out in the open ground, in hills three or four feet apart, each way. (Sufficient plants for a small garden may be started by sowing a few seeds in a shallow box or flower pot, and placing it in a sunny window of the room or fixtchen.) Cultivate thoroughly as long as the vines will permit, hut the last two or three workings of the soil should be very shallow (surface cultivation), or the crop may be hadly injured, especially if the cultivator is run too near the young plants.

Extra Early Mascot. We pronounce this new Tomato the hest trae early we have seen. Compared with Earliana it is five days earlier, a heavier cropper, fruits fully as large, hut thicker through from stem to blossom end, more solid and of a deeper red color. It ripens close up to the stem. It is quite dwarf with little foliage, but very compact. It is the greatest yielder we have ever seen. We have counted fifteen marketable fruits on a single crown setting. We do not mean to say that half the patch will do this, hut we can honestly say that we saw a great many plants with seven, eight and nine fruits on a crown setting. Being a small-vined sort, it requires high cultivation to hring out all its good qualities. Pkt., 5c. and 10c.; oz., 35c.; ¼ lh., \$1.00; lh., \$3.50.

Extra Early I. X. L. Combines extreme earli-

Extra Early I. X. L. Combines extreme earliripening mostly all at one time. Pkt., 5c. and 10c.; oz., 25c.; ¼ lh., 75c.; lb. \$2.5c.

one time. Pkt., 5c. and 10c.; oz., 25c.; ¼ lh., 75c.; lh., \$2.50.

Sparks Earliana. Particularly desirable for shipping and for earliest market. The fruits are smooth. round, of red color, making desirable and salable fruits. Pkt., 5c. and 10c.; oz., 20c.; ¼ lb., 60c.; lb., \$2.00.

Chalk's Early Jewel. The finest of the very early tomatoes. Ahout a week later than the Earliana, but far superior in quality. Fine red color, fine quality.

red color, fine quality.

Extra Early I. X. L. Tomato.

for early and main crop. Pkt., 5c. and 10c.; oz., 20c.; ¼ 1b., 60c.;

King of the Earliest. One of the largest Early Red Tomatoes which rell deserves its name. Pkt., 5c. and 10c.; oz., 25c.; ¼ lb., 60c.; b., \$2.00. lb., \$2.00.
Bonnie Best.

Bonnie Best. A tomato of fine quality. Early, round, smooth, red fruit of excellent flavor. Pkt., 5c. and 10c.; oz., 25c.; ¼ lh., 75c.; lb. \$2.50.

1b. \$2.50.

John Baer. This tomato compares with Bonnie Best, but grows much heavier foliage and larger fruit; is also more productive. While not as early as the Earliest, it will pick some fruit quite early the hulk of the crop coming five to seven days later. It is a good, all around tomato, the fruit heing smooth, ripening clear to the stem and of a good rich red color. Pkt., 10c.; oz., 40c.; ¼ lb., \$1.25; lb., \$4.00.

June Pink. For gardeners who have a market for an early purplish pink fruit (which is produced in clusters). This is the variety to plant. True strain seed. Pkt., 5c. and 10c.; oz., 25c.; ¼ lh., 75c.;

h.. \$2.50.

Beauty. Splendid for early market and shipping Purplish tinge, excellent quality. A fine variety for home gardens. A good yielder. Pkt., 5c. and 10c.; oz., 20c.; ¼ lb., 50c.; lb., \$1.50.

Livingstone's Globe. Glossy rose-color, tinged with purple: very early, smooth and of large size; very productive and a good keeper. A standard variety which retains its popularity, very popular with Southern Growers. Pkt., 5c. and 10c.; oz., 25c.; ¼ lh., 80c.; lh., \$3.00.

New Queen. Large, solid, smooth, handsome, deep red color, a heavy cropper and nopular with canners. Pkt., 5c. and 10c.; oz., 15c.; ¼ lb., \$1.50.

Maryland Pride. A fine tomato for main crop. Producing enormous quantities of fine, large, red tomatoes, which carry well, making it a good shipper. Pkt., 5c. and 10c.; oz., 20c.; ¼ lb., 60c.; lb., \$2.00.

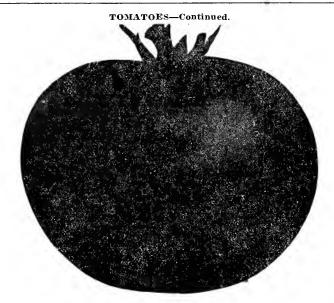

New Stone. This variety is one of the very best tomatoes grown. For productiveness, shipping and canning qualities it is excelled by none. Bright scarlet, fine flavor, very smooth and round. We recommend it as a thoroughly reliable main crop tomato. Pkt., 5c. and 10c.; oz., 15c.; ¼ lb., 50c.; lb., \$1.50.

Your Extra Early Mascot is the finest early tomato I ever had. EMMIT WESLEY, Hanover, Md.

Mr. H. L. Whitman, of Magothy River, A. A. Connty, Md., tells us that our New Stone and Kelly's Red Tomato Seed produced the finest crop he ever had.

(Tomatoes continued on next page.)

Your Extra Early Mascot Tomato is all and more than you claim. It is the hest early Tomato that I ever planted, reserve me at least a pound or two. Yours for success, J. E. PHELPS, Hanover, Md.

Kelly's Red.

Kelly's Red. This variety has obtained immense popularity in the last few years. It was originated in Anne Arundel County. Its solidity and carrying qualities are remarkable. Its color is a desirable red. Its shape perfectly smooth and thicker from stem to blossom than most varieties, making it very handsome and salable. Nobody finds any fault with this variety, but all speak in the highest terms of its beautiful color, its wonderful yielding qualities, its unequaled firmness, or some other of its good points. Pkt., 5c. and 10c.; oz., 25c.; ¼ lb., 75c.; lb., \$2.50.

Greater Baltimore. General crop tomato of sterling merits; large, smooth, heautiful red skin fruits, which are produced in great abundance until frost kills the vine. Pkt., 5c. and 10c.; oz., 25c.; ¼ lb., 75c.; lb., \$2.00.

B. B. (Brinton's Best). A very fine late crop tomato, which is similar to the New Stone. Keeps well after being picked. A vigorous grower and quite popular. Pkt., 5c. and 10c.; oz., 15c.; ¼ lb., 50c.; lb., \$1.50.

Ponderosa. Remarkably large and of fine quality. Very solid. Pkt., 10c.; oz., 35c.; $\frac{1}{4}$ lb., \$1.25.

Dwarf Champion. Stems short, thick, stiff, almost self-supporting. Fruit large, round, red-tinged purple, borne in showy clusters. A good variety. Pkt., 5c. aud 10c.; oz., 25c.; ¼ lb., 75c.

Owarf Aristocrat. Like Dwarf Champion, but red-fruited. Pkt., 5c. and 10c.; oz., 25c.; 1/4 lb., 75c.

Golden Queen. Bright yellow, large and solid. Pkt., 5c.; oz., 20c.; ¼ 1b., 60c.

Yellow Pear and Yellow Plum. Two small-f serves. Pkt., 5c. and 10c.; oz., 25c.; ¼ lb., 75c. Two small-fruited kinds for pre-

Red Pear. Pear-sbaped red. Pkt., 5c. and 10c.; oz., 25c.; 1/4 lb., 75c.

Peach. Very small, pink fruit, with slight peach bloom on skin. Pkt., 5c. and 10c.; oz., 25c.; ¼ lb., 75c.

Tomato Plants (Of all leading, popular varieties). Ready in April. Dozen., 15c.; 100, 50c.

Special prices on Tomato Seed to Canners and Grangers who buy in large quantities.

TOBACCO SEED.

Connecticut and Pennsylvania Seed Leaf. Pkt., 5c. and 10c.; oz., 25c. Havana Seed Leaf. Pkt., 5c. and 10c.; oz., 35c.

TURNIP (Ger. Ruebe).

One ounce for 100 feet; two pounds to the acre.

Culture. For early use sow as soon as the ground opens in Spring, drills from 12 to 15 inches apart; thin out to six or nine inches in the rows. For a succession, continue to sow every two weeks until June; for Fall and Winter crop, sow in July and August. The Ruta Bagas are grown for feeding stock, and are also excellent for the tahle. Take up the roots in November or before severe frosts; cut off the tops within an inch of the crown, store in a cool cellar or pit, or pile up in a conteal form, out of doors, in dry ground; cover carefully with long straw and finish hy earthing up, covering them with about 12 or 15 inches of eartb, leaving a trench around the heap to

carry off the water. Put away in this manner they will be found in good condition in the Spring.

Red, or Purple Top Wing.
Globe. A variety of decided merit, and the most popular in our markets.
Globular-shape, very haudsome and of superior quality. Is a heavy producer, early, and of rapid growth and an excellent keeper.

ity. Is a heavy producer, early, and of rapid growth and an excellent keeper. Besides being a first-class table turnip, it is also very good for stock. Pkt., 5c.; ¼ lh., 10c.; lb., 30c.

Extra Early Purple Top Strap Leaved. The Earliest in cultivation and a splendid turnip. Is very flat, medium size, smooth, with bright purple top. Leaves are few and short and grow compactly, making very small top. Pkt., 5c.; ¼ lb., 10c.; lh., 35c.

White Egg. A quick growing, egg-shaped variety. Very smooth, pure white, grow half out of ground. Has a small top and rough leaves. Flesh is of excellent quality. Pkt., 5c.; ¼ lh., 15c.; lh., 35c.

Yellow, or Amber Globe.

Yellow, or Amber Globe. Excellent for table use or stock. Fine quality, keeps well. Pkt., 5c.; ¼ lh., 10c.;

Eight quarts to the acre.

Collier's Success. The ears are of immense size, 12 to 14 inches long, 8 to 10 inches in circumference, carrying 20 to 24 uniform rows of large yellow kernels, well developed over tip and butt. It is a luxuriant grower, about 12 to 15 feet bigh. Matures in 100 days. Makes a splendid ensilage corn, making two ears on many stalks. 14 pk., 25c.; pk., 75c.; bu., \$2.50.

Yellow Leaming. We have a very choice strain of this early, drought-resisting variety. It makes a fair-size ear, with deep, well-shaped graius, and will mature in 90 days. ½ pk., 25c.; pk., 60c.; corn. Ears are well filled out. A heavy yielder. ½ pk., 20c.; pk., 60c.; bu., \$1.75.

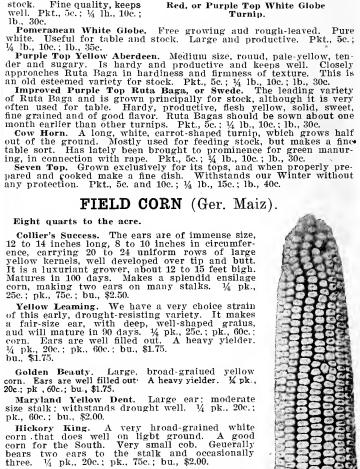

Golden Beauty. Large, broad-grained yellow corn. Ears are well filled out. A heavy yielder. ½ pk., 20c.; pk., 60c.; bu., \$1.75.

Maryland Yellow Dent. Large ear; moderate size stalk; withstands drought well. 1/4 pk., 20c.; pk., 60c.; bu., \$2.00.

Hickory King. A very hroad-grained white corn that does well on light ground. A good corn for the South. Very small cob. Geuerally bears two ears to the stalk and occasionally three. 14 pk., 20c.; pk., 75c.; bu., \$2.00.

Bed for Fred Page 19 P

Red Cob Ensilage Corn. Pk., 75c.; bu., \$2.00. Virginia Horse-Tooth Ensilage Corn. Pk., 75c.; bu., \$2.00.

Boone Co. White Corn.

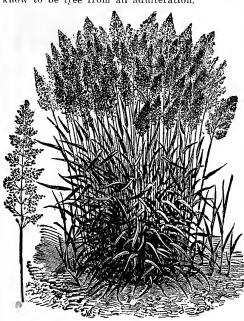

I raised the largest yellow corn ever grown around the Rappahannock River, from Collier's Success Corn, for which I payed you \$2.50 per bushel. Some ears measured 15½ inches after husking and a great many stalks had two ears on more than half of them.

Yours truly,

J. C. KREETE, Dumsville, Va.

GRASS SEEDS.

We desire to call special attention to the following list of Agricultural Grasses, which will, we think, be found very comprehensive, hoth as to varieties and descriptions. We are devoting a great deal of time to this most important subject and this department has already become an extensive one with us. Having learned by experience that the so-called imported grasses which are offered by those making a specialty of them in this country are very far from reliable, both as regards purity and quality, we have found it necessary to import all our seeds of this character direct. We have accordingly made arrangements for our stocks with one of the most prominent growers of Agricultural Grasses on the Continent, who by virtue of many years' experience in growing seeds of this peculiar character, has become the recognized headquarters for same. This will enable us to furnish our customers with the very best, and that which we know to be free from all adulteration.

Kentucky Blue Grass.

Kentucky Grass. (Poa Pratensis.) One of the most widely distributed and valuable native grasses, com-bining more points of excellence than auy other. It is a true perennial, last-ing indefinitaly and ing indefinitely and mprovingevery year. Densely creeping root - stalks.
spreading habit. smooth even growth, fine texture and rich-green color renit one of the hest grasses iwns. It forms der it for lawns. It forms a close turt, starts very early in the lasts Spring, and lasts till frost. It suc-ceeds with almost any soil, dry, rocky, sandy or gravelly, and stands the longand status the long-continued dry wea-ther and hot suns. It takes, however, two or three years to become well es-tablished, and should, therefore, be sown only in connection with grasses. If t If the soil

able it will eventually crowd these out, and make the finest possible

able it will eventually crowd these out, and make the finest possible sward. It is one of our most valuable pasture grasses, very productive and nutritious. Lb., 20c.; bu., of 14 lbs., \$2.25. • Rhode Island Bent. The distinctive feature of this species is its compact, creeping, rooting stems. It is of rapid growth and spreading habit, and the stoloniferous roots form a strong, enduring turf that is positively improved by constaut trampling. Being of fine texture, it is most valuable for lawns and putting greens. Lb., 45c.; 10 lbs., \$3.50.

Crested Dog's Tail. (Cynosurus cristatus.) A stoloniferous perennial, forming a smooth, compact and lasting turf. It thrives best on rich, moist land, but it can accommodate itself to almost any soil. Its roots penetrate deeply into the ground, which enables it to stand severe droughts. It makes a good bottom grass and is therefore valuable in mixtures for lawns and putting greens. It tbrives well in the shade. The color is the same as that of the Keutucky Blue Grass, and it is therefore, excellent in mixture with that sort. Lb., 20c. 10 lbs \$2.50. 30c.; 10 lbs., \$2.50.

Fancy Red Top; Herd's Grass. (Agrostis vulgaris.) A very hardy, native perennial grass, succeeding best on moist land. It accommodates itself to a variety of soils, however, even to quite dry situations, and stands our hot climate admirably. It is, perhaps, the most permanent grass we bave, and it enters largely into the composition of our best natural pastures. It remains green for the greater part of the year, and its long, trailing stems form a very close, matting turf that is not affected by trampling. Lb., 35c.; 10 lbs., \$3.00.

Meadow Fescus. (Festuca pratensis.) This makes a most excellent

Meadow Fescus. (Festuca pratensis.) This makes a most excellent hay and pasturage grass, and is practically valuable for Fall and Winter pasture, as it remains green throughout the Winter. It is also splendid Spring and Summer grass, and usually makes more and thicker leafage than any other grass we bave ever grown. It is very popu'ar in Southwest Virginia, East Tennessee and the mountainous district of North Carolina, where it is very highly appreciated as a large-yielding, nutritious pasturage and bay grass. Lb., 25c.: 10 lbs., \$2.00. 25c.; 10 lbs., \$2.00.

Orchard Grass; Cocksfoot. (Dactylis glomerata.) Orchard Grass; Cocksfoot. (Dactylis glomerata.) One of the grasses most employed in permanent meadows, either for pasture or for mowing. It is very hardy and succeeds well anywhere in the United States. It is very productive and makes excellent hay. If cut before it flowers it is less hard and the pith of the stem is soft and sweet. It blossoms about the same time as Red Clover, and is therefore desirable in mixture with that plaut. Stock of all kinds are very fond of it, either dry or green, and it endures constant cropping better than any other grass. After being mown, it grows up quickly and yields a heavier aftermath than any other variety. It can stand considerable shade, and is recommended as a pasture grass for woodlands. Its tendency to grow in tussocks is diminished if it is sown with other grasses, and is also by heavy rolling in the spring. But it is quite unsuitable for lawns. Lb., 20c.; bu. of

Pacey's Perennial Rye Grass. (Lolium perenne.) Although called a perennial, it seldom lasts more than three or four years. It is the most valuable grass of Great Britain, both for pasture and for meadows, occupying there the same relative position of importance that Timothy holds here. The cool, moist climate of England seems to suit it best, yet it succeeds very well in our middle and eastern states, and adapts itself to a great diversity of soils. The seed is large and heavy, and produces a strong, verdant growth in four or five weeks after sowing. It cures into hay having a sweet flavor, and much reliabled to cattle and beauty and produces as the reliabled to cattle and beauty.

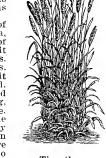

iu four or five weeks after sowing. It cures into hay having a sweet flavor, and much relished by cattle and horses. Its nutritive value, especially in mixture with Red Clover, is very great. It is excellent in mixtures for quick effects in lawns or golf-links. Lb., 10c.: 10 lbs., 75c.

Timothy. (Phleum pratense.) A native of Europe, but long ago naturalized in America, where it ranks as by far the most important or hay grasses. Ou moist, loamy or clayey soil it produces a larger hay crop than any other grass. It is not so well suited for light sandy soils. Though preferring a moist, temperate climate. it It is not so well suited for light sandy soils. Though preferring a moist, temperate climate, it withstands drought and extreme heat and cold. Its hay is very nourishing and can be preserved for a long time. It should be cut when flowering, it left later the hay becomes hard and coarse. It is often sown along with Red Clover, and the nutritive value of the hay is greatly increased by this mixture. Height, two to three feet. If sown alone, at least one-half bushed to the acreshould be used. The seed weighs 45 pounds to fibe bushel. Several grades are always on the market, differing in purity and vitality. It is always most economical to buy the highest grade known as "Faucy."

Wood Meadow Grass. (Poa nemoralis.) The chief characteristic of this grass is its special fitness for shaded positions in lawns and woodland parks, where other grasses will not grow. It is very permanent and hardy, resisting extremes of heat and cold, and is one of the first grasses to show a rich green growth in the Spring. The creeping roots are formed under ground, and make a good turf and should he included in all putting-green mixtures. It is excellent for pasture. Lb., 40c.; 10 lbs., \$3.50.

M. & S. Special Grass Mixture for Hay and Pasture. M. & S. Pasture Mixture is prepared to meet the average need. It is made up of the grasses best calculated to afford an abundant and nutritious food supply for stock. Its formula is based upon successful experience. For all ordinary permanent pasturage it will be found entirely satisfactory. Bushel of 14 lbs., \$2.75.

CLOVER SEEDS.

(Write for Samples and Prices in larger quantities.)

(Write for Samples and Prices in larger quantities.)

White Clover. (Trifolium repeus.) Some White Clover is usually included in lawn-grass mixtures. It makes an excellent turf that stands constant trampling. It is of dwarf habit, spreads rapidly and is very hardy. It is valuable in permanent pastures, being sweet and nutritious. Sow in Spring. In mixtures, one or two pounds; if alone, eight or ten pounds to the acre. ¼ lb., 15c.; ½ lb., 25c.; 1h., 50c.

Alfalfa, or Lucerne. (Medicago sativa.) Requires deep, rich, well-drained soil. Roots very deeply, the tap-root descending often to a depth of 10 or 15 feet in loose soil. It is, consequently, capable of resisting great droughts. It should be sown alone (about same time as oats are sown in this section) in thoroughly prepared, deeply plowed soil, at the rate of 20 to 25 pounds to the acre. It is also successfully sown as late as August and up to the middle of September. The crop should be cut when the plant is coming into bloom. In suitable soil it is perennial, and several crops may be cut every year. Height, one to three feet. Lb., 18c.

Alsike, or Hybrid Clover. (Trifolium hybridum.) A perenuial, one to three feet high, succeeding best in cold and stiff soils, and in marshy lands which are too wet for other species. It grows well in the far North and in high altitudes, and can withstand severe cold. A good honey plant for bees. Fifteen pounds to the acre. Lb., 22c.

good honey plant for bees. Fifteen pounds to the acre. Lb., 22c. Red Clover. (Trifolium pratense.)

altitudes, and can withstand severe cold. A s. Fifteen pounds to the acre. Lb., 22c. Red Clover. (Trifolium pratense.) One of the most valuable farm crops of the eastern States for pasture, hay, or for turuing under for green manure. It requires a deep, rich soil, and yields two hay crops in the season. In this section, sow in the Spring at the rate of 15 pounds to the acre. Lb., 20c.

Mammoth Red, or Sapling Clover. Grows larger and lasts longer than the commou red clover: valuable for plowing under. Ten pounds to the acre. Lb., 22c.

Crimson, or German Clover. (Trifolium incarnatum.) Erect aunual, one to two feet high, with bright-searlet flowers. A native of Southern Europe, it is largely grown in the Soutb for improving the soil by turning under. It will not stand severe trost, and canuot be depeuded upon to stand the winter north of New Jersey. It is a valuable crop for pasturage or It is a valuable crop for pasturage or green manure. For hay it should be cut when in full bloom. Sow 20 pounds to the acre. Lb., 10c.

FORAGE AND MISCELLANEOUS SEEDS.

Write for samples and prices in larger quantities. Market price.

German, or Golden Millet.

German, or Golden Millet. (Panicum Miliaceum var.) An improved va-riety, medium early, grow-ing three to five feet high. He a ds are closely con-densed, though the spikes are very numerous. During the past few years the fact has been established beyond doubt that seed of beyond doubt that seed of the German, or Golden Millet grown in Southern latitudes will produce a much larger yield of bay than from seed grown in Northern or Western sec-tions of the country, and for that reason is far better for farmers to sow. Lb., 5c.

Hungarian Grass, or Millet. (Panicum Germanicum.) A species of millet growing less rank with smaller stalks, and often yielding two or three tons of hay per acre. It is very conviguant and valuable. Like of hay per acre. It is very popular and valuable. Like the common millet, it is an annual, and requires to be sown every season, but will produce a larger return than almost any other crop. Lb., 5c.

Barley, Oats, Rye, Wheat. Market prices

Market prices.

Broom Corn. (Sorghum vulgare.) Succeeds in a good, deep soil, fresb but not damp; very sensitive to cold. Long-brush Ever-green. Lb., 10c.

Soja Bean. (Glycine hispida.) Thrives well in hot and dry weather. Valuable for the South. Does not make good hay, but is good as ensilage or green fodder. Market prices.

Cotton. (Gossypium.)-Upland Big Boll. Very prolific. Lb., 20c.

Cow Peas. (Vigna Catjang.) Specially adapted to warm countries; extensively grown in our Southern States; also valuable in this latitude as a fodder plant; their chief value, however, is as a greeu crop to plow under. The seed should not be sown till the ground has

Black, Black-Eyed, Clay, New Era, Whippoorwill. Market prices.

Japanese Buckwheat. In Japanese Buckwheat. In the locality of Baltimore this is sown anywhere from June 1st to July 15th; one bushel of 48 lbs. broadcasted to the acre. one bushel of 4S lbs. broadcasted to the acre. If one has the ground prepared and the opportunity, it can be sown as early as May 1st. This variety produces brown seed, is very prolific, maturing fully a week earlier than "Silver Hull" variety. It makes a very fine quality of flour, but is chiefly used for poultry food. For planting adjacent to game preserves it provides excellent food for tbe birds. The flower makes ideal bee food; while the straw is very abundant. Our seed is grown by a specialist in New York State, who procures his seed stock every few years from Japan.

A Head of Japanese Buckwheat.

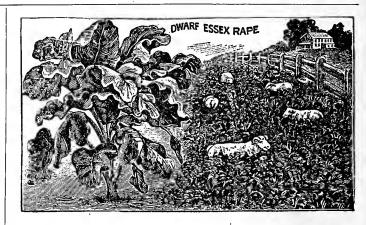

A lical per qt.; peck, 50c.

A procures his seed stock every few years from Japan.

Any of the clover crops can be sown with buckwheat, these to mature the yields as much as 80 bushels

Peas—Canadian Field. Valuable for Northern climates, for cattle-feeding, recially for milch cows. It also makes fine ensilage. It is sown broadcast in the Spring and harrowed in. If sown with oats, about 1½ bushels to the acre: in drills, two to three bushels to the acre. Market price.

Rapc-Dwarf Essex English. (Brassica napus.) Largely grown in

the Northern United States and in Canada. It is excellent for sbeep and hog pasture, and chicken yards, also for soiling. It may be sown in May, and will be ready for pasturing in July and August. Or it may be sown in June or July, and yet furnish a large amount of pasture or fodder. In drills, sow five pounds to the acre; sown broadcast, ten pounds to the acre. Lb., 10c.; per 100, \$8,00.

Kaffir Corn. Non-saccharine. The plant is low, stalky, perfectly erect. The whole stalk, as well as the blades, cures into excellent fodder, and in all stages it is available for green feed. The seed making excellent chicken and pigeon food. Lb., 10c.

SORGHUM, OR SUGAR CANE,
Early Amber. Ripens wherever Yellow
('orn matures. Grows 10 to 13 feet high.
Fine for cows, either green or cured. Lb..

Ripeus about 10 days Early Orange. after Early Amber, and is said to produce a larger crop. Lb., 10c.

Sunflower-Large Russian. Lb., 10c.

Vetches—Spring Tares. (Vicia sativa.) Sown broadcast at rate of 60 pounds to the acre, like wheat or barley, and sometimes mixed with oats for soiling. Used in France and Canada as a substitute for peasure. Price variable.

Sand, Winter, or Hairy Vetch. (Vicia villosa.) Thrives on poor, arid, sandy solls. It may be sown either in Fall or in Spring. mixed with rye, for a support. Grows mixed with rye, for a support. Grows three to four feet high, and can be cut as soon as the bloom appears, and again for the seed. Perfectly hardy. Sow 50 pounds to the acre. Price variable. Lb.,

FREE NOTICE FREE

With every Garden or Flower Seed Order amounting to \$5.00 or over we will send one copy of the 186-page Farmers' Ready Reference Book. The most complete Farm Book on the mar-ket. Every department of Farm Life covered in detail by Experts. Classi-fied and indexed for convenient use.

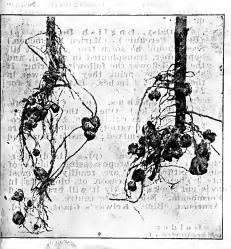

Alphabetically Arranged:

St. Micbeals, Md., April 21st, 1914. Perhaps you will be glad to know that the Yellow Danver Onion Sets, received from you, are coming up finely. I have a region our onion fields are going to attract a good deal of attention in this vicinity. Very truly yours, GUION P. WILSON.

***FARMOGERM_NITROGEN_GATHERING BACTERIA.

Nitrate Sacks, or Nodules, on Cow Pea Roots.

"Alfalfa." The great-**Arana.** The greatest forage crop known is now grown with great success in all sections. This wonderful crop can be grown wherever the soil has wherever the soil has good drainage — seed bed well prepared and seed inoculated. The Agricultural Experiment Stations have demonstrated that the reason for failure to grow Alfalfa is because of the absence of the proper bacteria in the soil, and by the use of Farmogerm inoculation upon the seeds this condition has been overcome, and has been overcome, and Alfalfa is a decided success. Farmogerm will provide all inoculations for Alfalfa or any other legumes. It any other legumes. It comes in bottles ready for use. You can inoculate the seed for ten acres in ten minutes. Clovers, Soy Beans, Cow Peas, Beans are legumes, and are great. This inoculation not only prichogogode.

legumes, and are greatly benefited by the proper inoculation. This inoculation not only increases the crop in weight, but also in richness, and deposits in the ground upon the legume roots great quutities of nitrates.

Garden Peas, Beans, Sweet Peas yield earlier and longer when inoculated. Order Farmogerm for all these seeds. Prices: Five-acre size bottle, \$9.00; one-acre size bottle, \$2.00; garden-size bottle, 25c. and 50c.

MULFORD'S NIROGERM

118. M. & S. GIANT DWARF NASTURTIUMS.

(a). (Kapuzinerkresse.)

A great advance has been made of late years in the range of new colors which has been de-veloped in this popular flow-er, which is one of onr annuals; easily grown and pro ducing a great profusion of brilliant colored flowers from within a few weeks after they are sown until they are killed by frost they will flower more pro-fusely in thin soil. Our Na-sturtinms are noted for their size, variety and brilliancy and brilliancy of their colors.

M. & S. Fancy Giant Mixed Dwarf. This is one of the finest mixtures ever offered; composed of the largest and finest varieties. Pkg., 5c.; oz., 10c.; 2 oz., 15c.; ¼ lb., 25c.; lb., 75c.

M. & S. DWARF NAMED NASTRUTIUMS.

Aurora. Rich yellow, veined carmine,

Chamelleon. Produces various colors and markings on the same plant

Empress of India. Dark leaved, velvety dark scarlet flowers, select

Ladybird. Rich yellow, scarlet spotted flowers, dark-leaved, splendid.

Queen of Tom Thumbs. Verigated foliage, choicest mixture, Golden Queen. Yellow leaved with golden yellow flowers.

Prices of all the above varieties as follows: Pkt., 5c.; oz., 10c.; 2 oz., 15c.; ¼ 1b., 25c.; lb., 75c.

M. & S. TALL OR CLIMBING NASTURTIUMS.

This mixture cannot be excelled for large size and beautiful colors of the flowers. Composed of the largest and finest varieties. For covering trellises, fences, arbors, plazzas, tralling from vases, over rockwork, etc., nothing equally gorgeous effect produced by that great quantities of bloom from 'early' summer until frost; height, 8 to 10 feet. Pkt., Sec.; oz., 10e.; 2 oz., 15e.; ¼ 1b., 25e.; lb., 75e.

M. & S. SWEET PEAS (Ger. Suesse Wicken).

Peas, Sweet owing to the excrops for the last two years are very scarce, and, whilst the prices quoted are not firm, we shall endeavor to adhere to them as long as we can Intending pur-chasers are strongly advised to order as soon as possible after receipt of cata-logne. It will be difficult to re-place the seed when onr sup-ply is sold.

Through the skill of special-ists, the Sweet Pea has become much larger and lovelier than before it became so nopular There are flowers of quite distinct shapes, some of which are a great improvement upon the Sweet Pea of the old type. For garden decoration it is now grown in clumps, and in separate colors. The plants are more robust, dwarf, branching, and bloom more freely, some varieties showing three to four blooms on a stem. A deep, rich, moist soil is best suited to Sweet Peas, hence a trench should be dig 1½ feet deep and filled with very best loam mixed with bone meal or well-rotted stable manner. The vines are usually with bone meal or well-rotted stable mannre. The vines are usually grown in double rows, with a wire trellis or a row of brush between. For each double row make the drills about 6 inches deep, and 9 or 10 inches apart. Sow pientifully, covering about 2 inches deep, and out to about 2 or 3 inches apart. Spring sowings thould use the pist as early as the ground can be prepared. The earliest flowers are from seed sown in fall, preferably in a dry situation, and 6 or 8 inches deep, giving them level culture. Sweet Peas should not be grown on the same soil year after year. If the location cannot be grown on the same soil year after year. If the location cannot be grown and all lockes deep and width of a foot or so should be grounds. If the soil is in good rich condition, bone meal, is the best fertilizer. grounds. If the best fertilizer.

NITROGEN BACTERIA "FARMOGERM."

The ideal preparation for treating sweet peas seed when planting. Makes larger and more flowers, longer stems; prolongs the blooming period. 25c. and 50c. per bottle. See page 25 for full particulars

M. & S. GILT EDGE SWEET PEA MIXTURE.

This superb mixture is blended by us with extraordinary care from named varieties of the most improved large flowering type, including recent American and European novelties, as well as a great many new hybrids, as yet un-named, insuring a gorgeous color effect. Pkt., 5c.; oz., 10c.; ¼ lb., 25c.; ½ lb., 40c.; lb., 75c.

SPENCER VARIETIES MIXED SWEET PEAS.

Spencer Varieties Mixed Sweet Peas. A special mixture of the Spencer type. Pkg., 5c.; oz., 15c; ¼ lb., 40c.; lb., \$1.50.

M. & S. SELECTED NAMED SWEET PEAS— STANDARD VARIETIES.

The varieties we offer below have been selected from a large list and embrace only the very best large flowering sorts and for freedom of bloom, size of flowers and length of stem cannot be surpassed. America. Blood red striped on white.

Blanche Burpee. Large pure white.

Blanche Ferry. Standard carmine rose, wings white tinged pink.

Countess of Radnor. Delicate lavender standard, dark monve wings, dainty, white edged pink.

Dorothy Eckford. Fine pure white large flowers.

Emily Henderson. Splendid pure white, good for forcings. Jeannette Scott. Pink; very fine.

Katherine Tracy. Soft brilliant pink.

Lady Grisel Hamilton. Light lavender standard, sky blue wings; splendid.

Lord Nelson. Rich navy blue.

Mars. Bright red.

Miss Willmott. Large orange pink.

ALL FLOWER SEEDS 5 CENTS PACKAGE, UNLESS OTHER-WISE NOTED.

Annuals, and How to Grow Them

Annual plants are those that you must sow every year. The staid perennials I want for the main and permanent effects in my garden, but I could no more do without annuals than I could do without the spices and the condiments at the table.

Of the kinds of annuals there is almost no eud. This does not mean that all are equally good. For myself I like to make the bold effects with a few of the old profuse and reliable kinds. I like whole masses and clouds of them. Then the other kinds I like to grow in smaller areas at one side, in a balf experimental way. There is no need of trying to grow equal quantities of all.

For the main and bold effects I want something that I can depend on. There l do not want to experiment. Never fill a conspicuous place with a kind of plant you have never grown.

The kinds I like best are the ones easiest to grow. Ziunia, Petunia, Marigold, Four O'Clock, Sunflower, Phlox, Scabiosa, Sweet Sultan, Bachelor's Button, Verbena. Calendula, Calliopsis, Morning-glory, Nasturtium, Sweet Pea,—these are some of the kinds that are surest. I do not know where the investment of five cents will bring as great reward as in a packet of seeds of any of these plants.

Make the soil rich and fine and soft and deep, just as you would for radishes or onions. There are some plants for which the soil can be made too rich, of course, but most persons do not err in this direction. The finer and more hroken down the manure the better. Spade it in. Mix it thoroughly with the soil. If the soil is clay-like, see that fine manure is thoroughly mixed with the surface layer to prevent "baking."

First and last, I have grown practically every annual offered in the American trade. It is surprising how few of the uncommon or little-known sorts really have great merit for general purposes. There is nothing yet to take the place of the old-time groups, such as Amaranths, Zinnias, Calendulas, Daturas, Balsams, Annual Pinks, Candytufts, Bachelor's Buttons, Wall-flower, Larkspurs, Petunias, Gaillardias, Snapdragons, Cocks-combs, Lobelias, Coreopsis or Calliopsis,

California Poppies, Four O'Clocks, Sweet Sultans, Phloxes, Mignonettes, Scabiosas, Nasturtiums, Marigolds, China Asters, Salpiglossis, Nicotianas, Pansies, Portulacas, Castor Beans, Poppies, Sunflowers, Verbenas, Stocks, Alyssums, and sucb good old running plants as Scarlet Runners, Sweet Peas, Convolvuluses, Ipomeas, Nasturtiums, Balloon Vines, Cobaeas, etc.

For bold mass-displays of color in the rear parts of the grounds or along the horders, some of the coarser species are desirable. My own favorites for such use are: Sunflower and Castor Bean for the hack rows; Zinnias for bright effects in the scarlets and lilacs; African Marigolds for brilliant yellows; Nicotianas for whites; Larkspurs for hlucs.

For lower-growing aud less gross mass-displays, the following are good: California Poppies for oranges and yellows; Sweet Sultans for purples, whites and pale yellows; Petunias for purples, violets and whites; Bachelor's Buttons (or Cornflowers) for Blues; Calliopsis and Coreopsis and Calendulas for yellows; Gaillardias for redyellows; China Asters for many colors.

For still less robustness good mass-displays can be made with the following: Alyssums and Candytufts for whites; Phloxes for whites and various pinks and reds; Lobelias and Browallias for blues; Pinks for whites and various shades of piuk; Stocks for whites and reds; Wallflowers for brown-yellows; Verbenas for many colors.

If flowers of any annual are wanted extra early, the seeds should be started indoors.

A number of the very late-flowering annuals should also be started indoors for best success in the northern States, as, for example, the Moonflowers and the tall-growing kinds of Cosmos.

Of late years there has been a strong movement to introduce the hardy perennials into general cultivatiou. This is certainly to be encouraged everywhere, since it adds a feeling of permanency aud purposefulness that is needed in Americau gardens. Yet I should be sorry if this movement were to obscure the importance of the annuals.

—By Prof L. H. Bailey.

Raising Hardy Perennials from Seed.

Hardy perennials are easily grown from seed. In many cases they are a little slower than annuals, but with intelligent care they are successfully raised, and from seed is an excellent way to get up a big stock of perennials in a short time. Many perennials, if sown in spring, bloom the first year from seed as freely as annuals. Others wait a year; that is, if sown this year they don't bloom until next year

The seeds may be sown in spring or in summer. In spring the sowings may be made in the window, the hot bed, the cold frame, the greenhouse or in the open ground out of doors. In the window prepare pots or flower-pans or small, shallow wooden boxes or flats; fill to one-third their depth with fine hroken cinders or broken pots, and over this place a thin layer of moss, chopped straw or rough siftings from the soil to keep the dirt from clogging the drainage; then fill up to within one-half or three-quarter inches of the brim with fine, free, mellow soil, with thin layer of very fine soil over it. Tamp the pot on table to firm the soil a little. Now sow the seed evenly, and shake a very little fine soil over it; press it all over with the back of the hand or a board, then water gently through a fine spray or rose; this done strew a little fine earth over all. In the case of very fine seeds covering only enough to hide the seed is plenty. but Pinks, Gaillardias and other rougher seeded sorts one-eighth inch deep of covering may be given. Keep the seed pots in a warm, sunny window, but shaded with a thin curtain from drying sunshine. A sheet of paper laid over the pot at this time prevents over-drying, but when the sunshine passes, take off the paper, else damp or mold will set in. A pane of glass laid over the pots or flats until germination appears is an excellent preservative of the moisture in the soil, but always tilt it up at one side one-eighth of an inch or more. When

the seedlings come up, give them more light by keeping them close to the glass, and hefore they overcrowd one another or become spindly transplant them into other pots or flats, three-quarters or one inch apart from one another, according to their size and strength. As the weather gets mild, by placing the seedlings in a cool and airier place, as on the porch or a sheltered place out of doors, they become fairly inured to the open weather, and when they are large enough for final transplanting set them out in the garden.

The amateur may have more success and less bother growing hardy perennials from seeds sown in the open ground than in any other way. Prepare a bed in a nice, warm, sheltered spot in the garden, preferably not very sunny; let the surface of the bed be raised four or five inches above the general level, and the soil be a mellow, free, fine earth on the surface. Draw shallow rows across the surface of the bed, three to four inches apart, and here sow the seed, keeping the varieties of one kind or nature as much together as practicable; cover the seeds thinly, press the whole surface gently, water moderately, then dust a little fine, loose soil over all. If the weather is sunny or windy, shade with papers or a few branches, but remove these in the evening. When the seedlings come up thin them out to stiffen those that are left, and when they are two or three inches high, they are fit for transplanting into permanent quarters. All this should be done in early spring, say March, April or May, or in warmer localities a month earlier,

Again, in July or August perennials are very easily raised out of doors, and much in the same way as above. Transplant these seedlings in late August or early September to get well-rooted stocky plants before winter sets in.

M. & S. SUPERFINE DAHLIA ROOTS.

Culture. One of the most important points in the cultivation of the Dahlia is to select a well-drained position where they will receive the full benefit of the sun during the greater part of the day.

As to soil, they are not at all particular, excepting that in the case of a stiff clay some loose material should be added, such as coarse

Assortment of M. & S. Superfine Dahlias.

Assortment of M. & S. Superine Dahlas.

sand, old mortar, or anything which will make the soil loose aud friable. The soil must he well dug, and a liberal amount of suitable plant food incorporated. For this nothing is more satisfactory than well-decayed stable manure; but where this cannot be conveniently procured pure bonemeal, sheep manure, or any chemical fertilizer rich in ammonia and phosphoric acid will answer.

The planting of dormant roots in the latitude of Baltimore may be done at any time between April 25th and June 15th, the earlier planting being preferable. Plants must not be set out until all danger of frost is over, say May 10th.

Dahlias should be planted where they can be watered during the blooming period.

blooming period.

After May 1st we can furnish started Dahlia Plants at the same price as roots.

CHOICE DECORATIVE DAHLIAS.

Celeste Meyer (for description see Pink Special Page). Price, 25c. each; \$2.75 per doz.

Eleanor Stisser (for description see Pink Special Page). Price, 25c.

each; \$2.75 per doz.

Baron Schroeder. Rich purple; highly recommended. 10c. each;

Clifford W. Bruton. A fine bright yellow. 10c. each; \$1.00 doz.

Delice. Beautiful glowing, rosy Pink, good stems, fine for cutting.
15c. each; \$1.50 doz.

Grand Duke Alexis. Ivory white, sometimes showing lavender centre.

Grand Duke Alexis. Ivory white, sometimes showing lavender ceutre. 15c. each; \$1.50 doz.
Golden West. The finest decorative yellow Dahlia in cultivation. 25c. each; \$2.75 doz.

Henry Patrick. A beautiful pure white. 15c. each; \$1.50 doz.

Jack Rose. Brilliant crimson-red, similar in shade to the popular "Jack" Rose, which suggested its name; perfect for garden decoration or for cutting. 10c. each; \$1.00 doz.

Jeanne Charmet. A splendid cut flower variety of a pleasing shade of violet-rose on a lighter ground. 15c. each; \$1.50 doz.

John Elitch. Beautiful rich cardinal red. 15c. each; \$1.50 doz.

Lyndhurst. Brilliant cardinal-red. A fine cut flower. 10c. each; \$1.00 doz.

\$1.00 doz.

Mne. Van den Daele. A charming soft rose with deeper markings, shading to white in the centre. 15c. each; \$1.50 doz.

Mrs. Hartong. Golden-bronze; very fine. 10c. each; \$1.00 doz.

Matchless. Deep maroon with black shadings. 10c. each; \$1.00 doz.

Mrs. Roosevelt. Delicate Silver Rose. 15c. each; \$1.50 doz.

Mme. A. Lumier. Pale White, Violet Red Points. 15c. each; \$1.50

Sylvia. Soft, pleasing mauve-pink, gradually chauging to white in the centre. A fine cut flower. 10c. each; \$1.00 doz.

Souv. de Gus Douzon. Immense flowers; a beautiful red, tall and grand bloomer. 15c. each; \$1.50 doz.

Our selection of the above named \$1.00 per dozen.

FANCY CACTUS DAHLIAS.

Aurora. A beautiful reddish-apricot suffused with flesh-pink, shading lighter to the tips. 15c. each; \$1.50 doz.

Aegir. Rich, hright crimson scarlet. 15c. each; \$1.50 doz.

Blanche Keith. Grand flower. Yellow, free bloomer. 15c. each;

Brittania. Deep Salmon. 15c. each; \$1.50 doz.

Countess of Lonsdale. A peculiar hut pleasing hlending of salmoupink and amber, a color difficult to describe. Flowers freely under all conditions. 10c. each; \$1.00 doz.

Cockatoo. Lemon yellow, white ceutre. 15c. each; \$1.50 doz.

Else. A charming variety, with a combination of delicate colors.

The base of the petals is of butter-cup yellow, gradually passing to amber, finished with a tip of tyrian-rose. 15c. each; \$1.50 doz.

Flora. An ideal white Cactus Dahlia. A large, heavy flower, produced on stout, stiff stems, makes it valuable for cutting. 10c. each;

\$1.00 doz.

Floradora. Remarkably tree-flowering, bright blood-red. 10c, each; \$1.00 doz

General Buller. Dark velvet maroon, white tips. 10c. each: \$1.00 doz.

doz.

Gabriel. Creamy-white, edged with vermilion. 10c. each; \$1.00 doz.

Hunold. Terra cotta red. 15c. each; \$1.50 doz.

Kriemhilde. A most popular cut-flower variety; perfect flowers on long stems; color a hrilliant piuk, gradually shading to white at the ceutre. 15c. each; \$1.50 per doz.

Master Carl. Large, clear orange-salmon. 15c. each; \$1.50 doz.

Mrs. H. J. Jones. Bright scarlet, tipped white. 15c. each; \$1.50 doz.

Progenitor. Bright carmine; each petal being furcated on the end like a staghoru fern. 10c. each; \$1.00 doz.

Standard Bearer. Rich, fiery-scarlet; tree and of perfect form. 10c. each; \$1.00 doz.

Standard Bearer. Rich, nery-scariet; tree and of perfect form. foc. each; \$1.00 doz.

Strahlen Krone. Cardiual red. 10c. each; \$1.00 doz.

Thos. Parkins. Bright Terra Cotta. 15c. each; \$1.50 doz.

Volker. Clear lemon-yellow. 10c. each; \$1.00 doz.

Wunderkind. Lumiuous canary-yellow shading to white, suffused with flesh at the edges; free bloomer. 15c. each; \$1.50 doz.

Winsome. Pure white; twisted petals. 15c. each; \$1.50 per doz.

Our selections mixed of the above named, \$1.00 per dozen,

FANCY VARIETIES.

Fern-Leaf Beauty. White, striped deep crimson; fern-like foliage; dec. type. 10c. each; \$1.00 doz.

Lucy Fawcett. Canary yellow, striped wine, show type. 10c. each;

\$1.00 doz.

Le Grand Manitou. White ground color, prettily spotted, striped and blotched with deep reddish violet; dec. type. 25c. each; \$2.75 doz. Maid of Kent. Cherry red, tipped and blotched white; dec. type. Maid of Kent. Cherry red, tipped and blotched white; dec. type.

10c. each; \$1.00 doz.

Progress. Bright, rosy like, penciled and spotted crimson; show type. 10c. each; \$1.00 doz.

Prof. Mansfield. Rich yellow, clear white, tips rosy red; dec. type.

15c. each; \$1.50 doz.

POMPON DAHLIA.

Little Helen. The finest pure white. When in bloom the entire plant is a mass of flowers. 10c. each; $\$1.00~\rm doz$.

each; \$2.75 doz.

Pacony Chinenses. (Jeanue d'Arc.) Fine rose, centre creamy white and sulphur. 25c. each; \$2.75 doz.

Paeony Tenuilfolia. (Rosea.) Beautiful pink. 25c. each; \$2.75 doz. Paeony Tenuilfolia. (Rubra.) Bright red. 25c. each; \$2.75 doz.

MADERIA, OR MEXICAN VINE (HARDY).

The tubers, if planted deep and protected during the winter, are hardy. The leaf is very deep greeu, and grows very dense; the flower is small, white in color and fragrant. This very rapid growing vine should be planted wherever a dense, quick shade is desired Roots, 5c, each; 30c, doz.

DOUBLE PEARL TUBEROSES.

Culture. Oue of the most fragraut and popular of the summer-flowering bulbs. May be started early in hotbeds or pots, or planted in opeu ground after first of May. The bulbs we offer are not to be compared with cheap ones-ours are sure bloomers. Soaking them over night in lukewarm water rapid growth. Two for 5c.; doz., 25c.: 100, \$1.25.

Elephant Ear.

Double Pearl Tuberose.

CALADIUM ESCULENTIUM (Elephant's Ear).

As centre pieces of specimen in flower beds Caladiums answer well. They also make an excellent edging for a hardy bed of grass, for Ricinus and other tall growing plants. When planted in a bed alone, a border of Scarlet Sage removes the one color effect and makes a beautiful contrast. Do not plant Caladiums outdoors until after May 1st, but to get them in early growth they may be started indoors. Monster Bulbs. 15c. each; \$1.50 doz.

Mammoth Bulbs. 10c. each; \$1.00 doz.

M. & S. SUPERFINE GLADIOLUS.

Cultural Hints on Gladiolus. A sunny location is very essential. The soil should be one that has natural drainage, and should be thoroughly enriched with well-rotted manure. Start to set the bulbs out about April 1st. To get best effects, have about 6 inches of space between them. They usually flower 90 days after planting. In order to have a succession of flowers until frost, make a planting about every 10 days, up to July 1st. It is advisable to purchase the bulbs at one time, as they are frequently not obtainable later in the season. While growing, bulbs should be thoroughly cultivated, and should be given a top-dressing of Sheep Manure and Bone Meal. As the bulbs begin to flower, plants should be supported with a suitable stake, to prevent them from breaking off.

M. & S. Choice Mixed Gladiolus.

M. & S. Choice Mixed Gladiolus. Composed of all named varieties in gorgeous blending. Doz., 35c.; 100, \$1.75.

M. & S. NAMED GLADIOLUS.

America. A beautiful flesh pink, tinged with lavender. A variety of robust growth and easy cultivation. The flowers are very large and expanded, many being open at one time. 5c. each; 50c. doz.; 100, \$3.00.

Augusta. A lovely variety for the garden, producing graceful, slender stems, which are dressed entirely with open flowers of white, slightly tinged and striped pluk. 5c. each; 50c. doz.; 100, \$3.00.

Brenchleyensis. Splendid for garden effects, as all the flowers appear at one time. Vermilion scarlet color, ideal for planting in front of shrubbery. 3c. each; 25c. doz.; 100, \$1.75.

Hollandia. One of the most exquisitely colored and formed gladiolus in our list. In addition, the size of bloom is not exceeded by any other. The color is a delicately flushed salmon-orange. 5c. each; 50c. doz.; 100, \$3.00.

Mrs. Francis King. A most beautiful flame piuk. Immeuse flowers on a spike growing 4 feet high, with from 18 to 20 flowers, 6 to 8 being open at one time. Many of the bulbs produce two and three flower spikes; a gem among gladiolus. 5c. each; 50c. doz.: 100, \$3.00.

I purchased some Canna Roots from you last spring and I never, in all my life, have had such beautiful flowers. They were admired H. M. GRESHAN, Tappahannock, Va. by everybody who saw them. Yours truly.

M. & S. SUPERFINE CANNA BULBS.

In almost every In almost e very private garden, in all public parks and in most of the large cemeteries. Cannas are used with the greatest effect to adorn the surroundings. It is difficult to convey in language an idea of the beauty of the Canna plant and flower.

Culture. Canna tubers should not be
put into the ground
until the soil has be
come warm. They
commence blooming
in June and continue until late in
September. Every
shoot bears a flower
and these shoots are
being constantly being constantly produced through-out the blooming season.

Note. Our prices are for dormant roots in strong divisions of two and wisions of two and three eyes. After May 1st our stock of roots is usually sold, at which time we can fill orders with well-developed M. & S. Superfine Cannas.

plauts of any variety
on this page at 5c.
each; 50c, doz.; 100,
\$4.50 (except where noted). Price of roots at bottom of list.

King Humbert. Truly a king among the Cannas, its majestic growth is doubly enhanced by a massive coppery scarlet flower and the broad deep bronze foliage. It grows 4 feet high and is splendid either as a ceutre, edged with a dwarf yellow canna or vice versa, placing it around a centre of a tall yellow variety. Roots, 7c. each; 75c. doz.; 100, \$6.00. Plants, 10c. each; 90c. doz.

Charles Henderson. Grows 4 feet high; rich crimson; green foliage. Florence Vaughan. Grows 5 feet high; green foliage; rich golden yellow, dotted red.

Austria. Pure canary yellow, reddish dots in centre, 3½ feet high, centre, 3½ f green foliage. Italy. Yellow, Blotched red, 5 feet high,

green foliage.

Black Beauty. Deep crimson, bronze foliage, feet high.

Mme. Crozy. Bright scarlet, golden border, 3½ feet high, green of the state of th

est approach to a pink; is a first-class bedder; 4 feet; green foliage, Mont Blanc. The only

pure white canna; large flowers; 3½ feet; green

Richard Wallace. Very large, 4 feet high, greeu foliage, vellow flowers.

Queen Charlotte. Makes a gorgeous display when planted iu masses; color a wide band of yellow, bordering a centre of scarlet; 3 feet high, green foliage.

**Bronze foliage; currant red flower; 4 feet high.

"Venus!" One of the softest and most delicate virieties ever introduced; flowers fair size, soft, rosy pink; with border of creamy; yellow; bright green foliage; 3½ feet of the soft size of the soft size.

Prices of the above or mixed, 5c, each; 50c, doz,

Mr. J. O. Stafford, Towson, Md., writes under date of July 10th, 1913: '"The M. & S. Gilt Edge Sweet Pea Mixture Seed which you sent me produced the most beautiful crop of Sweet Peas that I and a great many of my neighbors had ever seen."

BEGONIAS—TUBEROUS ROOTED.

There hardly is a single garden in which there are not which there are not semi or entirely shaded spots where the average flower will not grow; such places are ideal for this flower; yet it will make a dazz-liug show in the open. Enormous open. Enormous wax-like flowers ap-pear uninterruptedly from June till frost. The bright flowers contrast well flowers contrast well with the deep-colored foliage. The bulbs must be lifted in the fall. If you have never grown them, try them this year. Start your bulbs in March and have flowers in June. Plant bulbs outhave flowers in June. Plant bulbs outdoors not before May 1st. Splendid pot plants for the house or for bedding. For bedding they should be started in hotbed in March and April. The hollow end of the bulb should be uppermost and but

Single Plant of Tuberous Rooted Begonia.

uppermost and but slightly covered. Water sparingly until the plauts are growing.

Nursery and Plant Department.

We are pleased at all times to submit plans and suggestions for lay ing out hardy plant borders, evergreens, orchards, etc. We are not, however, prepared to undertake the planting thereof, but can recommend good reliable parties for this. CORRESPONDENCE SOLICITED.

ROSES—Perpetual, Tea and Climbing.

Special Directions for Planting Roses. Open a good space in the soil and spread roots; never cramp them into a small hole. Do not let manure come in contact with roots, but place it underneath and a layer of soil on top. If the rose is a bush plant, set it so deep that only branches are visible above ground, and never the main stem, but too deep is as bad as too shallow; 2 to 4 inches of the lower branches may be under the surface, but no more. If the plant is a budded or grafted rose, be sure that the bud or graft is fully 3 inches below the surface. Prune in spring only, when life is just apparent, and remove what might appear to be surplus wood. The strongest growth should be cut back to within 6 inches above ground; the weaker growth to 4 inches. All soil above the roots should be well pressed down. Feed your roses with "Ground Bone" and "Pulverized Sheep Manure" or "Poudrette." Mulch the ground during summer. The best remedy against the rose bug is Thauatus; this positively destroys them and does not injure the flower or blossom. See index page.

TEA, OR MONTHLY BLOOMING ROSES.

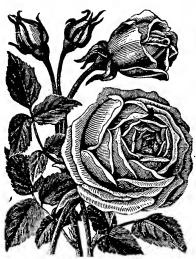

Killarney. This is, perhaps, the best known of Dickson's famous Irish Hybrid-Tea Roses, and is one of the most popular of our garden Roses, and also one of the leading varieties for winter cut flowers. It is perfectly hardy; in growth it is strong and robust, and as free-flowering as any Rose we know. It color it is a sparkling brilliant pink; the blooms are large, the buds long and pointed, the petals very large and of great substance, and just as handsome in the full-bloom flower as in the bud form.

White Killarney. A pure white sport of the popular Killarney Rose; identical in every way with its parent, excepting in color, which is a pure white.

pure white.

(Roses continued on next page.)

My Maryland. One of the finest American introductions. Very free-flowering, every shoot bearing one or more flowers, which are double, of perfect form, of a bright but tender salmon-pink, which lightens up beautifully as the flower expands; delightfully fragrant.

Helen Gould.

Pink Maman Cochet. Deep rosv-pink.

of the richest roses in cultivation. The flower is perfect, being a grand shade of deep pink, while the outer petals are silvery rose. A free

are silvery rose. A first bloomer.

Lady Hillingdon. Deep coppery yellow and an attractive loug bud. In this color there are few roses as good. It is

very free in growth and a coutinuous bloomer.

Molly Sharman Crawford. Ou opening, the flower is cream colored, which, as the bloom expands, turns to a pure white. We regard it as one of the finest white Tea Roses.

All of these varieties have given good results for outdoor culture.

Price, each, 50c.; \$5.00 per doz.

BABY RAMBLER AND POLYANTHA ROSES.

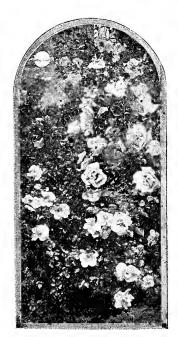

Anchen Muller (Pink Baby Rambler). Large clusters of brilliant rose flowers; the edges of the petals are wavy, giving it a peculiarly graceful form.

Clothilde Soupert (Polyantha Rose). An old favorite, producing in clusters beautiful perfectly double flowers of a French-white, deepening to rosy-blush in the centre; very free-flowering and deservedly popular.

Katherina Zeimet (White Baby Rambler). Pure white flowers, showing the yellow stamens very prettily. A free and continuous

Mme. Norbert Levayasseur (Crimson Baby Rambler). Similar color to the climbing Crimson Rambler. One of the most popular. All the above 50c. each, 2-year-old plants.

CLIMBING ROSES.

Silver Moon Climbing Rose.

Silver Moon. Flowers very large, four and oue-half inches and over in diameter, pure white in color, petals of great substance, beautifully cupped, forming a Clematis-like flower. The large bunch of yellow stamens in the centre adds to its attractiveness. These flowers are borne on strong stems 12 to 18 inches long, and are delicately scented. The plant is a strong grower, with large, glossy bronze-green toliage. Strong two-year-old plants, 75c. each.

Crimson Rambler. Too well kuown to require description. Everyone is familiar with its large clusters of crimson flowers. 50c. each.

Dorothy Perkins. pink, flowering profusely in large clusters; very fragrant and last-ing; a grand Rose in every way. 50c. each.

50c. each.

Aviator Bleriot. (The New Yellow Rambler). We have discarded the old yellow Rambler in favor of this new variety, in which we have a strong-growing plant with beautiful glossy, insect and disease-proof foliage, and bearing large clusters of medium-sized full double flowers of a saffron yellow, deepening to an almost golden-yellow at the centre. Strong two-year-old plants, 75c. each.

White Dorothy, Among Ram-

White Dorothy. Among Rambler Roses none has justly gained greater popularity than the beau-

tiful pink Dorothy Perkins. The White Dorothy is a duplicate except in color. 50c. each.

Hiawatha. There is no other Rose so brilliant as Hiawatha. It must be seen to be appreciated. Its flowers are about one and one-half inches across, and produced in long, pendulous sprays, with frequently from 40 to 50 flowers on a spray. In color it is brilliant, ruby-carmine, with a clear white eye and a mass of golden stamens—a glowing combination of colors, which can be seen at a great distance. The plant is of strong, vigorous growth, with bright green, glossy foliage, which is retained until late in fall. 75c. each.

Climbing American Beauty. Flowers are very full, double, often 5 inches across and of a rosy crimson; a splendid pillar rose. Each, 75c.

HYBRID PERPETUAL ROSES.

General Jacqueminot. (Jack Rose). Bright red.

Baroness Rothschild. Beautiful light pink.

Ulrich Bruner. Cherry-red; good bloomer.

Paul Neyron. Clear shiuing pink, very fine.

FRAU KARL DRUSCHKI. This is the ideal hardy white Rose, pure in color, perfect in form; strong grower and remarkably freeflowering; superb in every way.

Magna Charta, Bright pink, suffused with carmine; a beautiful Rose, and a strong, vigorous grower; one of the best.

White, tinted with yellow; large, full and of Gloire Lyonnaise. good shape; very distinct and pleasing.

Two-year old plants, each, 50c.; \$5.00 doz.

HEDGE PLANTS.

California Privet.

Exceedingly beautiful; leaves deep green, bright and very glossy; easily transplanted. The plants we supply have been grown under our own su-pervision, and only selected stock is sent out. It is out. It is unlike a fence which needs painting, re-pairing, etc., pairing, etc., pairing, etc., nd never

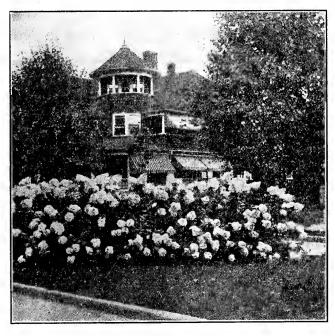

Hedge of California Privet.

Hedge of California Privet.

It is no further expense after planted, and it adds dignity and charm to any home, and increases the value of real estate. Being absolutely hardy, it increases in its beanty with each successive year, and the possibilities are amply displayed at some of the model suburban home grounds in and around Baltimore. Privet is somewhat of an Evergreen nature, and looks attractive until real winter sets in. To establish a good hedge, the proper foundation is necessary. The trench should be thoroughly mannred, and receive an additional liberal application of Pure Bone Meal and both worked in with a spade. Plants should be set 12 inches apart in double rows, in zig-zag fashion, so that the plants are diagonally opposite each other; this practically places them 6 inches apart, which is desirable to get a quick, dense growth. Plant from October 1st to November 15th, and from March 15th to May 15th.

California Privet. Two years, 3 to 4 ft., \$5.00 per 100; \$37.50 per 1000. Two years, 2 to 3 ft., \$4.00 per 100; \$32.50 per 1000. Two years, 1½ to 2 ft., \$3.50 per 100; \$25.00 per 1000.

HARDY DECORATIVE SHRUBBERY.

Hydrangea Paniculata Grandiflora.

Paniculata Grandiflora. The large panicles of white flowers are at their best during August; later they take on a reddish cast. These plants look fine used as single specimens ou the lawn or grouped in large beds. Strong plants, 50c. each; per doz., \$5.00.

Arborescens Grandiflora Alba. (Snowball Hydrangea). The snowwhite blooms are of the largest size. It comes into bloom early in June, lasting until late August. Is more hardy than any other sorts and especially suited to plant in shaded places. 50c. each; \$5.00 doz.

Hydrangea. Tree, white turning red. \$1.00.

Hydrangea Hortensia. These stately plants make ideal showy effects, especially desirable for seashore. If protected in the winter they will live outdoors for years.

Otaska. Rich pink. Strong plants, 50c. each; dozen, \$5.00. Large plants, \$1.00 each.

This class of Hydrangeas (Otaska) can be changed to blue by mixing into the soil around the plant a few handfuls of soot for iron filings. If this is not obtainable some lump alnm broken into small pieces can be substituted, about one-half pound to each plant.

TRITOMA.

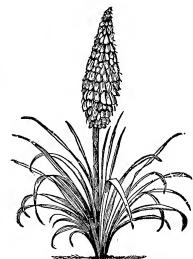

(Flame Flower, Torch Lily or Red Hot Poker Plant.)

In midsummer and autumn, when other flowers are on the wane, the Tritoma looms up and furnishes a wealth of bloom till killing frosts check bloom till killing frosts check it. A vase of these arranged with autumn leaves or orna-mental grasses make a land-some effect. The roots are cousidered hardy, though we, however, recommend that they be lifted in the autumn and placed in a box of soil or sand, preferably in the cellar. There are a number of varie-ties in commerce, but the sort ties in commerce, but the sort mentioned below seems to be demanded most and fill every

Pfitzeri. Blooms from An-Pfitzeri. Blooms from Angust till October; rich orange scarlet. See back cover page for colored illustration.

Truly a majestic plant, and especially fine for producing tropical effects. 50c. each; \$5.00 dozen.

EVERGREENS. ARBORVITAE, FIR, FROM JUNIPER, PINE, \$1.00 UP AS TO SIZE AND RETINOSPORA, VARIEŤY.

SPRUCE, YEW, BOX WOOD.

HARDY CLIMBING VINES.

Clematis. Large flowering hybrid; purple, white or red. 50c. each. Clematis Paniculata. Small; white flowering; very fragrant; strong grower. Most satisfactory Clematis that grows. Large plants, 35c. each

Wisteria. White and purple. Two ye Trumpet Vine. Two years. 50c, each. Honeysuckle. Popular climber. 25c. Two years old. 50c. each.

(Hardy Climbing Vines continued on next page.)

Gentlemen: The Butterfly Bush I bought of you is 5 feet high and 5 feet in diameter; flowers 8 to 12 inches long. There were 175 flowers on one bush which has been blooming since Juue 1st.
CHARLES W. ARMIGER, 3019 Brighton Street, Walbrook, Md.
September 22, 1914.

ORNAMENTAL GRASSES-Strong Clumps.

Pampas Grass. Eulalia. Striped lengthwise. 35c. each; \$3.00 doz. Pampas Grass. Zebrina. Striped crosswise. 35c. each; \$3.00 doz.

HARDY PERENNIAL PLANTS-Field Clumps.

Gaillardia. Blanket flower; very beautiful. 15c. each; \$1.50 per doz. Delphinium. Hardy Larkspur, most stately flower, does well anywhere. Dark blue, light blue, blue white center, white and Kelway's mixed. 15c. each; \$1.50 per doz.

Hardy Aster. All colors. 25c. each; \$2.50 per doz.

Hardy Aster. All colors. Soc. cach, gaob ps. do.
Montbretta. Culture—Like Gladiolus, but hardy They resemble
somewhat the gladiolus, but in a miniature form. The flower-spikes
are very brilliant and produced in quantity. Height, 2 see: They
should be planted in clumps of 50 or 100 hulbs. Pinester Chey
should be planted in clumps of 50 or 100 hulbs. Pinester embracking all colors of the rainbow. 25c. dos; \$1.70 per 100.

Aquiligea, Calumbine. All colors. 15c. each; \$1.50 per doz.

Sweet Williams. 15c. cach; \$1.50 per dozen.

Hardy Pinks. Dianthus. 15c. each; \$1.50 per dozen.

Hardy Phlox. Different colors. 15c. each; \$1.50 per dozen.

Double and Single Hollyhocks. 15c. each; \$1.50 per dozen. Stocks (Cut and Come Again). 15c. each; \$1.50 per dozeu.

Digitalis. Foxglove. 15c. each; \$1.50 per dozen.

Golden Glow. 25c. strong clump; \$2.50 dozen.

Shasta Daisy. Alaska pure white yellow centre. 25c. each; \$2.50 per dozen.

Other varieties of Hardy Perennials can be furnished promptly at reasonable prices for reliable stock.

FRUIT TREES AND BERRIES.

CHERRIES.

Black Tartarian Cher-Black Tartarian Cherry. Very large; purplish black; half tender; flavor mild and
pleasant. Tree a rem ar k a b l y vigorous,
er ect and beautiful
grower, and an immense bearer. Ripe grower, and an immense bearer. Ripe last of June and beginning of July. One of the most popular varieties in all parts of

the country.
Governor Wood, yelfovernor wood, yellow; Florence, red; suglish Murillo, red, tart, and other leading varieties. 50c. each.

APPLES.

Baldwin. Large, roundish; deep bright red; very productive; bandsome fruit Oue of the most popular varieties in Northern

Ben Davis, Large, handsome, striped, productive; a late keeper. A profitable market sort.

Grimes' Golden Pippin). Of the highest quality: deep golden yellow, aromatic, spicy

yellow, aromatic, spley and rich. Tree type water is spley and rich. Tree type water is spley and rich. Tree type water is specific to binsh on a clear, pale yellow ground; with a pleasant sub-add flavor. Red. Astrachan. Large, roundish, deep crimson, overspread with a thick bloom; juley, rich, add, very productive. Rhode Island Greening. Large, greenish with a rich, with rather an order.

thick bloom; julcy, rich, acld, very productive.

Rhode Island Greening, Large, greenish-yellow; tender, julcy and rich, with rather an acid flavor; an abundant bearer.

Smokehouse, A'popular old variety in Pennsylvania, where it originated. Roundish oblate; yellow, shaded and striped with bright red; flesh yellowish. A rather crooked grower, in Production of the Northern Spy. Land Control of the Northern Spy. Land Control of the Northern Spy. Land delicious flavor. The tree should be kept open by Pruning, so as to admit air and light freely like the Northern Spy. Medium size, dark red; of rich flavor, very productive; late.

late

Any of the above in 6 to 8 ft. trees, 50c. each; doz., \$5.00. We can also supply all other varieties, also Crab Apples.

PEARS.

Bartlett. Large size, with a beauitful blush; buttery, very juicy; bears early and abundantly.

Flemish Beauty. Large, beautiful, juicy, melting; good bearer; one of the hardiest and does well nearly everywhere.

Howell. Large, light, waxen yellow, with a fine, red cheek; handsome, rich; aromatic flavor. An early and profuse bearer.

Kieffer. While not of best quality, properly ripened it is a fair dessert fruit, and one of the very best for canning and preserving. Lawrence. A good grower; very productive. Fruit medium, canary yellow, sweet and excellent; a good keeper.

Le Conte. Very vigorous grower, with luxuriant foliage; fruit very large, greenish-yellow, smooth and handsome; juicy. Early.

Rossney. A large variety of rare merit; fiesh fine grained and of superior flavor; skin a beautiful creamy yellow, with crimson blosh, giving it a tempting appearauce; ripening in September.

Worden-Seckel. A seedling of the Seckel. Equal in quality to its famous parent, which it much resembles in flavor, is equally as luscious, more juicy, while in size, color, form and appearance it is decidedly superior; hardy and an enormous bearer; fruit keeps well. Extra Strong Trees, 5 to 7 feet high, 50c. each; per doz., \$5.00. We can also supply all other varieties.

PEACHES.

Trees such as we furnish will often bear the year after they have been set ont.

Crawford's Early. The best yellow peach for market; fruit large, oblong; skin yellow, with fine red cheek; flesh yellow, juley; won-derfully productive. Crawford's Late. Fruit of the largest size; skin greenish yellow, with dull red cheek; flesh yellow; one of the finest late sorts.

Elberta Large, yellow, with red check; feels yellow; firm, juicy, of high quality, Exceedingly prolific, sure bearer and hardy. Is doing well in all peach sections north and south. One of the leading market varieties. Follows Early Crawford.

Mountain Rose. The largest early peach. White, with red cheek rich and very good; productive and reliable. Freestone. Oldmixon Free. Uniformly large; white, covered with bright red; one of the best.

Stump the World. Very large; skin white, with bright red cheek; flesh white, juicy and good.

Extra Strong Trees, 5 to 6 feet high, 40c. each: per doz., \$4.00. We can also supply all other varieties.

PLUMS.

Abundance. The fruit is very large, showy, and heautiful. At turning to a rich, bright cherry color. Ripens early in August. Amber. Burbank. Medium to rather large, couical in form; orange-yellow, overlaid with red; flesh firm, meaty, yellow; from two to four weeks

later thau Abundance. Hale. The plums are of the largest size, bright orange-yellow skin, mottled and nearly covered with vivid cherry-red.
Red June (Japan) Vigcrous and early; fruit medium to large, deep vermillion-red; rery showy; flesh light lemon-yellow.

Sultan. Very large in size, deep purplish-crimsou in col-or; flesh very firm, dark crimson shaded with pink. dark

Wickson. Fruit large, ob-conical, dark crimsou-purple; flesh very firm, highly flav-ored; pit small. An excellent keeper. Ripens after Bur-

Wild Goose. Large, rich, crimson; very productive and profitable.

Extra Strong Trees, 5 to 6 feet high, 50c, each; \$5.00 doz.

CURRANTS.

Fay's Prolific. By odds the best red Currant we have. Large, wonderfully prolificand of good flavor. Has now been fruited here, and is simply grand. It far surpasses all other red varieties, and has fully sustained the broad claims which were made hy the disseminator upon its introduction. The bush is a strong grower and comes iuto bearing early. Price, \$2.00 doz. All other popular varie ties, \$2.00 doz.

Gooseberries. Popular varieties. \$2.00 doz.

Blackberries. I rieties. \$1.25 doz. Popular va-

Raspberries. Popular varieties. \$1.25 doz.

Fay's Prolific Current.

STRAWBERRY PLANTS (Extra Strong Layers).

Ready from April 1st to May 15th, and from October 1st to No. vember 15th.

Early Varieties. Abington, Chipman, Senator, Dunlap, Success.

Mid-Season Varieties. Auto, Bubach, Cardinal. Heritage, Nick Ohmer, President, William Belt, Marshall.

M. & S. PREPARED FIBRE COCOANUT SOIL.

Grow Your House Bulbs Without Soil, Drainage or Saucers. The Best and Most Charming Way of Producing Spring Flowers for House and Table Decorations.

The wonderful success that has been achieved in growing bulbs, such as Roman Hyacinths, Dutch Hyacinths, Paper Whites, Tulips, Narcissus, etc., in this special fibre, using vases, crock or other receptacies without drainage, proves that it is not only a most charming and effective method of growing bulbs for those who have neither a garden, the conveniences of greenhouses, or frames, or have a difficulty in obtaining suitable soil, but that is also one which we fell sure is not obtained and the don't in the future when it is fully realized what can be doned in this way.

Highly recommended and valuable for wornout soils. Should be worked in with soil. For lawns, trees, hedges and shrubbery. Also for house plants of all descriptions. It does not create or retain bugs or files, and is clean and odorless. For mushrooms it is the missing link, a cover for the beds; holds just enough moisture, mix three-fourths. M.A. & N. Prepared Fibre Coccanni Soil with one-fourth loam and your plants will be the right color and of uniforus size.

STERLINGWORTH A

They contain sufficient sulphur to burn 3 hours. They are excellent for ridding

or ridding poultry houses, dog keunels, cellars, outhouses, etc., of certain insect pests and many disease germs. The vapor from them penetrates crevices which caunot be reached by powders or liquids. Price, 15c. each;

mailing weight, 1 lb. Is a non-poisonous dry powder for sowing on the lawn and adheres to the broad

M STERLINGWORTH M flat leaves of such weeds as milk weed, witch

the broad that leaves of such weeds as milk weed, witch grass, wild moruing glory, dandelions, poison ivy, sumach, etc. It does not stick to the grass because of its upright position and smooth surface. The ingredients in combination with the sun's rays burn out the weeds. The compound has an invigorating effect on the grass, which stimulated by it springs up rapidly and gets ahead of the weeds that have been stunted and killed by the compound and quickly chokes them out. The use of Sterlingworth Lawn Compound helps give to the grass a beautiful rich bottle-green velvety color so much admired by lovers of good lawns. Two applications will clean out the most heavily weeded lawn. In many instances one application will do it. Do not dig out weeds, it leaves bare spots and holes. Sterlingworth Lawn Compound is easily applied by sprinkling over the weedy lawn. One pound will dress 100 to 200 square feet, depending on the lawn's coudition. I lb., 50c., mailing weight, 2 lbs.; 5 lbs., \$2.00, mailing weight, 6 lbs.

Pyrox (Bowker's). A pasty substance used for all leaf-biting in-

Pyrox (Bowker's). A pasty substance used for all leaf-biting insects. It is really a Bordeaux and Arsenate of Lead combined and is excellent. Dilute 1 lb. to 5 gals. water. 25c. per lb.; 5 lbs., \$1.00; \$1.75 per 10 lbs.; 25 lbs., \$4.00; 50 lbs., \$7.50.

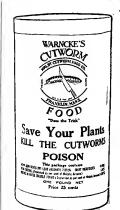

Rat Corn. For destroying rats and mice in greenhouses, hot-beds, etc. 15c., 25c., 50c. and \$1.00 per box.

Aphis Punk. A paper that has been thoroughly saturated with nicotine. Used for fumigating, giving off dense fumes of nicotine. Excellent for aphis, thrip, white and green fly, also red spider. (For use in greenhouses only.) Per pkg., 60c., \$6.50 per 12 pkgs.

Dalmation, or Persian Powder. For ridding buildings of all kinds of various insect pests. Particularly for the smaller and creeping kinds, as it is not strong enough to destroy large or more hardy insects. Per lb., 50c.

LIME SULPHUR SOLUTION.

For destroying San Jose Scale. This is a concentrated form which is diluted 1 gal. to 12 or 15 gals. water, either hot or cold. May be used as a summer or winter spray, excellent to use as a fungicide. Qt., 25c.; gal., 75c.; 5 gals., \$2.00; 10 gals., \$3.00; 25 gals., \$5.00; 50 gals., \$9.00

WARNICK'S CUTWORM FOOD.

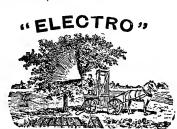

Simply put the Food on the ground around the plaut in the afternoon, when the ground is not wet; and one night, or possibly two, will practically rid the field of the worms there. If it rains within 40 hours after putting on the Food a second dose should be applied, so that the effective part of the Food may not be washed out until the worm can get at it. Very rarely in the North, but more frequently in the South, a second crop of worms appear, and a later application of the Food is necessary to overcome them.

One pound will protect 75 to 100 plants, which makes the expense either of cash or time, very small; almost nothing compared with the value certainly saved.

Electro Arsenate of Lead in Dry Provider Form. Is the only successful dry arsenate of lead because it is the only one in amorphous (non-crystalline) form. Electro Arseuate of Lead is in a form that will stick the longest. This is not true where the product is granular or crystalline. This is oue reason why Electro Arsenate of Lead should always be used. Heavy rains will not readily wash Heavy rains will not readily wash it off, aud it will be effective for mouths after application. It mixes instautly with water. ½-lb. cartons, 25c.; 1-lb. cartons, 40c.; 6-lb. kits, \$1.80. Special prices in quantity.

SPRAY CHEMICALS

Electro Arsenate of Lead Paste. Is supplied where a paste form is desired. The material is guaranteed to contain 20% arsenic oxide on a basis of 40% water. Most paste forms of arsenate of lead contain but 12½ to 15% arsenic oxide aud 50% of water. This material has all the chemical qualities of the Powder and is in the same physical condition, except that it is packed in paste form. 1-lb. jars, 30c.; 2-lb. jars, 50c.; 12½-lb. kits, \$2.25. Special price in quantities.

Tomato Horn Worm.

Electro Bordo-Pulp, or Bordeaux Mixture. Is a scientific compound of copper snlphate (blue vitrol) and high-grade lime for use as a fungicide only. It is not poisonous to insects.

This is Bordeaux Mixture (one of the oldest fungicides known) iu a concentrated form. It has long been found satisfactory for the control of fungous diseases.

control of fungous diseases.

Because of the fact that we can carefully watch the crude materials as well as the process of manufacture, we can turu out a conceutrated Bordeaux better than the grower at home who must utilize crude methods. 1-lb. jars, 30c.; 10-lb. kts., \$1.50.

Electro Bordo-Lead Mixture. A great substitute for Pyrox. This is a combination of our 20% Electro Arsenate of Lead Paste aud Electro Bordo-Pulp in proper proportious. Ten pounds of this in 50 gallons of water will be equivalent in arsenate of lead to approximately 5 lbs. of our 20% Arsenate of Lead Paste, and in Bordeaux to the 4-4-50 formula.

The remarks on Electro Bordo-Pulp are also true of the Bordo part

4.4-30 formula.

The remarks on Electro Bordo-Pulp are also true of the Bordo part of this mixture. Consequently, you will see that this is a very desirable spray material to use, giving a combined fungicide and insecticide ready for use, requiring only thinning down and addition to water. This mixture is especially adapted for a combined spray on potatoes, tomatoes, etc. 1-lb. jars, 30c.; 10-lb. kits, \$1.75. Special price in quantity.

price in quantity.

Electro Kerosene Emulsion. This is for spraying plant lice, aphis, leaf hoppers, etc. It is readily soluble in water, and should be diluted for the various insects and fruit trees per directions on the label. 1-qt. cans, 40c.; 1-gal. cans, \$1.00: 5-gal. cans, \$3.75. Special price in quantity.

Electro Insecticide Soap. Superior substitute for whale oil soap. Oil soap is especially valuable as a spray for lice and soft-bodied larvae. By our process we obtain an oil soap which does not contain free alkali. This is a very important item, as the presence of free alkali means severe injury to foliage and fruit. Unlike most so-called whale oil soaps on the market, this is not a by-product with us, but is especially prepared for the purpose for which it is required, and consequently much greater care is used in its manufacture. 1-lb. cans, 25c.; 5-lb. cans, 90c.; 10-lb. kits, \$1.25. Special price in quantity.

(Spraying Material continued on next page.)

INSECTICIDES-Continued.

VREELAND'S MICRO.

For Dusting Potatoes, Corn, Tomatoes, Etc.

The control of chewing-insects

The control of chewing insects on ground crops by dusting is such a street, which is a perfect dust-spray, combining with it such fungicing many instances. 1-lb. cartons, 40c.; 6-lb. kits, \$1.50; 12½-lb. kits, \$2.25. Special prices in quantity.

"Electro" Tree Wound Paint. Is used for painting the wounds on trees after pruning or where canker has been cut out. It makes a perfectly smooth surface, impervious to water, and it is a splendid disinfectant. One application is all that is necessary. 1-qt. cans, 50c.; 1-gal. cans, \$1.50; 5-gal. cans, \$6.25. Special price in quantity.

TREE TANGLEFOOT (Catapillar Preventative).

No Caterpillar and Creeping Insect Escapes its Sticky, Deadly Grip. The destroying army is coming. Don't wait until you see the vanguard. Band your trees with Tree Tanglefoot two weeks before the Gypsy, Browntail and Tussock Moth Caterpillars and Canker Worms, Climbing Cut Worms and Bag Worms being their ravaging work. work.

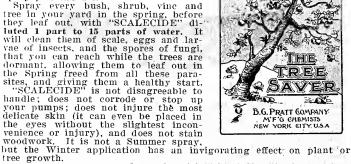

Easily and Quickly Applied with a Wooden Stick.

Tree Tanglefoot is harmless and the only sure and safe protective. One pound makes about nine liueal feet of band. One coating lasts three mouths and longer in any temperature, rain or shine—remains sticky and powerful twenty times as long as any other substance. Needs no mixing—just open the can and apply. Will not soften or run down the trunks of the trees. Absolutely prevents any creeping, crawling pests from harming your trees. 1-lb. cans, 30c.; 3-lb. cans, \$5c.; 10-lb. cans, \$2.65; 20-lb. cans, \$4.80.

"SCALECIDE"—THE TREE SAVER.

Are your trees healthy and vigorous. If so, "SCALESIDE" will keep them so; if not, we will guarantee that "SCALECIDE" applied once yearly, while the trees are dormant, will do more to bring them back to health, vigor and fruitfulness than any other spray you can use.

Spray every bush, shrub, vinc and tree in your yard in the spring, before they leaf out, with "SCALECIDE" diluted 1 part to 15 parts of water. It will clean them of scale, eggs and larvae of insects, and the spores of fungi, that you can reach while the trees are dormant, allowing them to leaf out in the Spring freed from all these parasites, and giving them a healthy start. "SCALECIDE" is not disagreeable to handle; does not corrode or stop up your pumps; does not injure the most delicate skin (it can even be placed in the eyes without the slightest inconvenience or injury), and does not stain woodwork. It is not a Summer spray, but the Winter application has an invitree growth.

One gallon of "SCALECIDE" will spray as many trees as 3½ gallons of Lime-Sulfur Solution. Dilute for all dormant spray work 1 part to 15 parts of water. 1 qt., 40c.; 1 gal., \$1.00: 5 gals., \$3.75; 10 gals., \$6.75; 30 gals., \$16.00; 50 gals., \$25.00.

"SULFOCIDE."

This is a soluble sulphur compound, and when used as a paint will protect young trees from the attacks of rabbits and mice, and also from apple and peach borers. It is the best remedy known that is non-injurious. When dry, it is almost insoluble in hot or cold water. One or two applications last a year

SULFOCIDE" as a fungicide is invaluable in the garden for controlling most fungous diseases effecting vegetables, when a poison is not needed. One gallou makes 200 to 300 gal-

loss of spray.

Especially valuable for rusts, mildew and red spiders on roses, hollyhocks, etc. 1 pt., 50c.; 1 qt., 75c.; 1 gal., \$2.00.

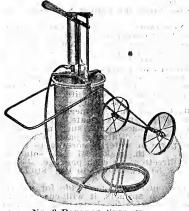

THE PARAGON SPRAYER.

Especially desirable for the reason that it is not necessary to strain the material before pouring it into the reservoir; although we recom-

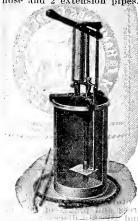

mend that this be done; guaranteed to give absolute satisfaction. Excellent for applying whitewash or cold water paint.

No. 0. Equipped with a 3-gal, reservoir, 4 ft. of hose, nozzle and extension pipes. \$7.50.

No. 1. With a 5-gal, reservoir, 5 ft. of hose and 2 extension pipes.

No. 1 Paragon Sprayer. 1 1947

No. 3 Faragon sprayer.

No. 3. Equipped with a 12-gal tank mounted on a truck, three 2½-ft. extension pipes, 2 nozzles and 10 ft. of hose. \$15.00.

No. 4. Mounted on a two-wheel truck; equipped with 10 ft. of extension pipe, 20 ft. of hose, and 2 nozzles. Complete, \$22.00, or with barrel, but no truck, \$17.00.

Extension Pipes, etc. For reaching into trees, 3-8 in. threads, with brass tube, 8 ft. \$2.00.

Bamboo, with brass tube, 8 ft. \$2.00.

Bamboo, with brass tube, 10 ft. \$2.50.

Galvanized Iron, for Auto Sprays, 2 ft. 30c.

Brass, for Auto Sprays, 2 ft. 45c.

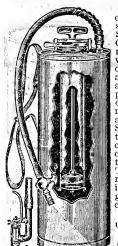

Stop Cock, for extension pipes, 40c.

Spray Nozzles—One-Point Vermorel, All brass. Furnished with five extra steel discs which may be easily renewed. The steel is heavily galvanized and will not wear as fast as brass. 75c, postpaid.

(Spray Nozzles continued on next page.)

(Spray Nozzles continued on next page.)

THE AUTO SPRAY.

HE AUTO SPRAY.

It operates with compressed air; safe and efficient; liquid capacity four gallous; pressure capacity, forty pounds. The Brown Auto-Spray is probably the first real successful Compressed Air Sprayer ever put on the market. Previous to its introduction there were other makes, some of them still being offered for sale. We have had a wide and and varied experience with the different ones, and after personal tests and uoting the experiences of our customers, finally adopted as our standard compressed air sprayer this make. No sprayer is sold under broader, guar antee for efficiency and durability. The Auto-Spray must please and will accomplish all that any first-class sprayer will or the purchase price will be refunded. They will successfully spray bushes, shrubbery and trees, the latter with the use of extension pipes. The brass tank sprayer is the best, as corrosive solutions can be used in it, without injuring the same, and the extra cost over the galvanized will prove a good investment. Pariller pozzle \$6.75

No. 1-A Brass, equipped with hose and regular nozzle, \$6.75.

No. 1-B Brass, equipped with hose and Auto-Pop Attachment, \$7.25.

No. 1-C Galvanized PATENTED. Iron, equipped with hose and regular nozzle, \$4.50.

No. 1-D Galvanized Iron, equipped with hose and Auto - Pop,

Auto-Pop Nozzle At-chment controls the ow instantly by a tachment by a hand. flow instantly by a pressure of the hand. When Auto-Pop Attachment is purchased separately, \$1.50 each.
COPPER STRAINER.

For straining white-wash, spraying mate-rial, etc. \$1.00 each.

"Acre-an-Hour" Duster. 50c. 1 Paris Green. 50e. 11 cartons. Strictly 1919 pure. 1/4 lb., 10c.; pure. ¼ lb., 10c.; ½ lb., 15c.; lb., 30c.

THE NON-CLOG ATOMIC NOZZLE.

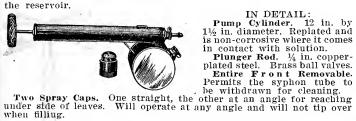

Is unequalled for perfect and even distribution of spray, fine mistlike effect, adaptability to various conditions, simplicity, accuracy of construction
and lightness iu weight. The uozzle is
made either of cast bronze or aluminum,
as required. It has full threads turned ou
a turret lathe and not stamped from thin
metal with spun threads. The nozzle may
be adjusted to throw every graduatiou of
spray, from a flue, wide bell shape to practically a solid stream throwing a distance of 20 feet. The adjustment
is simply made. ¼ in. thread. Non-Clog Junior, for small work,
60c.; Non-Clog Regular Aluminum, \$1.00; Non-Clog Regular Brass,
\$1.25. All above postpaid.

Tin Sprayer, No. 4. Heavy material, copper syphon tube, pump cylinder extra large, 2 in. diameter. Price, 40c. Parcel Post weight 3 lbs.

AUTO-SPRAY, No. 37—Continuous Sprayer.

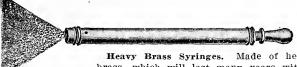

Made in two sizes, oue quart and one-half gallon capacity. Will handle all solutions, insecticides and disinfectants. May be used for all plant life, in the greeuhouse, kitchen gardeu, for rose bushes and in the poultry house. The one-half gallon size is ideal for the florist or for field work where there is not a great area to cover. Both sizes are identical in construction with the exception only of the size of the reservoir.

when filling.

Screw Caps Re-inforced with thumb levers-easy to turn. LIST PRICES:

Keystone Roller Bearing Lawn Rollers. To raise a velvety, thick lawn and keep it so the lawn roller is a great aid. In the Spring, after a season of freezing and thawing, the ground becomes uneven and porous, and receding from the grass roots. If allowed to settle of its own accord the lawn is left rough and the grass liable to die off in high spots. If pressed back firmly and evenly with a lawn roller the chances for a new, velvety lawn are more favorable.

No. 501, diam. 15 in., 2 sec., weight 150 lbs., length 15 in., \$ 8.50 No. 504, diam. 20 in., 2 sec., weight 250 lbs., length 20 iu., \$11.50 No. 507, diam. 20 in., 2 sec., weight 300 lbs., length 24 in., \$14.50 No. 509, diam. 24 in., 2 sec., weight 400 lbs., length 24 in., \$19.50 Lawn Padders. Very useful in padding dowu seed, where a roller cannot be used. Two strong boards, 9¼ in. by 20 in., arranged each with a rope attached to the feet. Price, complete, \$1.00 per pair.

Horse Lawn and Field Rollers and Other Size Hand Rollers. Prices furnished upon application.

furnished upon application.

Waukegan-Cyclone Sanitary Wire Fencing

BEFORE.

იბი ა

Style "F" is our most Style "F" is our most popular sanitary wire fence. Pickets are all No. 9 heavily galvanized wire, spaced 1% in. apart at bottom, 2% in. at top, making fence a b s o l u t e l y chicken tight

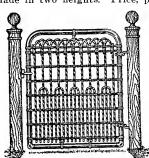

tight. Regular heights are 36 in., 42 in. and 48 in. Other heights up to 84 furnished.

Price per lineal foot, Style "F." 36 in., 10c; 42 in., 11c.; 48 in., 12c. Three foot walk gate to match, \$2.50.

Height, 36 in.; diameter, 28 in. Price,
\$2.25.

Height, 28 in.; diameter, 18 in. Price, \$1.85.

Wire Tree Guard. Carefully galvauized, thoroughly made, 8 inches diameter, \$1.25 each; per doz., \$13.50.

Coldwell's Improved" Horse Lawn Mower

This well-known standard mower has side draft attachment that enables the horse to walk on the cut grass only, and caster rollers which will not mark the lawn. Evenness of cut is assured by an adjustment which raises or lowers the two sides at the same time by means of a simple lever movement. This same lever serves the purpose of raising the knives from the ground when driving over the gravel walks or roads. Prices: 25-in. cut (no shafts), \$35: 30-in. cut (complete), with seat and shaft, \$60.

Coldwell Demountable Cutter Unit Horse Lawn Mower. Like the above, but has two revolving cutters, which can be replaced very quickly. 30-in. machine, \$100.

The "Clipper" Mower. There are three things that tend to destroy your lawns—dandelions, buck plantains and crab grass. In one season the Clipper will drive them all out. No. 1, 12-in. cut, \$6.75; No. 2, 15-in. cut, \$7.50; No. 3, 18-in. cut, \$5.0; No. 4, 24-in. cut, \$9.50.

Pony Mower, 24-in. cut, \$20.00.

LAWN MOWER SHARPENING. This work is done for us by a competent mechanic, and we can insure entire satisfaction.

Coldwell's Combination Roller and Motor

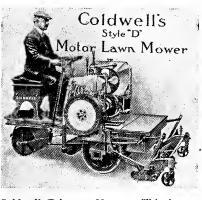

Coldwell's Combination Roller and Motor Lawn Mower, Style F, is designed for use on small estates, tennis grounds, etc., not sufficiently large to warraut the purchase or use of one of the larger and heavier machines.

style F.

Style F.

Clutches are provided to throw the traction rollers, as well as the revolving cutters in and out of gear. The workmanship and finish of this mower is guaranteed. Price, \$475.00.

Style "D." This mower s highly recommended and is used by leading country and golf clubs and in the city parks and cemeteries. Catalogues and prices will be furnished ou applica-tion. Special price, \$1,300. Coldwell's "Demountable Cutter Unit" Putting Green

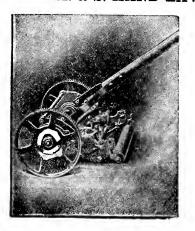

Cutter Unit" Putting Green
Mower. In this mower every requirement pertaining
to the cutting of putting
and bowling greens has
been cousidered and provided for. Each machine
is provided with two comlete cutting parts one to plete cutting parts, one to be in use while the other is being sharpened. Re-moved or attached in a moment. Price, 18-in. cut, \$30.00.

\$30.00.

Pratt's Animal Regulator is a regulator, digestive

Pratt's Animal Regulator is a regulator, digestive and mild tonic. The ingredients consist of pure medicinal roots, herbs and barks, carefully blended in the exact proportions necessary to gently but surely act on the blood, bowels, liver and digestive organs of horses, cows, sheep and hogs. It causes perfect digestion.

Ordinarily a great quantity of food given to stock is wasted on account of imperfect assimilation. Pratt's Animal Regulator stops that at once. The worst run-down animal can be given Pratt's Animal Regulator according to directions, and an improvement will be seen almost at once. Pkg., 25c. and 50c.; bags, 75c. and \$1.50.

For good results always sow M. & S. Special Grass Mixture for Hay and Pasture

300 Eggs Size.\$35.00

NEWTON GIANT COLONY BROODER.

Heat automatically regulated by Thermostat. Temperature held at the right degree all the time without attention.

Because it burns hard coal, colony houses are as safe from fire as your home with its coal-burning stove and heater.

The Coal Magazine of the "Giant" is filled from the top, above the Deflector, and holds 60 pounds of coal.

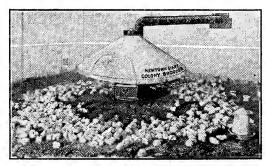

COAL-BURNING-SELF-REGULATING.

Coal is fed to the fire automatically. As one piece of coal is consumed another drops into its place, insuring a constant, even fire.

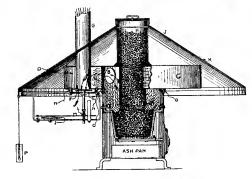

It saves much labor, because it needs coaling only every forty-eight hours in the severest weather, and raking but once in 24 bours un-der normal der normal
weather conditions. One filling of Coal Magazine bas been
sufficient for
ninety-six hours
during mild
weather.
The 1000 to 1500
chick "Giant"
consumes ap-

ronsumes consumes approximately eight cents worth of coal a day during the severest weather. Witb coal at \$7 a ton. An oil brooder or brooders to accommodate the same number of chicks requires 5

chicks requires 5 gallons of oil, an approximate cost of 55 cents a day. All gases and theat pass from the fire into a Heat Radiator above the fire—which extends out from the Henter—and are utilized. This means great fuel economy. economy.

In Operation, Showing 1000 Chicks. The Simplest, Safest and Most Economical.

Cross Section View.

(Sizes and Prices on next page.)

NEWTOWN BROODER--Continued

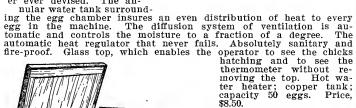

No pulleys, pulley cords or counter-balance weights to get out of order and slip. Heat Deflector need not be raised to coal and shake the fire or to remove the ashes.

THE PEEPY GEM INCUBATOR.

The Peepy Gem Incubator is a low-priced, carefully made machine, with patented features. It has been tested by thousands of successful operators, and is not to be compared for a moment with cheap, hotair machines, as it is constructed with double walls and top one and one-half inches thick, solidly packed with wool felt. It is constructed of cypress, basswood and poplar, very carefully finished. The door hinged at the bottom and closes snugly against wool felt packing, is one inch thick and fitted with double glass; the legs as shown, are strong and reach to top of case and are fastened with screws; egg chamber is roomy and nursery is provided with removable bottom for easy cleaning.

Peepy Incubator.

It is heated by our patented hot water system, fitted with a brass double wafer and regulator, table top, and has safety lamp, tested thermometer, egg tester, egg tray and full directions. Ready for instant use. Capacity, 50 eggs. Price, \$6.00.

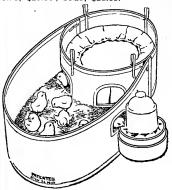

THE CYCLE HATCHER.

"Philo" Cycle Hatcher is designed to take the place of the hen and the large, clumsy incubators, and to carry out the development of the embryo chick in the egg to a living, healthy bird by a device approaching nearer to the stage of perfection in construction, operation and control of the moisture than anything on the market to date. Send for special catalogue on "Philo" goods. Cycle Hatchers, co mplete with Lamp, Thermometer, etc. One, \$6.00; "Philo" Cycle Hatcher is designed

No. 8 and 10 Mandy Lee Fireless Brooder. These can be used in or outdoors, according to the condition of the weather.

No. 8 will hover 50 chicks. Price, \$5.00.

No. 10 will accommodate 100 chicks. Price, \$8.00.

The 60-Chick Indoor Brooder. (Heated.) Accommodates uicely more than 60 chicks. This brooder is just the thing to go with a 60-egg incubator. For larger machines we recommend the Regular "Mandy Lee" and the Secondary Brooder. The Secondary is intended, as its name indicates, for chicks two or three weeks old or after they have been through the Regular Brooder. Price, as illustrated \$\frac{1}{2} \frac{1}{2} \fra after they h trated, \$5.00.

THE INTERNATIONAL SANITARY HOVER.

The International Sanitary Hovers have where will work the constructed and the constructed are sary. There is no better place than in your regular hen houses.

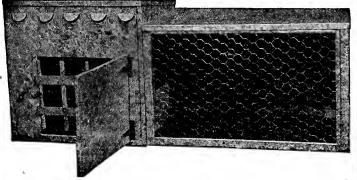

Sanitary Hovers, are as practical for the small back-yard poultry raiser as for the large poultry farms. They are fire-proof and vermiu-proof—warmest at the curtain, radiate heat downward on the backs of the chicks, and in this way prevent leg weakness—usable anywhere—ready for business wherever placed. To set them up, you simply set them down. No crowding or smothering of chicks—no kneeling in mud to get at the lamp—no cutting of holes or building of platforms. You want the best brooding device—you will get it in the Sanitary Hovers. Capacity, 100 chicks. Price, \$8.50 each.

The International Sanitary Hovers have stood every climatic test from Panama to Quebec. Practical poultrymen, state experiment stations, and poultry judges indorse them. You can raise chicks anywhere with Juternational Sanitary Hovers. No specially constructed houses are necessary. There is no better place than in your regular hen houses

The International Sanitary Mammoth Hover. A blue-flame Hover for 500 to 600 chicks.

The International Sanitary Hover.

Hover—the one perfect brooding device. When not in use, it can be hung from the ceiling, or against the wall, it is a great time saver, for after lighting the wick no more work is required to operate it other than to fill the oil tank when necessary. It is portable and can be used anywhere. Price, \$25.00.

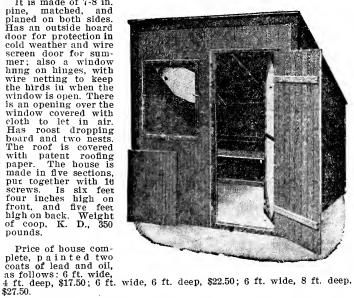

M. & S. Metal Coop and Run. For hen with chicks. All galvanized iron; can be taken apart and folded up. Size, 18 iu. wlde, 42 in. long, 18 in. high. Price, complete, \$3.50.

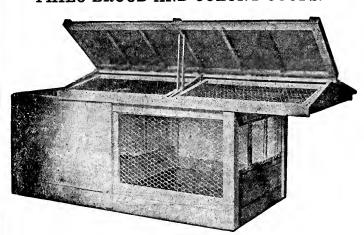

POULTRY HOUSES, BROOD COOPS, ETC.

The M. & S. Portable Colony Poultry House.

It is made of 7-8 in. pine, matched, and planed on both sides. Has an outside hoard Has an outside noard door for protection in cold weather and wire screen door for summer; also a window hung on hinges, with wire netting to keep the hirds iu when the window is open. There is an opening ever the window is open. There is an opening over the window covered with cloth to let in air. Has roost dropping board and two nests. The roof is covered with patent roofing paper. The house is made in five sections, pur together with 1st pur together with 16 screws. Is six feet four inches high on front, and five feet high on back. Weight of coop, K. D., 350 pounds pounds.

PHILO BROOD AND COLONY COOPS.

The New Philo Adjustable Coop.

Adjustable Coops. Complete, one, \$12.50; four, each, \$12.00. Brooder Coops. Complete, one, \$8.50; six, each, \$8.00. Economy Coops. Complete, one, \$10.50; six, each, \$10.00. Winter Colony Coops. Complete, one, \$21.50; two, \$42.00; four, \$80.00. Summer Colony Coops. Complete, one, \$14.00; two, \$27.50; four, \$50.00.

\$52.50.

New "Philo" Utility Coop. For use in the South, \$37.50; for use in the North, \$43.00.

New "Philo" Utility Coop. For use in the North, \$43.00.

The "Standard" Brood Coop. For hen with chicks. Is rain-proof, rat-proof, vermin-proof, and au absolutely safe and sanitary home. Of first importance to the raising of little chickens is a properly ventilated coop, consequently this matter was given the closest atteution. Around the bottom of the "Standard" Coop we have turned out small openings similar to the ventilatious on automohile hoods. Price, \$2.00; ½ doz., \$10.00.

The "Philo" System Coops. As space will not allow us to go into details, we suggest to our customers to let us send them interesting and instructive books on "Philo" System Goods.

(Brood Coops continued on next page.)

January 8, 1913. Gentlemen: It gives me pleasure to write you and tell you the good success that I had during the spring of 1912 with the 60-egg Mandy Lee Incubator purchased from you early in 1912. The hatch that I made, I believe, is a record on this small machine. Started the machine with sixty (60) eggs and made a hatch of fifty-two (52) and raised forty-seven (47) of the fifty-two (52) hatched. These pullets are now laying, and have been since the middle of November, and thinking that you may be interested in the enclosed picture of them, I take pleasure in handing you a copy. Respectfully yours, B. M. OBERDORFER, No. 21 S. Hanover St.

BROOD COOPS.

The Do perior Brood Packed be put t The bott vated so not ex dampness dampness, and a can be removed in an instant to be cleaned. All parts slide together in a bead and coop is perfectly rigid. Can

"REGAL" OATS SPROUTER.

REGAL

Dry mash before your fowls and a liberal supply of fresh succulent green food will not only make hens lay, but will act as a tonic and stimulative influcontact and stamulative influence on the digestive organs. Eggs in the winter months are worth money—then why not supply your fowls with a liberal supply of green food? The value of this machine can only be appreciated after you have tested it out. No wood is used in its construction, to warp and fall to pieces after a few days' use. Made from the best grade of Galvanized Steel. Double walled with heat flues running the full leugth inside. Every drop of moisture and drip goes direct into drip pan. This is one of our special features. Another important feature is the taking in of warm, fresh air not supplied by other makes. If directious are followed, there will be no moulding or sonring of grain.

Heat, an abundance of moisture or vapor in counection with a liberal supply of fresh air are the essential features required to sprout oats. Do your part and this machine will make sprouts several inches high in as many days. Absolutely safe and a piece of furniture that will look good in any kitchen. Made to give satisfaction.

Price, Fowls.

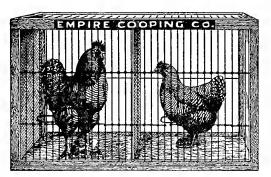

No. 1, 15x29, 3 trays and soaking tray.

SCHILD'S LIGHTNING LICE KILLING MACHINE.

For Eggs in Winter it Can't be Beat.

Look at the picture and see what a simple thing it is. Any man, woman or child can operate it. Yet it is so strongly made, so nicely painted, that one will last you almost a lifetime if given proper shelter. If you do not want your old fowls to suffer with Body Lice, Colds, Roup, Diarrhoea and Cholera in the cold fall and winter months, and if you want them to lay you eggs, use Schild's Lightning Lice Killing Machine

chine.

This Machine will clean from 20 to 50 little chicks, or seven to 9 old fowls, at one operation, according to age, size and hreed. It will absolutely do no harm to little chicks or laying hens. If you now own a badly rundown flock or any sick fowls, put them through the Schild Lightning Lice Killing Machine and see what it will do for them. If it does not make you open your eyes some, then it will be hecause you are stone hlind.

Norwich Automatic Feeders, Fountains, Etc.

THE NORWICH AUTO-MATIC EXERCISER AND FEEDER.

AND FEEDER.

This is an ingenious automatic machine for feeding and exercising poultry, and has, by force of its own merits in the short years of existence, established itself as the standard method of feeding in poultry culture.

Fill the hopper with any dry grain feed, or any mixture of dry grain feed, and the revolving bait bar with cracked corn. Stand the Feeder anywhere in the yard, pen or house, and put any kind of litter under machine. Adjust valve to feed desired quantity. Adjust legs for required height. Use for thirty days. At the expiration of that time, if you do not see a marked improvement in your flock, if your egg production is not increased, and if you are not absolutely satisfied with the machine, return it and we will at once refund your money. Larger sizes, prices on application. Discount on quantities. Send for full descriptive printed matter.

No. 2, 14-oft Hopper. Price, \$2.50

NORWICH CHICK FEEDER.

Made in Three Sizes.

Made in Three Sizes.

The body of the Norwich Chick Feeder is of galvanized steel with ends riveted and burred to malleable iron brackets, and with Removable Guard Rod to facilitate in filling and for thorough cleaning where sour milk is used. (Where chick feed or mash is used cleaning is unnecessary, as the feeder is always clean.) As it is water-tight it may be used for mash, chick feed, or sour milk with equal satisfaction, and will be found the strongest and best chick feeder ever

For outside use the Norwich Chick Feeder is fitted with a Rain Top, which protects the feed from both sun and rain, and the relief to the breeder in knowing that his chicks are supplied with clean, wholesome feed, protected from wetting and consequent souring, may be better imagined than described.

Norwich Automatic Apaco Poutry Feeder. In general design this feeder is built on the same lines as our well-known and justly famous Norwich Automatic Exerciser and Feeder, but is a hanging machine rather than arranged tomatic Exerciser and Feeder, but is a hanging machine rather than arranged with adjustable standard.

The machine is complete with the allimportant adjusting valve for regulating the discharge from the hopper, which is thoroughly covered by our U. S. Letters Patent, and which, for this reason, is always absent in any feeder on the market except those manufactured by our own company, and may be relied upon as a thoroughly dependable and practicable machine for the purpose for which it is intended.

Constructed of 28 gauge Galvanized, Tight Coated Sheeting, malleable and gray iron castings for the Valves, Agitators, Collars, etc., and the workmanship of the highest possible character, we unhesitatingly guarantee our APACO FEEDER as the best machine ever placed on the market at its price and offer it under the same guarantee that covers all our goods. Price, made in one size only, 12-qt. capacity, \$1.00. Shipping weight, 5 lbs. Sent postpaid anywhere east of the Mississippi River.

Riderwood, Md., Dec. 10, 1913. Gentlemen: I will send you my check the first of the month for the two No. 1 Norwich Automatic Feeders. Enter my order and ship at-once one No. 2 feeder and one Norwich Automatic Airlock Fountain. These two articles are fine. They make poultry keeping 100 per cent. easier. Yours truly, GEORGE F. ROBERTSON.

THE NORWICH AUTOMATIC AIR-LOCK FOUNTAIN

AIR-LOCK FUUNIAIN

The device is worked out on a simple example in Physics of atmospheric pressure as against the weight of water, and as it is a fixed principle of nature, the device is absolutely perfect in its action and may be relied upon to fill its functions as truly as any condition of nature with which you wish to compare it.

We guarantee the Norwich Automatic Air-Lock Fountain to be absolutely satisfactory in every respect, that it is positively frost-proof to ten degrees below zero, hygienic and sanitary. Failing to give satisfaction in every respect, the machine may be returned at our expense and the purchase price with delivery expenses will be refunded.

Price, made in one size only, 5 gallon capacity, complete with burner base, \$3.00; without burner base, \$2.00.

Norwich Automatic Drinking Fountain. To be attached to lard or butter tub. Price, \$1.00.

Without Rain Guard.

With Rain Guard.

THE NORWICH AUTOMATIC DRY MASH HOPPER

Guarantee: We guarantee the Norwich Automatic Dry Mash Hopper to be positively and absolutely non-cloggable, to be water-proof (when provided with Rain Guard) rain-proof, and perfect in its con-

Failing to give satisfaction in every respect, it may be returned at our expense and the purchase price, plus delivery charges, will be cheerfully refunded.

Made in one size only, 20-quart capacity.

Price, without Rain Guard, shipping weight 6 lbs., \$2.00; with Rain Guard, shipping weight 8 lbs., \$2.75. F. O. B. Baltimore, Md.

Moe's Sanitary Poultry Drinking Fountain

(Patented.)

The Most Popular Poultry Fountain on the Market. Fills from the Top.

Dead air space between cover and reservoir keeps water cool in summer and from freezing in winter. Sanitary and humane. Manu-

THE UNIVERSAL **FEED** HOPPER

Six Compartments.

Our Universal Hoppers are 24 in. long, 6½ in. wide and 18½ in. deep. They have two 6 in. and four 3 in. compartments, enabling you to give your fowls six different kinds of feed separately. They are made of galvanized steel, strong and durable; and when closed, are rat, mouse and dust-proof.

Price 2 90 each; shipping weight about 15 lbs.

Price, \$2.00 each; shipping weight about 15 lbs.

Price, \$2.00 each; shipping weight about 15 lbs.

The "6-in-1" Feeder. Is a large hopper supported on four strong iron legs and designed to keep constantly before chickens all the food necessary for them. Connected with the central hopper (that for mixed grain) is an "agitator" loaded with whole corn as bait. When the fowls pick at the bait, a small quantity of the mixed grain falls on the deflector, and is scattered widely in the litter on the floor. Scratching vigorously for grains, the hens get just the exercise they need.

The compartments for dry mash, meat, oyster shell, grit, and charcoal (or any other combination, of course) are arranged so that the materials flow readily into outside compartments within easy reach of the hens on the perch. This perch is strongly constructed and completely surrounds the feeder. The outer compartments are walled in such a way as to make impossible mixing or waste of foods. The hens move around the perch, eating from one compartment after another and so balancing their ration. Price, 40-qt., \$4.75; 20-qt., \$3.75. Outdoor Hoods, small, 75c.; large, \$1.00.

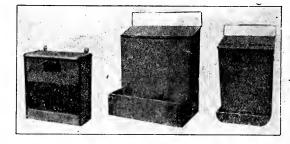

Fig. 4. Fig. 5. Fig. 6.

Round Bottom Grit and Shell Box. Round bottom—a feature absolutely new to grit and shell boxes. No clogging of grit and shell in the corners. Easily the most satisfactory grit and shell box ever placed on the market. 50c. and 75c. Fig. 6.

Rectangular Grit and Shell Box. Liked by many because dust and straw cannot easily get into the trough. Price, 40c. Fig. 4.

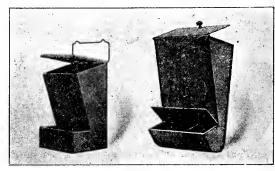

Fig. 9.

(Illustrations of Figs. 5, 9 and 10 on page 60.)

Straight Front Dry Hood Hopper. Fig. 5. At least as good as any other straight-front hopper made, and lower in price. Perfectly straight front, which causes the contents to feed readily. Lip in front. Wire bars to keep the fowls from wasting food. Two compartments. Price, 60c.

Round Bottom Dry Food Hopper. Fig. 9. The hopper you will eventually buy. Sure to replace all other makes of dry food hopper. Owing to the rounded bottom, dry mash and beef scrap feed readily and never clog. Two compartments. Price, 65c.

Slant Front Dry Food Hopper. Fig. 10. Heavier and stronger than most of its competitors of the slant-front variety. Price, 65c.

"Apex" Feed Pans. Made of galvanized iron, strongly wired. Almost indestructible. Shallow for chicks. Made in two sizes: No. 1, 6x7 in. and 1 in. deep, capacity about 1½ quarts, 15c. No. 2, 7½x8½ in. and 1½ in. deep, capacity about 1½ quarts, 20c.

SANITARY AND UP-TO-DATE FOUNTAINS.

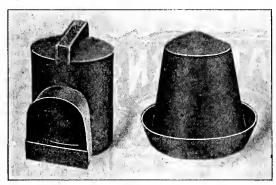

Drop-Bottom Founts. Fig. 8.
28-gauge galvanized steel Easiest thing in the world to open and clean. Clasp by which the bottom is fastened fits over the small hole under the hood, preventing slopping of water when the fount is handled. Solid brass hinge rod—no rust. handled. Sol rod—no rust.

-quart\$.45

galvanizing is done first, turn-ing the edge cracks it and makes it liable to rust. We can also furnish these with flat

Fig. 8. top, price same. Price, 1-qt., 20c.; 2-qt., 25c.; 4-qt., 35c.; 8-qt., 50c.

No. 2—Two-Piece and Wall Fountain—Fig. 3.

Wall Founts. Fig. 2. All these wall founts have hoods over the troughs, which prevent dirt from settling in the water. Can be hung up on wall, and for this reason are preferred by many to the two-piece fount, which must be placed on the floor. Price, 1-gal., 50c.: 2-gal., 75c.

"Apex" Wall Feed Pan.

"Apex" wan Feed Pan.
It can be hung high or
low out of the way. Easy
to clean. Can be used
for feed, grit, etc. Price,
35c. and 25c.

THE X 39 SOLE 000000

DUCK FOUNT

"Anex" Single Chick Feeders. Are made with hinged top, provided with small rings to hang on wall if desired. Made in four sizes of three, six, nine and twelve holes. Price, 25c., 35c., 50c. and 75c.

"Apex" Double Chick Feeders. Are made with the readily removable patent slip top. Chicks can feed from both sides. Made in three sizes of six, ten and fourteen holes. Price, 35c., 50c. and 75c.

"Apex" Duck Fountain. This fountain has been constructed along the lines of the "Apex" feeders, without, however, having the "Apex" bottom. The duck can readily drink, but cannot get the bill into the water far enough to "wallow." Two sizes, 2 qts., 50c., and 4 qts., 75c.

Simplicity Chick Server is an especially constructed trough for feeding baby chicks. It is made from galvanized steel 20 in. long and so constructed that the chicks cannot waste the feed. Price, 25c.

Atsatt Chick Feeder. servicable; galvanized iron; protected top to keep chicks out. Price, 25c.

<u>PIGEON FOUNTAINS, BATH PANS, NESTS, ETC.</u>

(Patented.) Round Drinking Pan affords accom-modations for a large number of birds at the same time.

Drinking surface protected by a hood to prevent contamination. Can be hung up or placed on the floor. No. 1 Moe's Pigeon Fountain, one gallon capacity, \$1.25.

Feed Cups for Exhibition and Training Cages. Fig. 2. Large size, 20c. each. \$1.75 doz.; small size, 15c. each, \$1.50 doz.

"Apex" Pigeon Bath Pan. These are of best "Apex" Pigeon Bath Pan. These are of best quality galvanized iron, riveted corners, wired with heavy wire, will not rust, and with ordinary care should last for years. Sizes: 18 in. square, 4 in. deep, capacity about 5 gal., \$1.00.

\$1.00.
Clay Pigeon Nest. Price, 15c.; doz., \$1.50.
Earthenware Poultry and Pigeon Fountains. Fig. 1. Especially adaptable for warm weather, as the water does not get so hot in them. Price, pint size, 20c.; qt., 25c.; 2-qt., 35c.; 4-qt., 45c.; 8-qt., 60c.

EGG TESTERS, INCUBATOR LAMPS, BURNERS, ETC.

Magic Egg Tester. Guaranteed to tell fertility of eggs before putting them in incubator or under hen. No poultry man should be without it. Price, \$2.00; postpaid.

X-Ray Egg Tester.

Philadelphla Poultry larker. Large and Marker.

I began using your Park & Pollard's Dry Mash which makes them lay; also your Scratch Food, on October 1st, 1913. Am glad to let you know with what results I met from the use of same. My hens started laying on November 10th, 1913, and up to the present time there has only been three days that I failed to get eggs. I also used your Park & Pollard's Chick Feed and Growing Feed with equal success. I take pleasure in recommending all your feeds to my friends. At the present time I have ten hens—Rhode Island Reds, 18 months old—and I am getting three to five eggs daily. Yours truly,

ARCHIBALD S. SHAFER, 920 Gorsuch Ave., Baltimore, Md.

INCUBATOR THERMOMETERS, CAPONIZING SETS, ETC.

"Tycos" Incubator Thermometer, No. 5770. Many poultry raisers prefer the standing type of incubator Thermometer. The Meyer-Stisser Co., Baltimore, Md.

Gentlemen: The Poultry and Pigeon Feed furnished by you for our Exhibition January 6th to 10th, 1914, gave complete satisfaction and was fully up to the sample submitted. A number of exhibitors have already written that their fowls came back in excellent condition, and such reports are very gratifying to our officials.

Very truly yours,

G. O. BROWN, Secretary,
Maryland Poultry and Pigeon Association.
